DEC 15 1998

Dear Mr. Cohen:

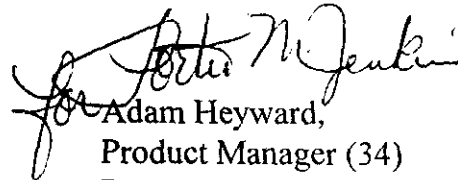

Subject: Change in use directions
 Jomax Mold & Mildew Remover
 EPA Registration No. 71240-1
 Resubmission of December 4, 1998

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, is acceptable provided that you make the labeling changes indicated below prior to release for shipment of product bearing the amended labeling.

Delete the proposed statement "HARMLESS TO PLANTS AND PAINT", this statement is considered as false or misleading. Please refer to the attached pages (54 & 55) of 40 CFR §156.10 for additional information on false or misleading statements.

If you have questions concerning this letter, please contact Portia Jenkins at 703-308-6230.

Sincerely yours,

Adam Heyward,
 Product Manager (34)
 Regulatory Management Branch II
 Antimicrobials Division (7510W)

Enclosure

Jomax® Kills Mildew Fast.

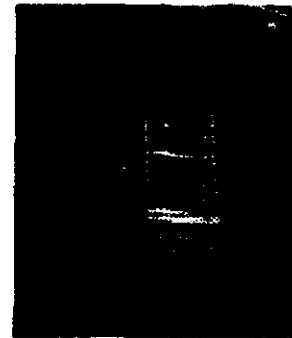

Use for outdoor cleaning or pre-paint mildew removal.

Jomax is a patented concentrate containing a mildewcide, ChloRelease bleach activator and detergents. Jomax kills and removes mold and mildew on most exterior non-porous surfaces such as **siding and trim of all types including vinyl, stained or painted decks and fences, stucco, brick and painted concrete or cement block.** This product is not recommended for use indoors.

MIXING INSTRUCTIONS: Shake well before using. Follow directions carefully. For each 5 gallons, mix 3 quarts household bleach and 4 gallons water first, then add 1 quart Jomax. Mix well.

HOW TO USE: Test a small area before using. Apply with a tank-type garden sprayer, airless or chemical sprayer. Spray infected surfaces liberally. Wait 5 minutes and rinse well. Heavy mildew stains may need a second application. Textured surfaces may require light scrubbing. Spray sensitive plants with water before and after Jomax application. One gallon of Jomax makes 20 gallons which cleans and treats approximately 4,000 sq.ft. Clean sprayer with water and baking soda or soap.

IMPORTANT: Mixture life is 3 hours, use immediately after mixing. Always follow manufacturer's precautions on bleach. Do not allow solution to contact fabrics. Will not harm vegetation or sound painted surfaces when used as directed.
