Subject: Label Notification per PRN 2007-4 – Revise Container Disposal Statement
Product Name: Technical Nicosulfuron Herbicide
EPA Registration Number: 71512-15
Application Date: October 15, 2014
Decision Number: 496294

Dear Mr. Gelin:

The Agency is in receipt of your Application for Pesticide Notification under Pesticide Registration Notice (PRN) 2007-4. The Registration Division (RD) has conducted a review of this request for applicability under PRN 2007-4 and finds that the label changes requested fall within the scope of PRN-2007-4.

The label has been date-stamped "Notification" and will be placed in our records.

Please be reminded that 40 CFR Part 156.140(a)(4) requires that a batch code, lot number, or other code identifying the batch of the pesticide distributed and sold be placed on non-refillable containers. The code may appear either on the label (and can be added by non-notification via PR Notice 98-10) or durably marked on the container itself.

If you have any questions, please contact Maggie Rudick at 703-347-0257 or by email at rudick.maggie@epa.gov.

Sincerely,

for
Kable Bo Davis, Product Manager 25
