Subject: Label Amendment – Changes Required by the Copper Compounds Amended Interim Registration Review Decision
Product Name: Chlor Nomore Brand
EPA Registration Number: 71146-2
Received Date: 7/25/2022
Action Code Case Number: 00673295

Dear Julian Chen:

The amended label referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA), as amended, is acceptable. This approval does not affect any conditions that were previously imposed on this registration. You continue to be subject to existing conditions on your registration and any deadlines connected with them.

The Agency, in accordance with the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA), as amended, has completed reviewing all of the information submitted with your application to support the Registration Review of the above referenced product in connection with the Copper Compounds Amended Interim Decision, and has concluded that your submission is acceptable.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling and must be used at your next label printing. Pursuant to 40 CFR 156.10(a)(6) you must submit one copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.130(c), you may distribute or sell this product under the previously approved labeling for 12 months from the date of this letter. After 12 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. "To distribute or sell" is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under FIFRA and is subject to review by the Agency. See FIFRA section 2(p)(2). If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process, FIFRA section 12(a)(1)(B). Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance.

Your release for shipment of the product constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6. If you have any questions, please contact Megan Snyderman by phone at 202-566-0639, or via email at snyderman.megan@epa.gov.

Sincerely,

Kimberly Whitesell

Enclosure: Stamped Label

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER: Corrosive. Causes irreversible eye damage. May be fatal if swallowed. Do not get in eyes or on clothing. Wear goggles or face shield, chemical-resistant gloves, long sleeved shirt, long pants, shoes and socks. Wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet. Wash thoroughly with soap and water after handling. Remove and wash contaminated clothing before reuse.

STATEMENT OF PRACTICAL TREATMENT- FIRST AID

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to mouth, if possible. Call a poison control center or doctor for further treatment advice.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. Call 800-222-1222 for emergency medical treatment.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage. For eye irritation concerns, contact eye doctor.

ENVIRONMENTAL HAZARD

This pesticide is toxic to fish and aquatic organisms. Before draining a treated pool, spa, hot tub, or fountain, contact your local sanitary sewer and storm drain authorities and follow their discharge instructions. Do not discharge treated pool or spa water to any location that flows to a gutter or storm drain or natural water body unless discharge is allowed by state and local authorities.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage and disposal.

PESTICIDE STORAGE - Do not store on side. Avoid creasing or impacting of side walls. Store in securely closed original container. Avoid storage at temperature extremes or in sunlight. Use locked storage in an area that will prevent cross-contamination of other pesticides, fertilizer, food and feed. Store in locked area inaccessible to children.

PESTICIDE DISPOSAL - Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide. Spray mixture or rinsate is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste Representative at the nearest EPA Regional Office for guidance.

CONTAINER DISPOSAL - The outer box container is discarded in trash. Nonrefillable orb. Do not re-use or refill the orb. The used orb is wrapped in several layers of newspaper and discarded in trash. Or if permitted, dispose of the recyclable orb into the plastics recycle bin. Any unused orbs still in unopened container should be securely wrapped in several layers of newspaper and discarded in trash.

CHLOR NoMORE™ Brand

A SWIMMING POOL ALGAECIDE

ACTIVE INGREDIENT:

Copper sulfate pentahydrate* 99.0%

INERT INGREDIENTS..... 1.0%

TOTAL..... 100.0%

* Metallic copper equivalent...25.2%

* Copper as Metallic

* CAS No. 7758-99-8

KEEP OUT OF REACH OF CHILDREN DANGER

MARKETING CLAIMS

- Carefree instead of constant
- Cost less instead of more
- Advanced instead of outdated
- Odorless instead of offensive
- Good for 90 days - Season supply
- New
- Once a season chlorine alternative
- Reduces chlorine usage up to 80%
- Chlor NoMore™ is a trademark of CNM Technologies, Inc.
- ©1998 CNM Technologies, Inc. Patent pending
- We welcome your comments and success stories
- Designed for use in pools with vinyl liners only
- Good for one winter season supply Orb for an seasons
- Winter formula ionizing orb by the makers of Chlor NoMore.™
- The easiest and fastest way to close your pool for the winter.
- Not for use in Gunite Pools

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

ALGAECIDE

To be used in swimming pools to (kill algae) control green, blue-green and yellow algae. Remove filth such as leaves, branches and heavy algae growth.

SHOCK TREATMENT MAY BE NECESSARY BEFORE ORBS ARE USED

If necessary, add 2 ounces per 5000 gallons of water.

SEE CHART BELOW FOR CORRESPONDING ORB FOR POOL SIZE

Remove orb from package. Place into skimmer basket (with filter running). Allow 8 hours before reentering (entering) pool. Maintain at 0.5-1.0 PPM of dissolved metallic copper at all times with the use of a test kit. Use the higher rate when visible algae are present. For maintenance dosages, use the lower rate. Repeat the lower rate to control the recurrence of algae and to avoid the buildup of copper.

ONE ORB SHOULD LAST ONE SEASON -ABOUT THREE MONTHS

However factors such as water hardness, temperature, flow rate, amount of algae present or type of algae present may have an impact on the ppm level in the pool.

CHART FOR POOL SIZES: IONIZING ORBS - SUMMER

5,000 TO 10,000 GALLONS -1 BLUE ORB (2 to 5 ounces)
10,000 TO 15,000 GALLONS - 1 GREEN ORB (5 to 8 ounces)
15,000 TO 20,000 GALLONS -1 ORANGE ORB (8 to 10 ounces)
20,000 GALLONS & ABOVE - USE MULTIPLE ORBS PER CHART

CHART FOR POOL SIZES: IONIZING ORBS - WINTER

5,000 TO 20,000 GALLONS - 1 BLACK ORB
FOR UP TO 20,000 GALLON SWIMMING POOLS ALGAECIDE:
To be used in swimming pools to control green, blue-green and yellow algae. Remove filth such as leaves, branches and heavy algae growth. Make sure you have an established chlorine residual of 1-2 ppm before covering your pool. Remove orb from package. Place in skimmer basket with filter running. Allow water to circulate for 8-12 hours before disconnecting filter. Remove and dispose of empty orb. This winter ionizing orb treats all swimming pools up to 20,000 gallons. Do not attempt to open orb.

Corresponding orb contains 2 ounces active chemistry per 5,000 gallons of water.
Do not attempt to open orb.
See pool care manual for additional precautionary statements.
