OFFICE OF CHEMICAL SAFETY
AND POLLUTION PREVENTION

Agent for Dr. Wolman GmbH
7140 Heritage Village Plaza
Gainesville, VA 20155

Subject: Amended Reregistration Label
Sinesto PFB
EPA Registration Number: 71406-4
EPA Decision Number: 454671

Dear Dr. Kelley:

The Agency, in accordance with the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA), as amended, has completed reviewing all of the information submitted with your application to support the reregistration of the above referenced product in connection with the **Propiconazole RED** and has concluded that your submission is acceptable.

NOTE: This product is **not** being reregistered under sections 3(c)5 and 4(g) of FIFRA at this time.

Please note that the record for this product currently contains the Confidential Statement of Formulation (CSF) listed below. Any previously dated CSFs are superseded.

- Basic CSF, dated June 5, 2013

A copy of your label stamped "Accepted" is enclosed along with copies of the acute toxicity and product chemistry reviews completed for the subject product. Products shipped after 12 months from the date of this amendment or the next printing of the label whichever occurs first, must bear the new revised label. Your release for shipment of the product bearing the amended label constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e).

Should you have any questions or comments concerning this letter, you may contact me by telephone at (703) 308-8062 or by e-mail at campbell.jacqueline@epa.gov Srinivas Gowda by telephone at (703) 308-6354 or by e-mail at gowda.srinivas@epa.gov during the hours of 8:00am to 4:00pm EST. When submitting information or data in response to this letter, a copy of this letter should accompany the submission to facilitate processing.

Sincerely,

Jacqueline Hardy
Product Manager 34
Regulatory Management Branch II
Antimicrobials Division (7510P)

Sinesto PFB

Antisapstain Treatment of Lumber

ACTIVE INGREDIENTS (% w/w):

Fenpropimorph:	5.4
Propiconazole:	2.7
Boric acid:	9.0
INERT INGREDIENTS (% w/w):	82.9
TOTAL (% w/w):	100.0

Product weight: 8 lb/gal (0.96 kg/l)

KEEP OUT OF REACH OF CHILDREN DANGER CORROSIVE TO EYE AND SKIN

FIRST AID

- Hold eye open and rinse slowly and gently with water for 15-20 minutes.
- Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
- Call a Poison Control Center or doctor for treatment advice.
- Take off contaminated clothing.
- Rinse skin immediately with plenty of water for 15-20 minutes.
- Call Poison Control Center or doctor for treatment advice.
- Call a Poison Control Center or a doctor immediately for treatment advice.
- Have person sip a glass of water if able to swallow.
- Do not induce vomiting unless told by a Poison Control Center or doctor.
- Do not give anything by mouth to an unconscious person.
- Move person to fresh air.
- If person is not breathing, call 911 or an ambulance, and then give artificial respiration preferably mouth-to-mouth if possible.
- Call a poison control center or doctor for treatment advice.

GENERAL GUIDANCE

In case of chemical emergency, call CHEMTREC at 1-800-424-9300. Have the product container or label available when you call.

or doctor if going for treatment.

NOT TO BE USED ON OR NEAR FOOD, FEED, OR FODDER.

Probable mucosal damage may be caused by contact with the eyes.

Net weight: ~~8 lb (3.63 kg)~~ **8.25 lb (3.74 kg)**

ACCEPTED
08/07/2014

Under the Federal Insecticide, Fungicide and Rodenticide Act as amended, for the pesticide registered under

EPA Reg. No. 71406-4

LOT-NO.:

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER

CORROSIVE: Causes irreversible eye damage. Causes skin burns. Do not get in eyes, on skin, or on clothing. Harmful if inhaled. Avoid breathing vapor or spray mist. Harmful if swallowed or absorbed through skin. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet. Remove and wash contaminated clothing before reuse.

PERSONAL PROTECTIVE EQUIPMENT: Applicators and other handlers must wear:

- Long sleeved shirt and long pants,
- Shoes and socks
- Chemical resistant gloves (such as Barrier Laminate, or any of the following gloves at 14 mil thickness: butyl nitrile, neoprene rubber, polyvinyl chloride, or Viton)
- Goggles or face shield.

USER SAFETY REQUIREMENTS: Follow manufacturer's instructions for cleaning / maintaining PPE. If no such instructions exist for washables, use detergent and hot water. Keep and wash PPE separately from other laundry. Discard clothing or other absorbent materials that have been drenched or heavily contaminated with this product's concentrate. Do not reuse them.

USER SAFETY INSTRUCTIONS: Users must wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet. Users must remove clothing/PPE immediately if pesticide gets inside, then wash thoroughly and put on clean clothing. User must remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible wash thoroughly and change into clean clothing.

ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish and shrimp. Do not apply directly to water. Do not contaminate water when disposing of equipment washwaters. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage and disposal.

STORAGE: Store in original container in a cool, dry place. Keep containers closed when not in use.

PESTICIDE DISPOSAL: Pesticide wastes are toxic. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or Hazardous Waste representative at the nearest EPA Regional Office for guidance.

CONTAINER HANDLING: Refillable container. Refill this container with pesticide only. Do not reuse this container for any other purpose. Cleaning the container before final disposal is the responsibility of the person disposing of the container. Cleaning before refilling is the responsibility of the refiller. To clean the container before final disposal, empty the remaining contents from this container into application equipment or mix tank. Fill the container about 10 percent full with water. Agitate vigorously or recirculate water with the pump for 2 minutes. Pour or pump rinsate into application equipment or rinsate collection system. Repeat this rinsing procedure two or more times. Then offer for recycling if available or puncture and dispose of in a sanitary landfill, or by incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.

DIRECTIONS FOR USE
FOR INDUSTRIAL USE. It is a violation of Federal Law to use this product in a manner inconsistent with this labeling. Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application.

LUMBER TREATMENT: SINESTO PFB is used to control sapstain, mold and decay on green or freshly cut lumber and wood products like e.g. logs, poles, posts, composites, veneers and wood chips/sawdust or other similar byproducts intended for non-food contact papermaking and manufacturing of composites by dip or spray application. Lumber and wood products must be treated immediately after sawing or cutting. A delay in treatment of 24 hours or more permits stain, mold and decay growth to start which requires an increased concentration of antisapstain treatment to achieve adequate control. Treated lumber must be protected from rain and removed from direct soil / ground contact. Wood treated with Sinesto PFB shall not be used in marine/estuarine habitats. Do not use Sinesto PFB on treated wood for construction or repair of bee hives. Lumber treated with Sinesto PFB must be stored under cover, indoors, or at least 100 feet from any pond, lake, stream, wetland, or river to prevent possible runoff of the product into the waterway. Treated lumber stored within 100 feet of a pond, lake, stream, wetland, or river must be either covered with plastic or surrounded by a berm to prevent surface water runoff into the nearby waterway. If a berm or curb is used around the site, it must consist of impermeable material (clay, asphalt, concrete) and be of sufficient height to prevent runoff during heavy rainfall events.

MIXING INSTRUCTIONS: For bulk dip tanks and conventional spray systems prepare e.g. a 1% dilution by mixing 1 gallon SINESTO PFB in 99 gallons of water. Agitate vigorously until completely dispersed. For low volume spray systems prepare a e.g. 5% dilution by mixing 1 gallon of SINESTO PFB in 19 gallons of water. Complete surface wetting is essential in all types of application. If staining must occur, increase concentration to up to 3.5 gallons product per 96.5 gallons water (3.5% concentration) for dip and conventional spray systems or 2 gallons product per 18 gallons water (10% concentration) for low volume spray systems. Remove sawdust and other debris from treating solution on a regular basis to maintain correct concentration of SINESTO PFB in treating solution. Rates, for all applications will vary according to wood species and moisture content, temperature, humidity, storage conditions and inoculum pressure. Monitor dip tank and / or spray booth mixtures to ensure proper concentrations are being maintained. Contact your SINESTO PFB representative for application and monitoring advice.

NOTE: This product is intended to provide sapstain, mold and decay control during storage and transit which is not intended to extend to the end use site.

NOTICE OF WARRANTY AND DISCLAIMER

BASF Wolman GmbH warrants that this product conforms to the chemical description on the label thereof and is reasonably fit for purposes stated on such label only when used in accordance with the directions under normal use conditions. It is impossible to eliminate all risks inherently associated with the use of this product. Ineffectiveness or other unintended consequences may result because of such factors as weather conditions, presence of other materials, or the manner of use or application, all of which are beyond the control of BASF Wolman GmbH.
