Subject: PRIA Label Amendment – Add *Canine parvovirus* claim to the label
Product Name: SNiPER
EPA Registration Number: 71700-2
Application Date: April 15, 2005
Decision Number: 503501

Dear Dr. Collier:

The amended label referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, is acceptable. This approval does not affect any conditions that were previously imposed on this registration. You continue to be subject to existing conditions on your registration and any deadlines connected with them.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. You must submit one copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.130(c), you may distribute or sell this product under the previously approved labeling for 18 months from the date of this letter. After 18 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. "To distribute or sell" is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance.

Your release for shipment of the product constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance

Enclosure: EPA Stamped Label

NOK OUT® provides hospital disinfection, multi-surface cleaning, and odor elimination. NOK OUT® disinfects as it cleans, eliminates odors and is fragrance free.

Directions for use: It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Gently shake 2-3 times prior to use.

Pre-Cleaning Instructions: Remove gross filth and heavy soil by cleaning. Spray NOK OUT® on to soiled surfaces, thoroughly clean and wipe away gross filth with sponge or cloth.

Disinfect Hard Non-porous Surfaces: For disinfection of hard non-porous surfaces such as glass, plastic, painted or finished wood, chrome, stainless steel, polyurethane coated hardwood floors, glazed ceramic tile, sealed concrete and linoleum floors.

Disinfect Items such as: Appliances, bed frames, wheelchairs, chairs, counters, tables, doorknobs, cabinet handles, handrails, light switch covers, tubs, showers, toilets, faucets, sinks, waste containers, etc. Spray NOK OUT® at full strength, wetting surfaces thoroughly. Allow surfaces to remain wet for 5 minutes for disinfection of Gram-negative bacteria, such as *Salmonella enterica* ATCC 10708 and Gram-positive bacteria, such as *Staphylococcus aureus* ATCC 6538, nosocomial bacteria, such as *Pseudomonas aeruginosa* ATCC 15442, *Methicillin Resistant Staphylococcus aureus (MRSA)* ATCC 33591, *Vancomycin Resistant Enterococcus faecalis (VRE)* ATCC 51299. Allow surfaces to remain wet for 10 minutes for virus inactivation of *Swine Influenza virus, Type A (H1N1)* ATCC VR-333 and *Canine Parvovirus* ATCC VR-953. NOK OUT® kills HIV-1 and HBV on surfaces previously soiled with blood / body fluids. In healthcare or other settings where there is a likelihood of surfaces / objects to be soiled with blood and / or bodily fluids with the potential of the transmission of Human Immunodeficiency Virus Type 1 (HIV-1) (associated with AIDS) and Human Hepatitis B Virus follow the following instruction for cleaning and decontamination of surfaces.

Disposal of infectious materials: Blood and other body fluids should be autoclaved and disposed of according to Federal, State, and local regulations for infectious waste disposal.

Personal Protection: Use disposable latex gloves, gowns, masks or eye covering when handling items soiled with blood or bodily fluids.

Contact Time: Allow surfaces to remain wet for 5 minutes for the inactivation of Human Immunodeficiency Virus Type 1 (HIV-1) and Human Hepatitis B Virus.

Areas for use include: Hospitals, Long-Term care facilities, out-patient clinics, surgery centers, rehab facilities, pharmacies, laboratories, ambulances, homes, schools, daycare's, gyms, locker rooms, salons, restaurants, boats, ships, airplanes, trains, buses, automobiles, industrial processing plants, poultry hatcheries, dairies, veterinary facilities, pet grooming and boarding, and animal pens.

HOSPITAL DISINFECTANT
All Purpose Cleaner
Odor Eliminator

EPA Reg. No. 71700-2

ACTIVE INGREDIENTS

- Chlorine Dioxide.....0.200%
 - n-Alkyl (60% C14, 30% C16, 5% C12, 5% C18)
 - Dimethyl Benzyl Ammonium Chloride.....0.085%
 - n-Alkyl (68% C12, 32% C14) Dimethyl
 - Ethylbenzyl Ammonium Chloride.....0.085%
- OTHER INGREDIENTS.....99.630%**
TOTAL 100.000%

KEEP OUT OF REACH OF CHILDREN

CAUTION

To Disinfect Poultry Houses and Animal Pens: Remove all animals and feed from premises. Remove all litter and manure from floors, walls, and surfaces of barns, stalls, chutes, and other facility fixtures occupied or traversed by animals. Empty all troughs, racks, and other feeding and watering appliances. Thoroughly clean all surfaces and rinse with water. Saturate all surfaces with NOK OUT® for 5-10 minutes for disinfection. Immerse halters, ropes, and other types of equipment used in handling and restraining animals, as well as forks, shovels, and scrapers used in removing litter and manure. Allow to air dry. Ventilate closed spaces and drain pooled product and / or rinse standing product with potable water.

To Deodorize: Apply NOK OUT® at full strength to eliminate odors in shoes, furniture, mattresses, curtains / drapes, carpets, rugs, sports equipment, helmets, gloves, body armor, and vehicles (Always check for fabric color fastness in an inconspicuous area). NOK OUT® eliminates odor associated with smoke from tobacco or fires, musty odors, body odors, stale-cooking odors, and odors from urine. Spray NOK OUT® at full strength, using with spray bottle or electric / pump atomization sprayer, thoroughly wetting surfaces and let air dry or residual deodorizing action. NOK OUT® must contact the source or cause of the odor to be effective. For Urine in carpets, saturate the carpet, with NOK OUT®, to the pad for complete deodorization.

ENVIRONMENTAL HAZARDS: Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other water unless in accordance with the requirements of a National Pollution Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to the discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.
Storage: Store in original closed container in a cool, dry place away from heat and open flame.
Pesticide Disposal: Waste resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.
Container Handling: Nonrefillable Container. Do not reuse or refill this container.
(For containers less than or equal to 2.5 gallons:) Triple rinse container (or equivalent) promptly after emptying. Triple rinse as follows: Fill container 1/4 full with water and recap. Shake for 10 seconds. Drain for 10 seconds after the flow begins to drip. Follow Pesticide Disposal instructions for rinsate disposal. Repeat procedure two more times. Then offer for recycling if available or puncture and dispose of in a sanitary landfill, or by incineration.
(For 55 gallon containers:) Triple rinse container (or equivalent) promptly after emptying. Triple rinse as follows: Fill container 1/4 full with water. Replace and tighten closures. Tip container on its side and roll it back and forth, ensuring at least one complete revolution, for 30 seconds. Stand the container on its end and tip it back and forth several times. Turn the container over onto its other end and tip it back and forth several times. Follow Pesticide Disposal instructions for rinsate disposal. Repeat procedure two more times. Then offer for recycling if available or puncture and dispose of in a sanitary landfill, or by incineration.
