Subject: Notification: to add non-public health pests & further identification of plant sites Excel Systemic Insect Control Granules EPA Reg. No. 71376-2 Your submission dated November 24, 2009

Dear Ms. Horton:

The Agency is in receipt of your Application for Pesticide Notification under Pesticide Registration Notice (PRN) 98-10 dated November 24, 2009 for the product EPA Reg No 71376-2. The Registration Division (RD) has conducted a review of this request for its applicability under PRN 98-10 and finds that the action requested falls within the scope of PRN 98-10. The label submitted with the application has been stamped "Notification" and will be placed in our records.

If you have any questions, please call me directly at 703-305-5314 or metzger.autumn@epa.gov.

Sincerely,

Autumn Metzger Registration Division (7505P) Office of Pesticide Programs

Re: <u>Notification to add non-public-health concern insect pests</u> EPA Reg. No. 71376-2 Excel Systemic Insect Control Granules *Response to Agency letter dated Oct. 6, 2009*

Attention: Autumn Metzger

In response to your letter of October 6, 2009, Excel Marketing submits the enclosed, revised notification to to effect the following label changes:

- 1) addition of optional marketing statements consistent with currently approved label use patterns/claims
- 2) addition of non-public-health concern insect pests currently featured on other approved Acephate labels, including EPA Reg. No. 37979-1; i.e., borers, cankerworm, casebearer, honeylocust mite, spruce coneworm and wooly adelgid
- 3) further identification/clarification of specific plants within currently approved use sites as currently featured on other approved Acephate labels, including EPA Reg. No. 239-2461.
- 4) further identification/clarification of specific insects within currently approved insect groups as recommended/identified by state agricultural extension services (example from University of MN Extension Service submitted 9/14/09); e.g., aphids, currently approved on this label are further identified as "leaf sucking, leaf curl, honeysuckle, witches' broom, and wooly".

Per your letter of October 6th, "Emerald Ash Borer" has been omitted from the label and all references to use on trees have been qualified as "ornamental trees".

I trust this provides the information needed to support submission as a notification for compliance with PR Notice 98-10, and look forward to your response.

Best regards,

ilecen Utorth

NOTIFICATION DEC 1 5 2009

	FIRST AID
Have the pro	duct container or label with you when calling a poison control center or doctor, or
	atment. You may also contact x-xxx-xxx [the National Pesticide Information
	00-858-7378] for emergency medical treatment information.
If swallowed	I: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.
If on skin	• · · · · · · · · · · · · · · · · · · ·
or clothing:	Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.
If inhaled:	Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.
If in eyes:	Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first five 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.
NOTE TO F	PHYSICIAN: Contains an organophosphate that inhibits cholinesterase. If symptoms of
	e inhibition are present, atropine sulfate by injection is antidotal. 2-PAM is also
	may be administered in conjunction with atropine.

PRECAUTIONARY STATEMENTS Hazards to Humans and Domestic Animals

CAUTION: Harmful if swallowed or absorbed through the skin. Causes moderate eye irritation. Avoid contact with skin, eyes or clothing. When handling this product or mixing into the soil as directed, wear long pants and long-sleeved shirt, socks, shoes and gloves. Wash the outside of gloves with soap and water before removing. Remove and wash contaminated clothing before reuse.

USER SAFETY RECOMMENDATIONS

Users should wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet. Users should remove clothing immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.

Environmental Hazards

This pesticide is toxic to birds. Do not apply directly to water. Do not contaminate water by cleaning of equipment washwaters or rinsate.

EPA Reg. No. 71376-2 Nov. 24, 2009 - Notification EPA Est. No.

Excel® Systemic Insect Control Granules contains an effective systemic insecticide that provides up to 6 weeks control of Aphids, Lace Bugs, Leafhoppers, Cuban Laurel Thrips, Leafminers, Leaf Beetles, Leaftiers, Worms, Scale, Leaftier (larvae), Dusky Birch Sawfly, Loopers, Thrips, Budworms, Mealybugs, Root Weevils, Whiteflies, White Grub Larvae, Plant Bugs and Psyllids [the following listed insects].

Excel[®] Systemic Insect Control Granules prevents damage caused by the destructive insects listed on this label. *Systemic* means that the plant actually absorbs the insecticide through its root system and then moves it internally through the sap stream into its branches, leaves, blossoms and new growth.

Excel[®] Systemic Insect Control Granules protects against insects for 6 weeks. It cannot be washed by rain or sprinkling, since the protection is internal. This systemic action protects all plant surfaces, including undersides of leaves and blossoms. New growth is also fully protected.

Excel[®] Systemic Insect Control Granules kills the following insects on roses, flowers, ornamentals, ornamental trees & shrubs:

Aphids (plant lice) including leaf sucking, leaf curl, honeysuckle, witches' broom, wooly Bagworms

Borers including bronze birch; excluding emerald ash borer and Asian longhorn beetle Box Elder Bugs

Budworms including spruce

RESIDENTIAL LAWNS – MOUND TREATMENT ONLY					
Application Site	Pests Controlled	Amount of Excel Systemic Insect Control Granules	Special Instructions		
Residential Lawns	Imported Fire Ants and Harvester Ants	1 cup [20 Tbsp.] [10 oz.]	Evenly distribute granules over the ant mound or as a spot treatment to outdoor areas where ants are observed. Water in gently.For best results, apply in the early morning or late afternoon when the ants are most active. Applications made under prolonged hot and dry conditions may be ineffective due to the location of the ants deep within the nest. Do not apply as a broadcast treatment.		

NOTICE: To the extent consistent with applicable law, seller makes no warranty, expressed or implied, concerning the use of this product other than indicated on the label. To the extent consistent with applicable law, buyer assumes all risk of use and/or handling of this material when use and/or handling is contrary to label instructions.
