Subject: Labeling Notification per Pesticide Registration Notice (PRN) 98-10 - Label Formatting (Shading)
Product Name: GENICS GEL WRAP
Admin Number: 71653-7
EPA Receipt Date: 07/29/2025
Action Case Number: 00662939

Dear John Todd Hunter:

The U.S. Environmental Protection Agency is in receipt of your application for notification under Pesticide Registration Notice 98-10 for the above referenced product. The EPA has conducted a review of this request for its applicability under PRN 98-10 and finds that the action requested falls within the scope of PRN 98-10.

The labeling submitted with this application has been stamped "Notification" and will be placed in our records.

Should you wish to add/retain a reference to your company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide, Fungicide, and Rodenticide Act and is subject to review by the EPA. If the website is false or misleading, the product will be considered to be misbranded and sale or distribution of the product is unlawful under FIFRA section 12(a)(1)(E). 40 CFR § 156.10(a)(5) lists examples of statements the EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the EPA find or if it is brought to our attention that a website contains statements or claims substantially differing from statements or claims made in connection with obtaining a FIFRA section 3 registration, the website will be referred to the EPA's Office of Enforcement and Compliance Assurance.

If you have questions, please contact Terria Northern via email at northern.terria@epa.gov.

Sincerely,

Terria Northern, RM Team 34

Office of Pesticide Programs

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

READ THE ENTIRE LABEL BEFORE USE.

PRECAUTIONARY STATEMENTS

May be harmful if swallowed. Avoid contact with eyes and skin. May cause eye irritation. Avoid rubbing eyes while working with product. Wash hands thoroughly with soap and water after handling and before eating, drinking or smoking. Store and wash all protective clothing separately from household laundry. Personal protective clothing, normal work clothes (i.e. long pants, shoes, a long sleeved shirt) plus waterproof gloves for all users of product. Do not leave container where children or animals may gain access.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

Pesticide Storage: Store in a cool, dry place inaccessible to children and pets and away from food or feed. Do not freeze.

Pesticide Disposal: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

Container Disposal: Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.

DIRECTIONS FOR USE

CONTINUOUS ROLL [52.5 ft.]

Genics Gel Wrap containing Disodium Octaborate Tetrahydrate, Boric Acid and Copper Hydroxide is intended for use only on poles, posts and pilings as a wood preservative treatment. Genics Gel Wrap containing Disodium Octaborate Tetrahydrate, Boric Acid and Copper Hydroxide provides protection against moisture, fungal rot and termite damage. This Disodium Octaborate Tetrahydrate, Boric Acid and Copper Hydroxide wood preservative and insecticide will preserve, protect and seal wood surfaces that will be in contact with soil or concrete. Depending upon climatic conditions, species of wood to which applied, moisture and humidity, treatment extends service life several years.

GENICS Gel Wrap

For the preservation and protection of wood and wood composites against fungal decay, mold or insect attack.

CAUTION

FIRST AID

If In Eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first five minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

If on Skin or Clothing: Take off contaminated clothing. Rinse skin immediately for 15-20 minutes. Call poison control center or doctor for treatment advice.

If Inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.

If Swallowed: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

ACTIVE INGREDIENTS:

Disodium Octaborate Tetrahydrate.....	8.65%
Boric Acid	0.85%
Copper Hydroxide	0.94%
Other Ingredients	89.56%
TOTAL:	100.00%

PREPARATION AND APPLICATION

Wood should be clean, dry, well seasoned and free of bark. When using Genics Gel Wrap as a groundline treatment excavate around wood to allow top of wrap to extend 2" (5cm) above groundline.

Wire brush area 3" (7.5cm) above groundline and approximately 18" (50cm) below groundline removing dirt and decayed material.

Cut off sufficient length of Genics Gel Wrap leaving 2" - 6" (5cm - 15cm) of wrap to serve as overlap. Cut open pouch by slicing diagonal lines every 2 to 4 inches through the inner plastic layer, exposing the gel. On the overlap portion leave a sufficient tail attached to the outermost edge forcing preservative to move back into wood zone for penetration.

Wrap proper length Genics Gel Wrap around the pole with exposed gel against the pole and staple or tack firmly in place. Staple short side of the backing first and overwrap with longer edge. Allow wrap to extend 2" (5cm) above groundline.

Backfill excavation, tamping firmly.

COPPER	GROUP	M1	FUNGICIDE
BORIC ACID	GROUP	8D	INSECTICIDE

NOTIFICATION

71653-7

The applicant has certified that no changes, other than those reported to the Agency have been made to the labeling. The Agency acknowledges this notification by letter dated:
