Subject **AMAZING**
NOK OUT™ Odor Eliminator
EPA Reg # 71700 2
Amendment Date April 30 2012
Receipt Date May 2 2012

Dear Dr Collier

The following is a label amendment submitted dated April 30 2012 in connection with registration under the Federal Insecticide Fungicide and Rodenticide Act (FIFRA) as amended is acceptable with comments

Proposed Amendment

Label amendment to add the target microorganisms and to update the Storage and Disposal statement Submitted proposed label pin punch dated 05/02/12

General Comments

Based on the material submitted the updated proposed label (pin punch 5/02/12) is acceptable with the following comment Change specific name *Salmonella choleraesuis* to read *Salmonella enterica* (this is a new species name)

A stamped copy of the accepted labeling is enclosed Submit one copy of your final printed labeling before distributing or selling the product bearing the revised labeling This amendment and this letter have been inserted in your file for future reference

If you have questions on this letter please contact David Liem by email at liem.david@epa.gov or call at 703 305 1284

Sincerely

A handwritten signature in black ink, appearing to read "Monisha Harris".

Monisha Harris

Regulatory Management Branch II
Antimicrobials Division (7510P)

Att Accepted with comment stamped label

DIRECTIONS FOR USE It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. NOK OUT™ is effective for disinfection of hard non porous surfaces at room temperature (20 - 25 C). Remove gross filth and heavy soil prior to application.

For general disinfection of Gram negative bacteria such as *Salmonella choleraesuis* ATCC 10708 and Gram positive bacteria such as *Staphylococcus aureus* ATCC 6538 apply NOK OUT™ at full strength to surface wetting thoroughly with sponge mop spray or by immersion in solution. Allow surfaces to remain wet for 10 minutes before rinsing thoroughly and wiping dry. For immersion, replace solution daily or more frequently if it becomes significantly soiled or diluted.

NOK OUT™ provides broad spectrum efficiency and economy for commercial institutional industrial and agricultural disinfection.

NOK OUT™ Odor Eliminator's ability to OXIDIZE MALODORS offers a definite plus to its disinfecting ability.

SUGGESTED USES For use on non food hard surfaces such as glass laminate chrome stainless steel polyurethane coated hardwood floors glazed ceramic tile floors examining tables and toilets in institutions and Public Places Meat Packing Plants Fish Processing Plants Poultry Hatcheries Industrial Processing Plants Dairies and Food Processing Plants

Amazing

ENVIRONMENTAL HAZARDS Do not discharge effluent containing this product into lakes streams ponds estuaries oceans or other water unless in accordance with the requirements of a National Pollution Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to the discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

Storage Store in original closed container in a cool dry place away from heat and open flame.

Pesticide Disposal Waste resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

Container Handling Nonrefillable Container. Do not reuse or refill this container.

(For containers less than or equal to 5 gallons) Triple rinse container (or equivalent) promptly after emptying. Triple rinse as follows: Fill container 1/4 full with water and recap. Shake for 10 seconds. Drain for 10 seconds after the flow begins to drip. Follow Pesticide Disposal instructions for rinsate disposal. Repeat procedure two more times. Then offer for recycling if available or puncture and dispose of in a sanitary landfill or by incineration.

(For 55 gallon containers) Triple rinse container (or equivalent) promptly after emptying. Triple rinse as follows: Fill container 1/4 full with water. Replace and tighten closures. Tip container on its side and roll it back and forth ensuring at least one complete revolution for 30 seconds. Stand the container on its end and tip it back and forth several times. Turn the container over onto its other end and tip it back and forth several times. Follow Pesticide Disposal instructions for rinsate disposal. Repeat procedure two more times. Then offer for recycling if available or puncture and dispose of in a sanitary landfill or by incineration.
