Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Antimicrobials Division prior to the use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA sec. 3(c)(7)(A) provided you:

1. Submit and/or cite all data required for registration/ reregistration of your product under FIFRA sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data.
2. Submit two copies of the revised final printed label for the record changing the EPA File symbol 71146-E to EPA Registration Number 71146-2.
3. Revise Directions for Use accordingly: Change "Maintain at 1-2 PPM" to "Maintain at 0.5-1.0 PPM of dissolved copper" at all times with the use of a test kit. Add the following: Use the higher rate when visible algae are present. For maintenance dosages, use the lower rate. Repeat the lower rate to control the recurrence of algae and to avoid the buildup of copper. At the end of the Directions for Use add the following: Treated pool water must not be discharged where it will drain into lakes, streams, ponds or public water.
4. Delete the following: Note: Treated water should not exceed 4 PPM Copper Sulfate pentahydrate.

Submit 2 finished copies of your revised labeling prior to release for our files.

Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.
