ACCEPTED
JAN 27 1999
Under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, for the pesticide registered under EPA Reg. No. 71505-1

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

CAUTION: Harmful if swallowed or inhaled. Causes moderate eye irritation. Avoid contact with eyes or clothing. Avoid breathing dust. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash clothing before reuse.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

ALL STAR powder can be used in homes, apartments, restaurants, hospitals, markets, schools, hotels and factories. ALL STAR is an odorless, non-staining, non-volatile, free-flowing powder. It will kill a cockroach (waterbug and palmetto bug), ant or silverfish infestation within 7 to 10 days when properly applied. ALL STAR will remain effective for a long period of time, provided it does not become water-soaked or removed. Reapply as needed. ALL STAR powder adheres to insect bodies causing intimate contact and kill. ALL STAR acts slowly but continuously. **NOTE:** Cockroaches (waterbugs and palmetto bugs), silverfish and ants nest in all areas of a building. Thus, be sure to follow each step exactly and treat your entire building thoroughly. Scatter liberally beneath and behind stove, dishwasher, refrigerator, freezer, washing machine and dryer, hot water heaters, shower stalls and tubs, under all storage and display cabinets and around the base of enclosed furnaces. Scatter liberally under sinks, especially beneath false bottoms of sink cabinets, and along all baseboard cracks and crevices. Remove lower drawers in bathroom, kitchen and closet cabinets and powder each drawer-well space liberally. (Do not apply into drawers.) Scatter liberally on above-sides of corner panels of suspended, "dropped" ceilings that do not contain insulation. For storage rooms, basements, attic and attached garages, apply liberally into and under as many concealed objects, spaces and crevices as you can find; where children and pets can't reach. Any powder visible after application must be brushed into cracks and crevices or removed. Apply only in areas inaccessible to children and pets.

STATEMENTS OF PRACTICAL TREATMENT: IF SWALLOWED: Call a physician or Poison Control Center. Drink 1 or 2 glasses of water and induce vomiting by touching back of throat with finger. If person is unconscious, do not give anything by mouth and do not induce vomiting. **IF INHALED:** Remove victim to fresh air. If not breathing, give artificial respiration, preferably mouth-to-mouth. Get medical attention. **IF IN EYES:** Flush with plenty of water. Call a physician if irritation persists.

STORAGE AND DISPOSAL. STORAGE: Store in a cool, dry place. Do not store where children or animals may gain access. **DISPOSAL:** Securely wrap original container in several layers of newspaper and discard in trash.

SEE SUPPLEMENTARY LABELING FOR DIRECTIONS FOR USE IN FOOD HANDLING ESTABLISHMENTS
