U.S. ENVIRONMENTAL PROTECTION AGENCY

Office of Pesticide Programs
Antimicrobials Division (7510C)
1200 Pennsylvania Avenue NW
Washington, D.C. 20460

EPA Reg. Number:

71146-2

Date of Issuance

JUL 1 2011

Term of Issuance:

Conditional

Name of Pesticide

Product:

Chlor Nomore Brand

NOTICE OF PESTICIDE:

Registration
[X] Reregistration

(under FIFRA, as amended)

Name and Address of Registrant (include ZIP Code):

CNM Technologies, Inc.
94 Gardiners Avenue, Suite 242
Levittown, N. Y. 11756

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

Based on your response to the Copper Sulfate Pentahydrate RED, the EPA has reregistered this product subject to the comments recorded in the succeeding paragraph. This action is taken under the authority of section 4(g) (2) of the Federal Insecticide, Fungicide and Rodenticide Acts, as amended. Reregistration under this section does not eliminate the need for continual reassessment of pesticides. The EPA may require submission of data at any time to maintain the registration of the subject product.

1. Make the following label changes:

a. The EPA Registration Number to read "71146-2".

Signature of Approving Official:

Marshall Swindell
Product Manager Team-33
Regulatory Management Branch I
Antimicrobials Division (7510P)

[Handwritten signature of Marshall Swindell]

Date:

JUL 1 2011

b. Based on toxicity ranking per the acute toxicity review, the First Aid statements should be must be placed on the label in the following order:

"IF IN EYES:
IF SWALLOWED: ...
IF ON SKIN OR CLOTHING: ...
IF INHALED:..."

c. As specified in the acute toxicity review, a phone number for emergency medical treatment information should be added to the label.

d. The Agency recommends that additional text be added to the Note to Physician that addresses eye irritation concerns.

e. Per the acute toxicity review, the Hazards to Humans and Domestic Animals must be revised to read:

"DANGER
Corrosive. Causes irreversible eye damage. May be fatal if swallowed. Do not get in eyes, or on clothing. Wear goggles or face shield, chemical-resistant gloves, long sleeved shirt, long pants, shoes and socks. Wash hands before, eating, drinking, chewing gum, using tobacco, or using the toilet. Wash thoroughly with soap and water after handling. Remove and wash contaminated clothing before reuse"

f. Per the product chemistry review, revisions are needed to the storage and disposal section of the label. Please comply with PR Notice 2007-4.

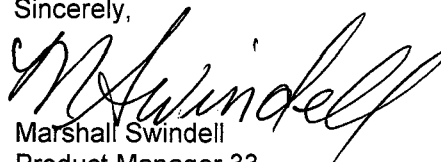

2. For additional labeling clarity and consistency, please refer to the enclosed EPA reviews.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec.6(e). Your release for shipment of the product constitutes acceptance of these conditions.

Submit two (2) copies of the revised labeling bearing the labeling revisions listed above. A stamped copy of the label is enclosed for your records.

If you have questions concerning this matter, please contact me at (703) 308-6341 or by email at swindell.marshall@epa.gov or Martha L. Terry at (703) 308-6217 or by email at terry.martha@epa.gov.

Sincerely,

Marshall Swindell

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER. KEEP OUT OF REACH OF CHILDREN. Causes severe eye and skin irritation. Harmful if absorbed through the skin or inhaled. May cause skin sensitization reaction in certain individuals. Avoid contact with skin, eyes or clothing. Avoid breathing dust. Protective clothing, including goggles, should be worn. Avoid contamination of food. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash before reuse.

STATEMENT OF PRACTICAL TREATMENT – FIRST AID

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage.

ENVIRONMENTAL HAZARD

This pesticide is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product into sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage and disposal.

PESTICIDE STORAGE- Do not store on side. Avoid creasing or impacting of side walls. Store in securely closed original container. Avoid storage at temperature extremes or in sunlight. Use locked storage in an area that will prevent cross-contamination of other pesticides, fertilizer, food and feed. Store in locked area inaccessible to children.

PESTICIDE DISPOSAL – Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture or rinsate is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste Representative at the nearest EPA Regional Office for guidance.

Any unused orbs still in unopened container should be securely wrapped in several layers of newspaper and discard in trash

CONTAINER DISPOSAL – The outer box container is discarded in trash. The used orb is wrapped in several layers of newspaper and discarded in trash. Or if permitted, dispose of the recyclable orb into the plastics recycle bin.

CHLOR NOMORE™ Brand

A SWIMMING POOL ALGAECIDE

ACTIVE INGREDIENT:

Copper sulfate pentahydrate*..... 99.0%
INERT INGREDIENTS..... 1.0%
TOTAL.....100.0%

* Metallic copper equivalent...25.2%

* Copper as Metallic

* CAS No. 7758-99-8

KEEP OUT OF REACH OF CHILDREN DANGER

MARKETING CLAIMS

- Carefree instead of constant
- Cost less instead of more
- Advanced instead of outdated
- Odorless instead of offensive
- Good for 90 days – Season supply
- New
- Once a season chlorine alternative
- Reduces chlorine usage up to 80%
- ChlorNoMore™ is a trademark of CNM Technologies, Inc
- ©1998 CNM Technologies, Inc. Patent pending
- We welcome your comments and success stories
- Designed for use in pools with vinyl liners only
- Good for one winter season supply
- Orb for all seasons
- Winter formula ionizing orb by the makers of ChlorNoMore™
- The easiest and fastest way to close your pool for the winter.
- Not for use in Gunnite Pools

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

ALGAECIDE:

To be used in swimming pools to (kill algae) control green, blue-green and yellow algae. Remove filth such as leaves, branches and heavy algae growth.

SHOCK TREATMENT MAY BE NECESSARY BEFORE ORBS ARE USED. If necessary, add 2 ounces per 5000 gallons of water.

SEE CHART BELOW FOR CORRESPONDING ORB FOR POOL SIZE
Remove orb from package. Place into skimmer basket (with filter running). Allow 8 hours before reentering (entering) pool. Maintain at 0.5-1.0 PPM of dissolved copper at all times with the use of a test kit. Use the higher rate when visible algae are present. For maintenance dosages, use the lower rate. Repeat the lower rate to control the recurrence of algae and to avoid the buildup of copper.

ONE ORB SHOULD LAST ONE SEASON - ABOUT THREE MONTHS
However factors such as water hardness, temperature, flow rate, amount of algae present or type of algae present may have an impact on the ppm level in the pool. Treated pool water must not be discharged where it will drain into lakes, streams, ponds or public water.

CHART FOR POOL SIZES: IONIZING ORBS - SUMMER

3,000 TO 4,000 GALLONS - 1 YELLOW ORB (1 to 2 ounces)
5,000 TO 10,000 GALLONS - 1 BLUE ORB (2 to 5 ounces)
10,000 TO 15,000 GALLONS - 1 GREEN ORB (5 to 8 ounces)
15,000 TO 20,000 GALLONS - 1 ORANGE ORB (8 to 10 ounces)
20,000 GALLONS & ABOVE - USE MULTIPLE ORBS PER CHART

CHART FOR POOL SIZES: WINTER IONIZING ORB

5,000 TO 20,000 GALLONS - 1 BLACK ORB
FOR UP TO 20,000 GALLON SWIMMING POOLS

ALGAECIDE: To be used in swimming pools to control green, blue-green and yellow algae. Remove filth such as leaves, branches and heavy algae growth. Make sure you have an established chlorine residual of 2 ppm before covering your pool. Remove orb from package. Place in skimmer basket with filter running. Allow water to circulate for 8-12 hours before disconnecting filter. Remove and dispose of used orb. This winter ionizing orb treats all swimming pools up to 20,000 gallons. Do not attempt to open orb.

**ACCEPTED
WITH COMMENTS
EPA Letter Dated
JUL - 1 2011**
Under the Federal Insecticide,
Fungicide, and Rodenticide Act as
amended, for the pesticide,
registered under EPA Reg. No. 71146-2

Corresponding orb contains 2 ounces active chemistry per 5000 gallons of water.
Do not attempt to open orb.
See poolcare manual for additional precautionary statements.
