OFFICE OF CHEMICAL SAFETY  
AND POLLUTION PREVENTION

JUL 09 2013

CNM Technologies  
94 Gardiners Ave - Ste 242  
Levittown, New York 11756

Attention: Jonathan J. Bonelli

Subject: Chlor Nomore Brand  
EPA Reg. No. 71146-2  
Amendment Letter dated April 15, 2013

You request to change the following:

- Rearrange order of first aid statements
- Add emergency medical phone number
- Add eye irritation text concerns to the Note to Physician section
- Amend precautionary statements
- Amend container disposal section

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), Section 3(c)(5), is acceptable.

If you have any questions concerning this letter, please contact Elizabeth Hernandez at (703) 347-0241.

Sincerely,

A handwritten signature in black ink that reads "Marshall Swindell".

Marshall Swindell  
Product Manager (33)  
Regulatory Management Branch 1  
Antimicrobials Division (7510P)

**PRECAUTIONARY STATEMENTS**

**HAZARDS TO HUMANS AND DOMESTIC ANIMALS**  
DANGER. Corrosive. Causes irreversible eye damage. Maybe fatal if swallowed. Do not get in eyes or on clothing. Wear goggles or face shield, chemical-resistant gloves, long sleeved shirt, long pants, shoes and socks. Wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet. Wash thoroughly with soap and water after handling. Remove and wash contaminated clothing before reuse.

**STATEMENT OF PRACTICAL TREATMENT - FIRST AID**

**IF IN EYES:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.  
**IF SWALLOWED:** Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.  
**IF ON SKIN OR CLOTHING:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.  
**IF INHALED:** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. Call 800-222-1222 for emergency medical treatment.

**NOTE TO PHYSICIAN:** Probable mucosal damage may contraindicate the use of gastric lavage. For eye irritation concerns, contact eye doctor.

**ENVIRONMENTAL HAZARD**

This pesticide is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product into sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

**STORAGE AND DISPOSAL**

Do not contaminate water, food or feed by storage and disposal.  
**PESTICIDE STORAGE:** Do not store on side. Avoid creasing or impacting of side walls. Store in securely closed original container. Avoid storage at temperature extremes or in sunlight. Use locked storage in an area that will prevent cross-contamination of other pesticides, fertilizer, food and feed. Store in locked area inaccessible to children.  
**PESTICIDE DISPOSAL** - Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture or rinsate is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste Representative at the nearest EPA Regional Office for guidance.

**CONTAINER DISPOSAL** - The outer box container is discarded in trash. Nonrefillable orb. Do not re-use or refill the orb. The used orb is wrapped in several layers of newspaper and discarded in trash. Or if permitted, dispose of the recyclable orb into the plastics recycle bin.

Any unused orbs still in unopened container should be securely wrapped in several layers of newspaper and discard in trash.

**CHLOR NOMORE™  
Brand**

A SWIMMING POOL ALGAECIDE

**ACTIVE INGREDIENT:**

Copper sulfate pentahydrate\* ..... 99.0%  
INERT INGREDIENTS..... 1.0%  
TOTAL..... 100.0%

- \* Metallic copper equivalent... 25.2%
- \* Copper as Metallic
- \* CAS No. 7758-99-8

**KEEP OUT OF REACH OF CHILDREN**

**DANGER**

NET CONTENTS:

**MARKETING CLAIMS**

- Carefree instead of constant
- Cost less instead of more
- Advanced instead of outdated
- Odorless instead of offensive
- Good for 90 days - Season supply
- New
- Once a season chlorine alternative
- Reduces chlorine usage up to 80%
- ChlorNoMore™ is a trademark of CNM Technologies, Inc
- ©1998 CNM Technologies, Inc. Patent pending
- We welcome your comments and success stories
- Designed for use in pools with vinyl liners only
- Good for one winter season supply
- Orb for all seasons
- Winter formula ionizing orb by the makers of ChlorNoMore™
- The easiest and fastest way to close your pool for the winter.
- Not for use in Gunnite Pools

**DIRECTIONS FOR USE**

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

**ALGAECIDE:**

To be used in swimming pools to (kill algae) control green, blue-green and yellow algae. Remove filth such as leaves, branches and heavy algae growth.

**SHOCK TREATMENT MAY BE NECESSARY BEFORE ORBS ARE USED.** If necessary, add 2 ounces per 5000 gallons of water.

SEE CHART BELOW FOR CORRESPONDING ORB FOR POOL SIZE  
Remove orb from package. Place into skimmer basket (with filter running). Allow 8 hours before reentering (entering) pool. Maintain at 0.5-1.0 PPM of dissolved copper at all times with the use of a test kit. Use the higher rate when visible algae are present. For maintenance dosages, use the lower rate. Repeat the lower rate to control the recurrence of algae and to avoid the buildup of copper.

ONE ORB SHOULD LAST ONE SEASON - ABOUT THREE MONTHS  
However factors such as water hardness, temperature, flow rate, amount of algae present or type of algae present may have an impact on the ppm level in the pool. Treated pool water must not be discharged where it will drain into lakes, streams, ponds or public water.

**CHART FOR POOL SIZES: IONIZING ORBS - SUMMER**

- 3,000 TO 4,000 GALLONS - 1 YELLOW ORB (1 to 2 ounces)
- 5,000 TO 10,000 GALLONS - 1 BLUE ORB (2 to 5 ounces)
- 10,000 TO 15,000 GALLONS - 1 GREEN ORB (5 to 8 ounces)
- 15,000 TO 20,000 GALLONS - 1 ORANGE ORB (8 to 10 ounces)
- 20,000 GALLONS & ABOVE - USE MULTIPLE ORBS PER CHART

**CHART FOR POOL SIZES: WINTER IONIZING ORB**

- 5,000 TO 20,000 GALLONS - 1 BLACK ORB
- FOR UP TO 20,000 GALLON SWIMMING POOLS
- ALGAECIDE:** To be used in swimming pools to control green, blue-green and yellow algae. Remove filth such as leaves, branches and heavy algae growth. Make sure you have an established chlorine residual of 1-2 ppm before covering your pool. Remove orb from package. Place in skimmer basket with filter running. Allow water to circulate for 8-12 hours before disconnecting filter. Remove and dispose of empty orb. This winter ionizing orb treats all swimming pools up to 20,000 gallons. Do not attempt to open orb.

See poolcare manual for additional precautionary statements.
