Subject: Notification per PRN 98-10 – Updating pesticide disposal/container handling language  
Product Name: Cobra Wrap  
EPA Registration Number: 71653-1  
Application Date: 07/19/17  
Decision Number: 531719

Dear Mr. Adab:

The Agency is in receipt of your Application for Pesticide Notification under Pesticide Registration Notice (PRN) 98-10 for the above referenced product. The Antimicrobials Division (AD) has conducted a review of this request for its applicability under PRN 98-10 and finds that the action requested falls within the scope of PRN 98-10.

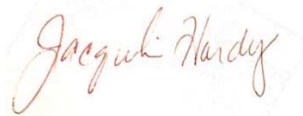

The label submitted with the application has been stamped “Notification” and will be placed in our records.

Should you wish to add/retain a reference to the company’s website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product’s label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA’s Office of Enforcement and Compliance.

Decision No. 531719

If you have any questions, you may contact Sandra O'Neill at 703-347-0141 or via email at [oneill.sandra@epa.gov](mailto:oneill.sandra@epa.gov).

Sincerely,

Jacqueline Hardy, Product Manager 34  
Regulatory Management Branch II  
Antimicrobials Division (7510P)

**PRECAUTIONARY STATEMENT  
HAZARDS TO HUMANS  
AND DOMESTIC ANIMALS**

**Warning**

Harmful if swallowed, inhaled or absorbed through skin, causes moderate eye irritation. Avoid breathing vapour. Use in well ventilated area. Avoid contact with eyes, skin, or clothing. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash prior to reuse.

**FIRST AID STATEMENT**

**IF SWALLOWED:** Immediately call a poison control center or doctor. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give **any** liquid to the person. Do not give anything by mouth to an unconscious person.

**IF INHALED:** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice.

**IF IN EYES:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first five minutes, then continue to rinse. Call a poison control center or doctor for further treatment advice.

**IF ON SKIN or CLOTHING:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for further treatment advice.

**Have the product container or label with you when calling a poison control center or doctor, or going for treatment.**

**Note to Physician: Contains petroleum distillates – vomiting may cause aspiration pneumonia.**

**ENVIRONMENTAL HAZARDS**

This product is toxic to fish. Do not apply directly to water, in areas where surface water is present or to intertidal area below the mean high water mark. Do not contaminate water when disposing of equipment wash waters. Do not discharge effluent containing this product into lakes, streams, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or regional EPA Office.

**PHYSICAL OR CHEMICAL HAZARDS**

**COMBUSTIBLE:** Do not use, pour, spill or store near heat or open flame. Use only with adequate ventilation.

**COBRA WRAP**

WOOD PRESERVATIVE COMMERCIAL

WOOD EXTERIOR SURFACE  
WRAP FOR ABOVE OR BELOW  
GROUND TREATMENT FOR

**NOTIFICATION**

71653-1

The applicant has certified that no changes, other than those reported to the Agency have been made to the labeling. The Agency acknowledges this notification by letter dated:

08/11/2017

**DIRECTIONS FOR USE:**

It is a violation of Federal Law to use this product in a manner inconsistent with its labelling.

**STORAGE AND DISPOSAL**

Do not contaminate water, food or feed by storage or disposal  
**PESTICIDE STORAGE:** Store at temperatures between 64°F (18°C) and 120°F (50°C). DO NOT STORE opened pouches.

**PESTICIDE DISPOSAL:** Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

**CONTAINER HANDLING:** Non-refillable container. Do not re-fill or reuse. If empty, offer for recycling if available or dispose of packaging in a sanitary landfill through ordinary trash collection, by incineration or if allowed by state and local authorities by burning. If burned, stay out of smoke. If partly filled, dispose of on-site or call 1-800-CLEANUP or local authorities for disposal instructions

**FOR EXTERIOR USE ONLY  
CONTINUOUS ROLL [52.5 ft.]**

Cobra™Wrap containing copper naphthenate is intended for use only on poles, posts and pilings as a wood preservative treatment. Cobra™Wrap containing copper naphthenate provides protection against moisture, fungal rot and termite damage. This copper naphthenate wood preservative and insecticide will preserve, protect and seal wood surfaces that will be in contact with soil or concrete. Depending upon climatic conditions, species of wood to which applied, moisture and humidity, treatment extends service life several years.

**PREPARATION AND APPLICATION**

Wood should be clean, dry, well seasoned and free of bark. When using Cobra™Wrap as a groundline treatment excavate around wood to allow top of wrap to extend 2" (5cm) above groundline.

Protect eyes and skin from contact.

Wire brush area 3" (7.5cm) above groundline and approximately 20" (50cm) below groundline removing dirt and decayed material.

Cut off sufficient length of Cobra™Wrap leaving 2" - 6" (5cm - 15cm) of wrap to serve as overlap. Lay on ground exposing the pouches of preservative. Peel off top layer exposing the leakable layer below. On the overlap portion leave a sufficient tail attached to the outermost edge forcing preservative to move back into wood zone for penetration.

Wrap proper length Cobra™Wrap around the pole with saturated pad against the pole and staple or tack firmly in place. Staple short side of the backing first and overwrap with longer edge. Allow wrap to extend 2" (5cm) above groundline.

Backfill excavation, tamping firmly.
