UNITED STATES ENVIRONMENTAL PROTECTION AGENCY
WASHINGTON, D.C. 20460

OFFICE OF
PREVENTION, PESTICIDES AND
TOXIC SUBSTANCES

OCT 16 2006

Mr. Theodore D. Head
Nufarm Americas, Inc
150 Harvester Drive, Suite 200
Burr Ridge, IL 60527

Dear Mr. Head:

Subject: Nufarm Credit Systemic Herbicide (Weed Control In Christmas Tree Plantations)
EPA Registration No. 71368-20
Application Dated July 24, 2006

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended is acceptable, provided you make the following change before you release the product for shipment.

--In the fifth paragraph of the second column, revise "Glyphosate 4" to read either "Credit Systemic Herbicide" or "this product".--

Submit one (1) copy of your final printed labeling incorporating the above change before you release the product for shipment. A stamped copy of labeling is enclosed for your records.

Supplemental labeling must be incorporated into a master label and copies of master labeling submitted to the Agency for our files at your next printing or within two years from the date of acceptance of supplemental labeling, whichever comes first. The Agency will consider a convincing argument as to why a supplemental label should not appear on a master label on a case by case basis.

Sincerely,

James A. Tompkins
James A. Tompkins
Product Manager 25
Herbicide Branch
Registration Division (7505P)

SUPPLEMENTAL LABELING

READ AND FOLLOW THE ENTIRE LABEL BOOKLET FOR NUFARM CREDIT HERBICIDE BEFORE PROCEEDING WITH THE USE DIRECTIONS CONTAINED IN THIS SUPPLEMENTAL LABELING.

"Label" as used in this supplemental labeling refers to the label booklet for Nufarm Credit Herbicide and this supplement.

**ACCEPTED
with COMMENTS
In EPA Letter Dated:**

OCT 16 2006

**Under the Federal Insecticide,
Fungicide, and Rodenticide Act,
as amended, for the pesticide
registered under EPA Reg. No.
71368-20**

**Credit®
Herbicide**

EPA Reg. No. 71368-20

**BROADCAST APPLICATION FOR WEED CONTROL
IN CHRISTMAS TREE PLANTATIONS**

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in any manner inconsistent with its labeling.

This label must be in the possession of the user at the time of application.

All applicable directions and precautions in the Nufarm Credit Herbicide label booklet must be followed.

See the "GENERAL INFORMATION" and "MIXING, ADDITIVES AND APPLICATION INSTRUCTIONS" sections of the Nufarm Credit Herbicide label booklet for essential product performance information.

NOTE: IF THIS PRODUCT IS IMPROPERLY APPLIED, IT HAS THE POTENTIAL TO CAUSE SEVERE INJURY TO CHRISTMAS TREES. FOLLOW ALL LABELED DIRECTIONS.

Credit Systemic Herbicide may be applied as a broad-cast spray over established Christmas trees. To prevent drift onto nearby desirable crops or vegetation, ensure that adequate buffers are maintained.

The following Christmas tree species are approved for this application:

- Douglas Fir (*Pseudotsuga menziesii*)
- Fir species (*Abies* spp.)
- Spruce species (*Picea* spp.)

Do not apply this product until trees have completed at least a full growing season since planting or transplanting. Do not apply within 1 full year prior to tree harvest.

In the fall, applications may only be made after the formation of final conifer resting buds. Final resting buds must be in the dormant stage and fully hardened. If applications are made at any other time, unacceptable Christmas tree injury may occur.

Avoid spray pattern overlap, as injury may result.

Apply 1 quart of Credit Herbicide Glyphosate 4 per acre in 5 to 30 gallons of water per acre.

NOTE: ADDING SURFACTANTS, ADDITIVES CONTAINING SURFACTANTS, OR ANY OTHER ADDITIVES TO THIS PRODUCT MAY RESULT IN SEVERE CHRISTMAS TREE INJURY.

In some areas, this product may be used at rates from 1 to 2 quarts per acre. Contact your local Nufarm representative for specific

recommendations if you require rates that exceed 1 quart per acre.

Drift control additives are not recommended as they may increase Christmas tree injury. Using other herbicides tank mixed with Credit Systemic Herbicide is not recommended as Christmas trees could be severely injured.

NOTICE

Read the "LIMIT of WARRANTY AND LIABILITY" in the label booklet for Nufarm Credit Herbicide before using this product. Those terms apply to this supplemental labeling and if those terms are not acceptable, return the product unopened at once.
