Name of Pesticide Product

"C-Pool Natural Balance"

NOTICE OF PESTICIDE:

x Registration

__ Re-registration

under FIFRA, as amended)

Name and Address of Registrant (include ZIP Code):

C-Pool USA, L.L.C. 6703 18th Avenue Jenison, MI 49428

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by

This product is conditionally registered in accordance with FIFRA section 3(c)(7)(A) provided that you:

- 1. Submit and/or cite all data required for registration of your product under FIFRA section 3(c)(5) when the Agency requires all registrants of similar products to submit such data; and submit acceptable responses required for re-registration of your product under FIFRA section 4.
 - 2. Add the phrase EPA Registration Number "EPA Reg. No. "71537-1".

4. Submit three copies of a final printed label. Note that the signal word "WARNING" on this label appears to be too small. It must be of a certain type size, depending on the size of the label. Please refer to the EPA "Label Review Manual" for type size—requirements at http://www.epa.gov/oppfead1/labeling/lrm/.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

If you have any questions concerning this letter, please contact myself at 703-308-6341, or Tony Kish at (703) 308-9443.

Sincerely,

Marshall Swindell

Directions for Use

It is a violation of Federal law to use this product in a manner that is inconsistent with its labeling.

FOR USE IN POOLS

This product is recommended for use only in pools with capacities of at least 2,000 gallons and equipped with filtration systems.

To determine the size of a pool in gallons:

For rectangular pools, multiply length X width X average depth (in feet) X 7.5 For round and oval pools, multiply long diameter X short diameter X average depth (in feet) X 5.9

INITIAL TREATMENT: Before adding C-POOL NATURAL BALANCE, clean and shock treat pool water with Chlorine or Bromine to 3 PPM. Balance water alkalinity. Total alkalinity should read between 80-150 PPM. Adjust pH to read between 7.2-7.6. As a minimum dose, add 2 oz. of C-Pool Natural Balance per 1.000 gallons of pool water, which will result in a minimum concentration of 0.5 PPM copper. If visible algae are present, increase the dose to 3oz. per 1,000 gallons of pool water (0.75 PPM copper). The maximum dose of C-Pool Natural Balance to be used is 5 oz. per 1,000 gallons of pool water, which will result in a copper reading of 1.2 PPM. Swimmers may re-enter the pool with any copper reading up to 1.2 PPM. Distribute C-Pool Natural Balance by sprinkling it into the pool water, every 3_or 4 feet around the perimeter of the pool, avoiding vinyl stairs. Vacuum the next day. After vacuuming, run the filter system for 48 hours, backwashing the filter every 12 hours during the 48-hour period. Vacuum again if necessary. Thereafter, the pool pump running time may be reduced to 4-6 hours per day, depending on water conditions.

WEEKLY MAINTENANCE: As a minimum maintenance dose, add 1/8 oz. of C-Pool Natural Balance per 1,000 gallons of pool water (an additional 0.03 PPM) to maintain a minimum reading of 0.5 PPM copper. This amount will normally be sufficient, depending on water loss from backwashing the filter, etc. If visible algae are present or as a maximum maintenance dose, add 1 oz. of C-Pool Natural Balance per 1000 gallons of pool water (an additional 0.25 PPM). Check the copper reading. Do not exceed 1.2 PPM copper. Add Chlorine to achieve an ideal reading of 1.5 PPM. If using a Brominator or Chlorinator. fill it ½ full and place it on the lowest setting.

HEAVILY USED POOLS: In periods of high temperature and heavy bather load, it is recommended that Chlorine or Bromine be used daily.

FOR YEAR ROUND USE: For pools open year round, follow the directions for INITIAL TREATMENT twice a year. Check the copper reading every 3 months. Do not exceed 1.2 PPM copper.

NOTE: Contrary to Chlorine or Bromine, this product does not act as a bleaching agent on stains such as Chlorine burns, earthworms, leaf stains or areas damaged by the use of abrasive cleaners on liner surface, etc. Stains may occur due to excessive levels of iron or copper salts. Pretreating pool water with a heavy metal sequestering product will reduce the risks of stains.

KEEPS POOL WATER CRYSTAL CLEAR

ELIMINATES ALGAE GROWTH

ELIMINATES/CONTROLS:

Chlorella pyrenoidosa (green algae)
Phoridium inunsturn (blue green algae)
Pleurochloria meiringensia (mustard algae)
Phoridium luridum (black algae)

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS

WARNING: Causes substantial but temporary eye injury. Do not get in eyes or on clothing. Wear safety glasses. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash clothing before reuse.

FIRST AID

IF IN EYES: Hold eyelids open and flush with a steady, gentle stream of water for 15 minutes. Get medical attention.

IF ON SKIN: Wash with plenty of soap and water. Get medical attention.

1

)

IF INHALED: Remove victim to fresh air. If not breathing, give artificial respiration, preferably mouth-to-mouth. Get medical attention.

IN SWALLOWED: Call a doctor or get medical attention. Do not induce vomiting. Drink promptly a large quantity of milk, egg whites, gelatin solution, or, if these are not available, drink large quantities of water. Avoid alcohol. Do not give anything by mouth to an unconscious person.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage.

ENVIRONMENTAL HAZARDS: This product is toxic to fish. Do not discharge effluent containing this product into lakes, streams, ponds. estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

STORAGE AND DISPOSAL

STORAGE: Keep container closed when not in use. Leaking or damaged containers should be placed in a plastic bag and discarded in trash. All pesticides should be kept out of reach of children and stored away from food.

DISPOSAL: Do not reuse empty container. Rinse empty container thoroughly with water to dissolve all material before discarding. Securely wrap in several layers of newspaper and discard in trash.
