Subject: Label Amendment – Add SARS-CoV-2 claim to the label
Product Name: Glyclean Hard Surface Cleaner
Admin Number: 71654-5
Received Date: January 21, 2021
Action Code Case: 00216915

Dear Ms. Swick:

The amended label referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, is acceptable. This approval does not affect any conditions that were previously imposed on this registration. You continue to be subject to existing conditions on your registration and any deadlines connected with them.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. Pursuant to 40 CFR 156.10(a)(6), you must submit one copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.130(c), you may distribute or sell this product under the previously approved labeling for 18 months from the date of this letter. After 18 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. "To distribute or sell" is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under FIFRA and is subject to review by the Agency. See FIFRA section 2(p)(2). If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) lists examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process, FIFRA section 12(a)(1)(B). Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Assurance.

Admin No. 71654-5
Action Code Case: 00216915

Your release for shipment of the product constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6. If you have any questions, please contact Mohammad Alavi by phone at (703) 347-0522, or via email at Alavi.mohammad@epa.gov.

Sincerely,

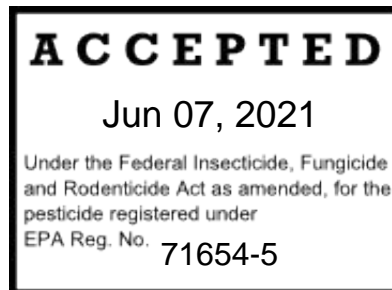

Aline Heffernan

DIRECTIONS FOR USE

IT IS A VIOLATION OF FEDERAL LAW TO USE THIS PRODUCT IN A MANNER INCONSISTENT WITH ITS LABELING.

Household Use

To Clean, Disinfectant and Kill Viruses*: This product can be used to clean and disinfectant hard, non-porous surfaces. Apply the product full strength with a clean sponge or cloth until the surface is thoroughly wet. Let stand for 10 minutes and then wipe clean with a wet sponge or cloth or rinse the surface with water. For heavily soiled surfaces, a precleaning is required. Do not use with chlorine bleach or any other chemical product. If used on a food preparation surfaces, all food must be removed prior to application.

To Clean: Use this product to clean hard, non-porous surfaces. Prior to use, mix ¼ cup of this product with one gallon of water. Apply the diluted solution with a clean sponge, cloth, mop or brush to surfaces and keep surfaces wet for 10 minutes. Then wipe clean with a wet sponge or cloth or rinse with water. Do not use with chlorine bleach or any other chemical product. If used on a food preparation surfaces, all food must be removed prior to application.

Commercial/Industrial Use

To Clean, Disinfectant and Kill Viruses*: This product can be used to clean and disinfectant hard, non-porous surfaces. This product can be used on all non-food contact surfaces including the exterior surfaces of appliances. Preclean surfaces prior to disinfection. Apply the product full strength with a clean sponge or cloth until the surface is thoroughly wet. Let surface remain visibly wet for 10 minutes and then wipe clean with a wet sponge or cloth or rinse the surface with water. Do not use with chlorine bleach or any other chemical product.

To Clean: Use this product to clean hard, non-porous surfaces. This product can be used on all non-food contact surfaces including the exterior surfaces of appliances. Prior to use, mix ¼ cup of this product with one gallon of water. Apply the diluted solution with a clean sponge, cloth, mop or brush to surfaces and keep surfaces wet for 10 minutes. Then wipe clean with a wet sponge or cloth or rinse with water. Do not use with chlorine bleach or any other chemical product.

† Use only on exterior toilet surfaces.

**When used according to disinfection directions

[Note to Reviewer: For Institutional Use]

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage and disposal.

PESTICIDE STORAGE: Store in a cool, dry area. Always store pesticides in the original container. Store out of reach of children.

PESTICIDE DISPOSAL: Wastes resulting from the use of this product must be disposed of on site or at an approved waste disposal facility.

CONTAINER HANDLING: Nonrefillable container. Do not reuse or refill this container. Triple rinse (or equivalent). Then offer for recycling or reconditioning. If not available, puncture and dispose in sanitary landfill.

[Note to Reviewer: For Household/Residential Use]

STORAGE AND DISPOSAL

Store out of reach of children. Store in a cool, dry area away from food and pet food.

Nonrefillable container. Do not reuse or refill this container. Wrap (container) and put in trash or offer for recycling if available.

Net Contents:

This product qualifies for emerging viral pathogen claims per the EPA's 'Guidance to Registrants: Process for Making Claims Against Emerging Viral Pathogens not on EPA- Registered Disinfectant Labels' when used in accordance with the appropriate use directions indicated below.

This product meets the criteria to make claims against certain emerging viral pathogens from the following viral categories:

- Enveloped Viruses
- Large Non-Enveloped Viruses

<i>For an emerging viral pathogen that is a/an...</i>	<i>...following the directions for use for the following supporting organism(s) on the label:</i>
Enveloped virus	Rhinovirus Type 37
Large, non-enveloped virus	Rhinovirus Type 37

Glyclean Hard Surface Cleaner has demonstrated effectiveness against viruses similar to [name of emerging enveloped or large, non-enveloped virus] on hard, non-porous surfaces. Therefore, Glyclean Hard Surface Cleaner can be used against [name of emerging enveloped or large, non-enveloped virus] when used in accordance with the directions for use against Rhinovirus Type 37 on hard, non-porous surfaces. Refer to the [CDC or OIE] website at [pathogen-specific website address] for additional information.

[Name of illness/outbreak] is caused by [name of emerging enveloped or large, non- enveloped virus]. Glyclean Hard Surface Cleaner kills similar viruses and therefore can be used against [name of emerging enveloped or large, non-enveloped virus] when used in accordance with the directions for use against Rhinovirus Type 37 on hard, non-porous surfaces. Refer to the [CDC or OIE] website at [website address] for additional information.
