FILE COPY

Subject: DuPont Pool Care Sanitizer
Chlorinating Granules
EPA Registration No. 71654-11
Application Dated: August 11, 2009
Receipt Dated: August 12, 2009

Dear Ms. Bieber:

This acknowledges receipt of your notification, submitted under the provision of PR Notice 98-10, FIFRA Section 3(c)9.

Notification:

- To comply with PR-Notice 2007-4.

General Comments:

Based on a review of the material submitted, the following comments apply:

This notification is acceptable and a copy has been inserted in your file for future reference.

Should you have any questions or comments concerning this letter, please contact me at (703) 308-6345.

Sincerely,

Wanda Henson

PRECAUTIONARY STATEMENTS
Hazards To Humans And Domestic Animals

DANGER: Corrosive. Causes irreversible eye damage. May be fatal if inhaled. Harmful if swallowed or absorbed through skin

Do not get in eyes, on skin, or on clothing. Do not breath dust, vapor or spray mist. Wear goggles, face shield, or safety glasses. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash before reuse.

PHYSICAL OR CHEMICAL HAZARDS

STRONG OXIDIZING AGENT: Use only clean dry utensils. Mix only into water. Contamination with moisture, dirt, organic matter or other chemicals (including other pool chemicals) or any other foreign matter may start a chemical reaction with generation of heat, liberation of hazardous gases and possible generation of fire and explosion. Avoid any contact with flaming or burning material such as a lighted cigarette. Do not use this product in any chlorinating device which has been used with any inorganic or unstabilized chlorinating compounds (e.g., calcium hypochlorite). Such use may cause fire or explosion.

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, ponds, streams, estuaries, oceans, or public waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of the EPA.

[Note to reviewer: Effluent discharge statement to be included for package sizes of greater than or equal 5 gallons (liquid) or 50 pounds (solid, dry weight), in accordance with PR Notice 95-1.]

EMERGENCY HANDLING: In case of contamination or decomposition do not reseal container. If possible, isolate container in open well-ventilated area. Flood with large volumes of water. Dispose of contaminated material in an approved landfill area.

DIRECTIONS FOR USE:

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Read entire label and use strictly in accordance with precautionary statements and directions.

This products is part of the *DuPont™ [Simple] Pool Care Weekly Care System*

DuPont™ [Simple] Pool Care Sanitizer Chlorinating Granules are a concentrated form of stabilized chlorine. This products will dissolve slowly and uniformly to deliver free chlorine sanitizer to pool water.

When used as directed, this product is an effective swimming pool sanitizer. The dosage required to maintain sanitary water will vary depending upon water temperature, bather load, exposure to windblown debris, rain storms and length of filtration cycle.

Getting Started

- Ensure all pool equipment is working properly.
- Backwash the filter system following manufacturer's directions.
- Adjust the alkalinity of the water to 100-150 ppm using *DuPont™ [Simple] Pool Care Total Alkalinity Increaser*
- Adjust pH to between 7.2-7.8 using *DuPont™ [Simple] Pool Care pH Increaser or pH Decreaser*
- Add *DuPont™ [Simple] Pool Care Chlorine Stabilizer* to establish a minimum level of 20-30 ppm. Sunlight will reduce the chlorine sanitizer level. Stabilizer will minimize the sun's ability to breakdown the chlorine, and allow the level to be more easily maintained.
- Test for metals. If metals are present, add *DuPont™ [Simple] Pool Care Metal Remover* to prevent staining of pool surface due to metals.
- When using other products as outlined in the directions for this product, always follow directions on those products.

[DIRECTIONS FOR SANITIZER MAINTENANCE]

With pump running, uniformly broadcast 4 ounces of **DuPont™ [Simple] Pool Care Sanitizer Chlorinating Granules** per 10,000 gallons directly into the water in the deep end of the pool as an initial treatment. Repeat additions until a residual of 1-4 ppm free chlorine is established as determined by the use of *DuPont™ [Simple] Pool Care Test Strips*.

Regular use of *DuPont™ [Simple] Pool Care Test Strips* is necessary to determine the dose and frequency of additions required to maintain 1-4 ppm free chlorine in the pool water. For every 10,000 gallons of pool water, add an average daily dose of 2-3 oz. Chlorinating Granules or more as needed to maintain a free chlorine sanitizer level between 1-4 ppm in the pool water.

To prevent damage to pool surface, use a pool brush to disperse granules that may have settled to the bottom of the pool. NEVER ALLOW UNDISSOLVED PRODUCT TO REST IN CONTACT WITH BLEACHABLE POOL SURFACES.

In addition to **DuPont™ [Simple] Pool Care Sanitizer Chlorinating Granules**, it is recommended that you use a *DuPont™ [Simple] Pool Care Oxidizer* to eliminate contaminants and keep pool water clear and *DuPont™ [Simple] Pool Care Algaecide* to prevent algae on a weekly basis.

ADD OXIDIZER WEEKLY

The pool water should be oxidized every week to break up organic matter that can cause pool water to become cloudy or dull and to eliminate contaminants. Add one (1) pouch (1 lb) of *DuPont™ [Simple] Pool Care Oxidizer* per 10,000 gallons of water weekly.

ADD ALGAECIDE WEEKLY

A weekly additional of *DuPont™ [Simple] Pool Care Algaecide* will help keep the pool clear of algae. Add 4 oz of *DuPont™ [Simple] Pool Care Algaecide* for every 10,000 gallons of pool water weekly.

For ALGAE Treatment

When used as directed, this product kills algae and will rid your pool of unsightly algae spots. This product is ideal for use in vinyl lined, fiberglass or colored plaster surface pools.

For best results, backwash filter prior to treatment, and each day until water is clear. Before using this product, brush all pool surfaces to loosen and expose surface-clinging algae, paying special attention to pool steps, ladder steps and around skimmer and lights. With the pump running, broadcast this product uniformly over the surface of the water adding about two thirds of the dose into the deep end of the pool. Use two (2) pounds of this product per 10,000 gallons of pool water for medium to heavy algae growth. To prevent possible damage to pool surface, use a pool brush to disperse any granules that may have settled to the bottom of the pool. If algae is still visible and free-floating 24 hours after treatment, repeat treatment. When pool water is clear and the bottom of the pool is visible, vacuum dead algae to waste.

REENTRY: Reentry into treated swimming pools is prohibited above levels of 4 ppm of chlorine due to risk of bodily harm.

STORAGE AND DISPOSAL:

Do not contaminate water, food or feed by storage or disposal. Store in a dry, cool and well-ventilated area. Avoid moisture getting into container. Keep off wet floors. In case of spillage, wash with large amounts of water. After each use, keep container tightly closed. Oxidizing material. Keep away from flames, sparks and all sources of heat. Avoid contact with organic material.

PESTICIDE DISPOSAL: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture or rinsate is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

[NONREFILLABLE CONTAINER: Do not reuse or refill this container. Offer for recycling, if available. Triple rinse container (or equivalent) promptly after emptying.

Triple rinse as follows:

Empty the remaining contents into application equipment [or a mix tank]. Fill the container ¼ full with water. Replace and tighten closures. Tip container on it's side and roll back and forth, ensuring at least one complete revolution, for 30 seconds. Stand the container on its end and tip back and forth several times. Turn the container over onto its other end and tip back and forth several times. Store rinsate for disposal. Repeat this procedure two more times.

CONTAINER DISPOSAL: Completely empty container by shaking and tapping sides and bottom to loosen clinging particles. Triple rinse container (or equivalent) promptly after emptying. Then offer for recycling if available, or puncture and dispose of in a sanitary landfill, or incineration, or if allowed by state and local authorities, by burning. If burned, stay out of smoke.

Limited Warranty: If not satisfied with this product's performance when used specifically as directed, contact DuPont Pool & Spa Products, Customer Care - Room GS38, P.O. Box 80705, Wilmington, DE 19880-0705 for a refund of purchase price or product replacement with proof of purchase. THE COMPANY MAKES NO WARRANTY, EXPRESS OR IMPLIED, EXCEPT SUCH AS IS EXPRESSLY SET FORTH HEREIN. The Company's liability for any breach of warranty shall be limited to the purchase price of the product. The Company shall not be liable for any incidental or consequential damages for any breach of warranty. Some States do not allow the exclusion or limitation of incidental or consequential damages, so the above limitation or exclusion may not apply to you. This warranty gives you specific legal rights, and you may also have other rights which vary from State to State.
