

## SUPPLEMENTAL LABELING

READ AND FOLLOW THE ENTIRE LABEL BOOKLET FOR NUFARM Weedone LV4 SOLVENTLESS BEFORE PROCEEDING WITH THE USE DIRECTIONS CONTAINED IN THIS SUPPLEMENTAL LABELING.

"Label" as used in this supplemental labeling refers to the label booklet for this product and this supplement.

### Weedone LV 4 Solventless Broadleaf Herbicide

EPA Reg. No. 71368-14

#### Maximum Use Rates For Forestry and Non-Crop Sites

#### DIRECTIONS FOR USE

It is a violation of Federal law to use this product in any manner inconsistent with its labeling.

This label must be in the possession of the user at the time of application.

All applicable directions and precautions in the label booklet for this product must be followed.

Also refer to additional "GENERAL INFORMATION" and "WEEDS CONTROLLED" in the label booklet. INJURY TO CROPS FROM THIS HERBICIDE MAY OCCUR. IF YOU ARE NOT PREPARED TO ACCEPT SOME DEGREE OF CROP INJURY, DO NOT USE THIS PRODUCT. Product should not be used in or near greenhouses.

#### AGRICULTURAL USE REQUIREMENTS

Use this product only in accordance with its labeling and with the Worker Protection Standard, 40 CFR, Part 170. Refer to label booklet under "Agricultural Use Requirements" in the Directions for Use section for information about this standard.

#### NON-AGRICULTURAL USE REQUIREMENTS

The requirements in this box apply to uses of this product that are NOT within the scope of the Worker Protection Standard for agricultural pesticides (40 CFR part 170). The WPS applies when this product is used to produce agricultural plants on farms, forests, nurseries, or greenhouses. For Turf use, do not allow people (other than applicator) or pets on treatment area during application. Do not enter treatment areas until spray has dried.

ACCEPTED

FEB - 7 2006

Under the Federal Insecticide,  
Fungicide, and Rodenticide Act  
as amended, for the pesticide  
registered under EPA Reg. No.

71368-14

#### WEEDS AND BRUSH IN NON-CROP AREAS

Fencerows, Roadsides, Vacant Lots, Airfields,

Railroad, Highway and Utility Rights-Of-Way, And Other Non-Crop Areas

**Perennial and biennial broadleaf weeds** 3 to 4 pints per acre

Apply when weeds are actively growing and near the bud stage, but before flowering. For best results on tansy ragwort and musk thistle, treat in rosette stage, before bolting. A spot application is usually needed for best results on thistle, nettle and bindweed. Treat wild onion or garlic in early spring and in fall when they are young and growing actively.

**Woody plants** 6 to 8 pints per acre

Apply in adequate water (30 to 100 gallons per acre), preferably through low-volume equipment such as DIRECTA-SPRA™, WOBBLER™, MINI-WOBBLER™ or SPIROMETER™. Treat when 2,4-D susceptible species are in full leaf and growing actively. This may require up to 100-500 gallons of water per acre, oil or wetting agent, and/or high volume spraying for acceptable control of some species or if brush growth is dense.

#### TANK MIXTURES FOR NON-CROP AREAS

**WEEDONE® LV4 Solventless And GARLON® 4 Or GARLON 3A  
Tank Mixtures for Non-Crop Areas**

**Woody plant control** Broadcast foliar spray 1 gallon per acre WEEDONE® LV4 Solventless plus 1-1/2 to 3 quarts Garlon-4 or 2 to 4 quarts Garlon-3A

Apply as a broadcast spray in enough water to wet all parts of the brush foliage, stem and bark. This may require 20 to 100 gallons of water per acre. Apply when woody plants are actively growing.

**Woody plant control** High volume leaf-stem treatment with ground equipment 1 to 4 quarts per acre WEEDONE® LV4 Solventless plus 1-1/2 to 12 pints Tahoe 4E or 2 to 16 pints Tahoe 3A.

Mix 1 to 2 quarts Nufarm WEEDONE® LV4 Solventless Broadleaf Herbicide plus 1-1/2 to 3 pints Tahoe4E or 2 to 4 pints Tahoe 3A in a mixture of water volume intended per acre. This may require up to 100 to 400 gallons of water per acre depending on size and density of woody plants. Thoroughly wet all leaves, stems and root collars of plants to be controlled.

**Woody plant control** Aerial application (helicopter only) 1 gallon per acre WEEDONE® LV4 Solventless plus 3 to 4 quarts Tahoe 4E or 4 to 6 quarts Tahoe 3A.

Apply in a total mixture of water volume intended per acre. This may require a volume of 10 to 30 gallons per acre using drift control equipment such as the MICRO-FOIL® boom or an effective drift control agent. Use the higher rates and volumes when plants are dense or under drought conditions.

**WEEDONE® LV4 Solventless And Diablo® Herbicide Tank Mixtures For Non-Crop Areas**

**Perennial and biennial broadleaf weeds**  
3 to 4 pints per acre WEEDONE® LV4 Solventless plus 1/2 TO 6 pints Diablo.

Apply as a broadcast spray which may require 20 to 100 gallons of water per acre. Apply when broadleaf weeds are actively growing but prior to flowering. Use the lower rates for biennials less than 3 inches rosette diameter. Use the higher rates for perennial weeds or for biennial weeds past the 3-inch rosette stage.

**Woody plant control**  
Broadcast, high volume, stem foliage or aerial application 1 gallon per acre WEEDONE® LV4 Solventless plus 2 to 8 quarts Diablo.

Apply as a broadcast spray in a mixture of water volume intended per acre or as a high volume stem foliage spray in enough volume (20 to 100 gallons of water) to thoroughly wet leaves, stems and root collars or apply aerially in enough water to deliver total spray volume of 10 to 30 gallons of water per acre using drift control agent. This may require 100 to 400 gallons of water per acre for adequate coverage. Use the higher rates and volumes when plants are dense or under drought conditions.

This product will either kill, control or suppress the weeds listed in the label booklet for this product. Some of these species may require repeat spot applications even under ideal conditions.

\* Maximum Seasonal Application Rate to non-crop and forestry sites is 4 pounds 2,4-D Acid equivalent per acre per application site.

**NOTICE**

Before buying or using this product, read "WARRANTY LIMITATIONS AND DISCLAIMER" in the label booklet. If terms are not acceptable, return unopened package at once to Seller for full refund of purchase price paid. Otherwise, use by the Buyer or any other User constitutes acceptance of the terms under the "WARRANTY LIMITATIONS AND DISCLAIMER".
