Subject: Labeling Notification per Pesticide Registration Notice (PRN) 98-10 - Revision to Company
Logo, Address, and Mode of Action Box
Product Name: COBRA CRUSH MDT
Admin Number: 71653-4
EPA Receipt Date: 08/22/2024
Action Case Number: 00626592

Dear John Todhunter:

The U.S. Environmental Protection Agency is in receipt of your application for notification under Pesticide Registration Notice 98-10 for the above referenced product. The EPA has conducted a review of this request for its applicability under PRN 98-10 and finds that the action requested falls within the scope of PRN 98-10.

The labeling submitted with this application has been stamped "Notification" and will be placed in our records.

Should you wish to add/retain a reference to your company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide, Fungicide, and Rodenticide Act and is subject to review by the EPA. If the website is false or misleading, the product will be considered to be misbranded and sale or distribution of the product is unlawful under FIFRA section 12(a)(1)(E). 40 CFR § 156.10(a)(5) lists examples of statements the EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the EPA find or if it is brought to our attention that a website contains statements or claims substantially differing from statements or claims made in connection with obtaining a FIFRA section 3 registration, the website will be referred to the EPA's Office of Enforcement and Compliance Assurance.

If you have questions, please contact David Gardner via email at gardner.david@epa.gov.

Sincerely,

David Gardner, Entomologist
IVB 2, RD
Office of Pesticide Programs

Intended for industrial use only as a biocide (fungicide / preservative) additive in the manufacturing of wood composites susceptible to mold, fungal decay or insect attack.

Preventative Protection of Wood Composites Against Mold, Fungal Decay and Wood boring Insects
KEEP OUT OF REACH OF CHILDREN
CAUTION

FIRST AID

If In Eyes: Hold eyes open and rinse slowly and gently with water for 15 – 20 minutes. Remove contact lenses, if present, after the first 5 minutes then continue rinsing eye. Call a poison control center or doctor for treatment advice.

If on Skin or Clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15 – 20 minutes. Call a poison control center or doctor for treatment advice.

If Inhaled: Move person to fresh air. If person is not breathing call 911 or an ambulance then give artificial respiration, preferably by mouth, if possible. Call a poison control center or doctor for treatment advice.

If Swallowed: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do by a poison control center or doctor. Do not give anything to an unconscious person.

Have the product container or label with you when calling a poison control center or doctor or going for treatment.

ACTIVE INGREDIENTS

Sodium Octaborate	83.3%	
Boric Acid	4.7%	
Copper Hydroxide (CAS # 2047-59-2)	8.8%	
Other	3.2%	
TOTAL	100 %	
Copper as metallic		5.7%

COPPER	GROUP	M1	FUNGICIDE
BORIC ACID	GROUP	8D	INSECTICIDE

NOTIFICATION

71653-4

The applicant has certified that no changes, other than those reported to the Agency have been made to the labeling. The Agency acknowledges this notification by letter dated:

04/16/2025

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.
READ THE ENTIRE LABEL BEFORE USE

PRECAUTIONARY STATEMENTS

Harmful if swallowed. Avoid contact with eyes and skin. May cause eye irritation. Avoid rubbing eyes while working with product. Avoid breathing dust. Use only in well ventilated area. Wash hands thoroughly after handling and before eating, drinking or smoking. Store and wash all protective clothing separately from household laundry.

Personal Protective Equipment (PPE): Mixers, loaders, applicators and other handlers must wear the following when pouring this product: long sleeved shirt, long pants, shoes plus socks, dust mask and gloves.

User Safety Requirements: Follow manufacturer's instructions for cleaning/maintaining PPE. If no such instructions for washables exist, use detergent and hot water. Keep and wash PPE separately from other laundry. Discard clothing and other absorbent materials that have become drenched or heavily contaminated with this product's concentrate. Do not reuse them.

Users must wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet.
Users must remove clothing/PPE immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.
Users must remove PPE immediately after handling this product. As soon as possible wash thoroughly and change into clean clothing.
Wash the outside of gloves before removing.

DIRECTIONS FOR USE

Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application. For any requirements specific to your State or Tribe consult the State or Tribal agency responsible for pesticide regulation.

For use only in the manufacture of wood composites, Cobra™ Crush MDT must be fed as a powder, prior to the curing stage, at the minimum rate of 0.4 Kg per 100 Kg to a maximum of 2.5 Kg per 100 Kg of adhesive binder and wood combined. Cobra™ Crush MDT may be used to improve mold, fungal, insect and above ground service applications where there is limited exposure to rain or other sources of water. This product must be applied using closed system application equipment i.e. screw feeder apparatus. Cobra™ Crush MDT is effective against some kinds of termites.

STORAGE AND DISPOSAL

Pesticide Storage

Avoid damage to bags or totes. Keep containers closed at times when not in use.

Keep containers out of direct sunlight. To maintain product quality, store at temperatures below 100° F.

Procedure for Leak or Spill

Secure area where spill has occurred. Then sweep up material being careful to avoid generating dust and wearing personal protective equipment. Dispose of spilled material in accordance with federal, state and local regulations after contacting the appropriate local, state or Federal agency to determine proper procedures.

Disposal

Pesticide Disposal Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility. Because acceptable methods of disposal may vary by location, regulatory agencies should be contacted prior to disposal. Product to be discarded should be disposed of in accordance with federal, state and local regulations after contacting the local, state, or Federal agency to determine proper procedures.

Container Disposal

Nonrefillable containers (bags) – Do not reuse or refill this container. Completely empty container into application equipment by shaking and tapping sides and bottom to loosen clinging particles. When completely empty offer for recycling if available or dispose of empty bag in a sanitary landfill or by incineration or, if allowed by state and local authorities, by burning. If burned stay out of smoke.

Refillable containers ("Totes") – Refill this container with pesticide only. Do not reuse this container for any other purpose. Return to the manufacturer for refilling. Cleaning the container before final disposal is the responsibility of the person disposing of the container. Cleaning before refilling is the responsibility of the refiller. To clean the container before disposal completely empty container into application equipment by shaking and tapping sides and bottom to loosen clinging particles. When completely empty offer for recycling, if available, dispose of empty tote in a sanitary landfill or by incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.
