UNITED STATES ENVIRONMENTAL PROTECTION AGENCY  
WASHINGTON, D.C. 20460

AUG 12 2008

OFFICE OF  
PREVENTION, PESTICIDES AND  
TOXIC SUBSTANCES

The Schawbel Corporation  
c/o Kim Davis, Regwest Company, LLC, Agent  
30856 Rocky Road  
Greeley, CO 80631-9375

Dear Ms Davis:

Subject: Thermacell® Mosquito Repellent  
EPA Reg. No. 71910-2  
Submission dated 5/9/08

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, is acceptable subject to the comments listed below:

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance Assurance. As an alternative, you may refer consumers to the company's phone number or email address.

Revise the second sentence of the First Aid Statement to read as follows:  
Do not breathe vapors.

Add to the First Aid statements the following:  
Remove and wash contaminated clothing before re-use.

Move the following instructions to the Use Restrictions for all lamps/appliances:

Do not expose appliance or mats to rain.  
Do not expose lamps or mats to rain.

Delete the following sentence wherever it appears, as it may lead to misuse:  
Use more appliances/lamps in larger areas.

This registration specifies butane cartridges in two different sizes. All references to the length of time the butane cartridge lasts must specify the size of the butane cartridge in fluid ounces.

On page 5, LED lamp instruction # 6, the user is told that the light does not need to be on for the repellent feature to work. In instruction #9, the user is told what to do if the repellent is not working, i.e. there is no orange light. Correct the instruction to read that the repellent on/off switch must in the "on" position.

The storage instructions must be revised to add that the appliance, lamps and butane cartridges must be stored in the original box.

In accordance with PR Notice 2007-4 revise the disposal statements for the butane cartridges to read as follows:  
Nonrefillable container. Do not reuse or refill this container.

In accordance with PR Notice 2007-4, add "batch code" to the label.

Because this product bears If Inhaled Precautionary statements, in accordance with PR Notice 2001-1, add an emergency telephone number to the first aid statements.

Add to the Hazards to Humans Precautionary Statements the following:  
Remove and wash contaminated clothing before reuse.

Graphics must not detract from the precautionary statements or directions for use. Graphics may not include pictures of children, use around surface water, or food or pictures of the device being attached to a person or the person's clothing.

All repellency claims other than 4 hours per mat must show the user how they are calculated. You must delete "{}", which appears to hide from the user how these numbers are calculated.

Delete the following statements which detract from the Precautionary Statements and Directions for use:

- Simply turn lamp on and push the button.
- Simply insert cartridge and push the start button two buttons.
- Simply screw in the cartridge and light the lamp with any match or lighter.
- Simply screw in the cartridge and depress the start button
- Simply screw in the cartridge, turn on the on-off button by pressing button to the on (in) position, wait 5 to 10 seconds and press the start button three to five times.

Simply insert the cartridge and repellent mat and push two buttons to start.  
Simply install the batteries, insert the cartridge and light with a match or lighter.

Delete the reference to "passive repellency" as the explanation that the user doesn't have to do anything for four hours and the unit continuously releases the repellent detracts from the Precautionary Statements and Directions for Use.

All marketing claims must specify the device/lamp to which they refer. The claims listed below do not apply to all devices associated with this registration. These claims must be limited claims to the devices to which they apply:

- automatic shut off
- No match or lighter required to operate.

Delete "For best results" from the Directions for Use, as they make compliance with the directions for use optional.

Move the following statements to a section entitled "Warranty and Disclaimers":

- Seller will not be held responsible for damage, injury or poor performance cause by use of other butane cartridges or repellent mats.
- Seller is not responsible for damage caused by using this butane cartridge in other butane products.

The Statement "Do not attach this appliance to your body or clothing" must be located under the heading "Use Restrictions" for all appliances.

Revise the following implied safety claim "It is great for camping" to read "Product may be used for camping."

Revise the Environmental Hazards statements in accordance with the Allethrins Reregistration Eligibility Document (RED) as follows:

This product is toxic to fish, shrimp and aquatic invertebrates. Do not apply directly to water. Do not contaminate water when cleaning equipment or disposing of equipment washwaters or rinsate. Drift may be hazardous to aquatic organisms in water adjacent to treated areas.

Delete the following implied safety claims:

- No odor, scent, smell
- Odor free
- No game-spooking odors
- Repellent does not spook game won't spook game.
- Ideal great use it in comfort
- Its design is attractive so you will be comfortable using it when you entertain guests, yet functional so it is effective and easy to use.

7/9

Additional label changes may be required by the Allethrin RED. Copies are available at the following website: <http://www.epa.gov/pesticides/reregistration/allethrin/>.

Additional label changes may be required by Pr Notice 2007-4. Copies are available at the following website: [http://www.epa.gov/PR\\_Notices/pr2007-4.pdf](http://www.epa.gov/PR_Notices/pr2007-4.pdf).

If you have questions, please call Ann Sibold at 703 305-6502.

Sincerely,

Richard Gebken

## DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

*{The following directions will be used when mats are sold with or used in the appliance (ThermaCELL® Mosquito Repellent):}*

For best results allow 10 to 30 minutes, depending upon the size of the area, for product to take effect. This product works well in outdoor areas where there is minimal air movement, such as decks, unenclosed porches, patios and yards. Use one appliance per each 225 square feet (an area 15' x 15') or 15 feet in diameter. Do not expose appliance or mats to rain. **Use Restrictions:** Only for outdoor use as an insect repellent. Do not use indoors, in tents or in any enclosed area. Do not insert anything other than {product name} mats into the appliance. Cover or remove all exposed food. Do not leave appliance unattended or use in windy conditions. Do not attach this appliance to your body or clothing. Place appliance on a flat, stable surface with the grill facing upward. Clean with a damp cloth only when the appliance is cool and inactive. Butane cartridges other than ThermaCELL® cartridges will not work in this appliance. Seller will not be held responsible for damage, injury or poor performance caused by use of other butane cartridges or repellent mats.

1. Remove one [product name] mat from wrapper. One mat lasts a maximum of 4 hours. Mat turns from pale blue to white when active ingredient has been exhausted.
2. Make sure the 'ON/OFF' switch on the appliance is in the 'OFF' position. Insert the mat under the appliance's black grill. To change mats, slide the 'ON/OFF' switch to 'OFF' and allow the appliance to cool completely. Push the used mat out by inserting a fresh one.
3. Remove the appliance cover and butane cartridge cap.
4. Screw the cartridge into the opening of the appliance. Make sure the cartridge is fully inserted by turning it clockwise until it stops. Replace the appliance cover. One ThermaCELL® butane cartridge lasts a maximum of 12 hours {0.73 fl. oz.} [a maximum of 28 hours {1.58 fl. oz.}]. If your appliance fails to heat, it may be out of fuel. Check the fuel level by holding the appliance vertically and looking at the fuel gauge on the bottom. You can see the amount of butane in the cartridge. Replace if empty.
5. Slide the 'ON/OFF' switch to the 'ON' position; the butane gas will begin to flow.
6. Wait approximately 5 to 10 seconds then depress the start button three to five times in rapid succession.
7. To verify the appliance is operating, pick it up and check the lens on the end of the appliance. The light at the end of the appliance glows when the appliance is heating. If the light is not glowing, check to make sure the appliance is 'ON' and cartridge is completely screwed into place; then once again depress the start button three to five times in rapid succession. Check to make sure the light is glowing.
8. Place the appliance on a flat, stable area, with the grill side facing up. Do not touch the grill; it will be hot after a couple of minutes. Some visible vapor will appear during use. This is normal. When finished using the appliance, slide the 'ON/OFF' switch to the 'OFF' position, and allow the appliance to cool completely. Appliance is now ready for storage.

{Graphics will be added to final printed labeling}

*{The following directions will be used when mats are sold with or used in the compact appliance (ThermaCELL® Compact Mosquito Repellent):}*

For best results allow 10 to 30 minutes, depending upon the size of the area, for product to take effect. This product works well in outdoor areas where there is minimal air movement, such as decks, unenclosed porches, patios and yards. Use one appliance per each 225 square feet (an area 15' x 15') or 15 feet in diameter. Do not expose appliance or mats to rain. Match or lighter required to operate. **To change mats**, unscrew the cartridge at least one full turn and verify that the light has stopped glowing then allow the appliance to cool completely. Push the used mat out by inserting a fresh one. Do not attach this appliance to your body or clothing. **Use Restrictions:** Only for outdoor use as an insect repellent. Do not use indoors, in tents or in any enclosed area. Do not insert anything other than {product name} mats into the appliance. Cover or remove all exposed food. Do not leave appliance unattended or use in windy conditions. Place appliance on a flat, stable surface with the grill facing upward. Clean with a damp cloth only when the appliance is cool and inactive. Butane cartridges other than

ThermaCELL® cartridges will not work in this appliance. Seller will not be held responsible for damage, injury or poor performance caused by use of other butane cartridges or repellent mats.

One ThermaCELL® butane cartridge lasts a maximum of 12 hours. If your appliance fails to heat, it may be out of fuel. Check the fuel level by holding the cartridge vertically and looking at the fuel level. You can see the amount of butane in the cartridge. Replace if empty.

1. Remove one [product name] mat from wrapper. Insert the mat under the appliance's grill. One mat lasts a maximum of 4 hours. Mat turns from pale blue to white when active ingredient has been exhausted.
2. Remove the butane cartridge cap. Screw the cartridge into the opening of the appliance; the butane gas will begin to flow. Make sure the cartridge is fully inserted by turning it clockwise until it stops. Slide the window on the end of the appliance open to expose the ignition port. Hold a lit match or lighter near the ignition port for 5 seconds or until a popping sound is heard. To verify the appliance is operating, pick it up and look into the ignition port. An orange light inside glows when the appliance is heating. If the light is not glowing, check to make sure the cartridge is completely screwed into place; then once again hold a lit match or lighter near the ignition port. Check to make sure the light is glowing. Slide the window closed to cover the ignition port.
3. Place the appliance on a flat, stable area with the grill side facing up; do not place the appliance so that it is standing on the cartridge. Do not touch the grill; it will be hot after a couple of minutes. Some visible vapor will appear during use. This is normal.
4. When finished using the appliance, unscrew the cartridge at least one full turn and verify that the light has stopped glowing; allow the appliance to cool completely. Appliance is now ready for storage.

***{The following directions will be used when mats are sold with or used in the lamp (ThermaCELL® Mosquito Repellent Lantern):}***

For best results allow 10 to 30 minutes, depending upon the size of the area, for product to take effect. This product works well in outdoor areas where there is minimal air movement, such as decks, unenclosed porches, patios and yards. It is great for camping. Use one lamp per each 225 square feet (an area 15' x 15') or 15' in diameter. Use more lamps in larger areas. Do not expose lamps or mats to rain. [Features] adjustable lamp light. Automatic shut-off switch if lamp tips or is lifted. Lamp provides diffused [gentle] light as it repels mosquitoes, blackflies, flying insects, bugs and biting blackflies. Provides a maximum of 4 hours repellency per mat. Simply turn lamp on and push the button. **Use Restrictions:** Only for outdoor use as an insect repellent. Do not use indoors, in tents or in any enclosed area. Do not insert anything other than {product name} mats into the appliance [lamp]. Cover or remove all exposed food. Do not leave lamp unattended or use in windy conditions. Place appliance [lamp] on a flat, stable surface with the grill facing upward. Clean with a damp cloth only when the appliance [lamp] is cool and inactive. Butane cartridges other than ThermaCELL® cartridges will not work in this appliance [lamp]. Seller will not be held responsible for damage, injury or poor performance cause by use of other butane cartridges or repellent mats.

At the highest setting each mat lasts a maximum of 2 hours and each ThermaCELL® butane cartridge lasts a maximum of 6 hours {0.73 fl. oz.} [a maximum of 14 hours {1.58 fl. oz.}]. At the lowest setting each mat lasts a maximum of 4 hours and each ThermaCELL® butane cartridge lasts a maximum of 12 hours {0.73 fl. oz.} [a maximum of 28 hours {1.58 fl. oz.}]. Mat turns from pale blue to white when repellent has been exhausted. Some visible vapor will appear during use. This is normal.

1. Remove one [product name] mat from wrapper.
2. With globe in the 'OFF' position, insert the mat under the grill at the top of the lamp.
3. Remove the butane cartridge cap and screw the cartridge into the opening of the lamp base by turning the cartridge clockwise until it stops. Make sure the cartridge is fully inserted.
4. Place the lamp on a flat stable area. Rotate the globe clockwise to the maximum setting. [Slide the 'ON/OFF' switch to the maximum setting.] The gas will begin to flow.
5. Wait approximately 5 to 10 seconds then depress the start button three to five times in rapid succession.
6. Verify the lamp is operating (lamp will glow). If the lamp fails to glow, check to make sure the lamp is turned on and the cartridge is fully inserted. Also check the cartridge's fuel level. If the fuel level in the cartridge is empty, turn lamp off and replace the cartridge, repeating steps 3 through 6.
7. Adjust the light and the rate at which the repellent and butane are used by turning the globe [by sliding the 'ON/OFF' switch].
8. When finished using the lamp, rotate the globe [slide the 'ON/OFF' switch] to the 'OFF' position. Allow the lamp to completely cool before storing.
9. To replace a used mat, turn off lamp and allow to completely cool. Push the used mat out by inserting a fresh mat.

{Graphics will be added to final printed labeling}

***{The following directions will be used when mats are sold with or used in the LED lamp (ThermaCELL® Mosquito Repellent Patio Lantern):}***

For best results allow 10 to 30 minutes, depending upon the size of the area, for product to take effect. This product works well in outdoor areas where there is minimal air movement, such as decks, unenclosed porches, patios and yards. It is also great for camping. Use one lamp per each 225 square feet (an area 15' x 15') or 15' in diameter. Use more lamps in larger areas. Do not expose lamps or mats to rain. Lamp provides light and repels mosquitoes, black flies, flying insects, bugs and biting blackflies. Batteries power the light; heat from the ThermaCELL® cartridge activates the repellent mat and provides mosquito repellency for an area the size of an average deck. Simply insert the cartridge and push the [start] button [two buttons]. **Use Restrictions:** Only for outdoor use as an insect repellent. Do not use indoors, in tents or in any enclosed area. Do not insert anything other than {product name} mats into the appliance [lamp]. Cover or remove all exposed food. Do not leave lamp unattended or use in windy conditions. Place appliance [lamp] on a flat, stable surface with the grill facing upward. Clean with a damp cloth only when the appliance [lamp] is cool and inactive. Butane cartridges other than ThermaCELL® cartridges will not work in this appliance [lamp]. Seller will not be held responsible for damage, injury or poor performance cause by use of other butane cartridges or repellent mats.

1. Remove the battery cover [on the bottom]. Install {number} {size} size batteries (included) ([not included]), [making sure that the batteries are correctly placed in the indicated directions]. Replace battery cover. The batteries will provide lamp light for a maximum of {number} hours; [{number} hours on the 'LOW' setting and {number} hours on the 'HIGH' setting]. [Replacement alkaline batteries will provide lamp light for a maximum of {number} hours; [{number} hours on the 'LOW' setting and {number} hours on the 'HIGH' setting]
2. Remove one [product name] mat from wrapper. Mats last a maximum of 4 hours. Mat turns from pale blue to white when repellent has been exhausted.
3. Make sure the 'ON/OFF' button is in the 'OFF' position. Insert the mat under the grill at the top of the lamp.
4. Remove lamp globe [shade] [globe and top of lamp] from base [stand] by {choose from one of the following}:
  - a. Twisting the globe [shade] clockwise
  - b. Unscrewing the globe [shade] clockwise
  - c. Releasing [squeezing] [pushing] [turning] the latch [tabs] and removing [lifting out] the lamp [globe] [shade] [and cap] [top of lamp] until it is fully removed [from the base]
  - d. Holding down the base and removing [lifting out] [lifting up] the top of the lamp [until it is fully removed [from the base]
5. Remove the butane cartridge cap. Insert [screw] the cartridge into the [center of the] lamp [globe] [shade]. Make sure the cartridge is fully inserted by turning it clockwise until it stops. Replace lamp [globe] [shade] on base [stand]. One ThermaCELL® butane cartridge lasts a maximum of 12 hours.
6. To turn on [activate] lamp light, push the 'light' ['black'] button located on the bottom of the [base of the] lamp [base] [stand]. Push the button once for low light, twice for high light, and three times to turn off the light. [Push the switch to 'LOW' for low light, 'HIGH' for high light and 'OFF' to turn off the light.] The lamp may be used as a mosquito repellent with or without the light being on. [However,] for the lamp to repel mosquitoes and flying insects the mosquito repellent must be activated. If lamp light does not turn on, replace batteries.
7. To turn on [activate] the mosquito repellent push the 'ON/OFF' button to the 'ON' position. The gas will begin to flow.
8. Wait approximately 5 to 10 seconds and then depress the start button three to five times in rapid succession.
9. To verify that the mosquito repellent is activated [working] [operating] check [look at] the circular [view hole] [lens] located on [at] the top [base] [bottom] of the lamp. An orange light will glow. If there is no orange light, check to make sure the lamp is 'ON' and the cartridge is completely screwed into place. Also check the fuel level in the cartridge. If the fuel level in the cartridge is empty [or near empty], remove [empty] cartridge and replace with a new ThermaCELL® cartridge. Then once again turn the lamp 'ON' and depress the start button three to five times in rapid succession. Check again to make sure the orange light is glowing.
10. Place the lamp on a flat stable area with the lamp grill facing up. Do not touch the grill; it will be hot after a few minutes. Some visible vapor will appear during use. This is normal. When finished using the lamp, turn [slide]

[flip] the 'ON/OFF' button to the 'OFF' position. If using the light, turn [push] the 'light' ['black'] button to "OFF" [to extinguish the lamp light]. Allow lamp to cool completely. Lamp is now ready for storage.

11. To replace a used mat, turn off lamp and allow to cool completely. Push the used mat out by inserting a fresh mat.

{Graphics will be added to final printed labeling}

***{The following directions will be used when mats are sold with or used in the mini lamp (ThermaCELL® Mini Mosquito Repellent Lantern):}***

For best results allow 10 to 30 minutes, depending upon the size of the area, for product to take effect. This product works well in outdoor areas where there is minimal air movement, such as decks, unenclosed porches, patios and yards. It is great for camping. Use one lamp per 225 square feet (an area 15' x 15') or 15 feet in diameter. Use more lamps in larger areas. Do not expose lamps or mats to rain. Automatic shut-off switch if lamp tips or is lifted. Lamp provides diffused [gentle] light as it repels mosquitoes, black flies, flying insects, bugs and biting blackflies. Provides a maximum of 4 hours repellency per mat. Simply screw in the cartridge and light the lamp with any match or lighter. Match or lighter required to operate. Each mat lasts a maximum of 4 hours and each ThermaCELL® butane cartridge lasts a maximum of 12 hours. Mat turns from pale blue to white when repellent has been exhausted. Some visible vapor will appear during use. This is normal. **Use Restrictions:** Only for outdoor use as an insect repellent. Do not use indoors, in tents or in any enclosed area. Do not insert anything other than {product name} mats into the appliance [lamp]. Cover or remove all exposed food. Do not leave lamp unattended or use in windy conditions. Place appliance [lamp] on a flat, stable surface with the grill facing upward. Clean with a damp cloth only when the appliance [lamp] is cool and inactive. Butane cartridges other than ThermaCELL® cartridges will not work in this appliance [lamp]. Seller will not be held responsible for damage, injury or poor performance cause by use of other butane cartridges or repellent mats.

1. Remove one [product name] mat from wrapper.
2. Insert the mat under the grill at the top of the lamp.
3. Remove the butane cartridge cap and screw cartridge into the opening in the lamp base by turning the cartridge clockwise until it stops. The gas will begin to flow. Make sure the cartridge is fully inserted.
4. Place the lamp on a flat, stable area. Flip open the top of the lamp and hold a lit match or lighter near the white tube in the center of the globe. Verify the lamp is operating (lamp will glow), then close the top of the lamp. If the lamp fails to glow check to make sure the cartridge is fully inserted. Also check the cartridge's fuel level. If the fuel level in the cartridge is empty, replace the cartridge and repeat steps 3 and 4.
5. Do not touch the top of the lamp; it will be hot after a couple of minutes. If you have to re-light the lamp, make sure it has completely cooled before opening the top.
6. To move the lamp while it is operating, pick it up by the base while holding the button on the side of the base with your thumb. This will temporarily prevent the automatic shut-off switch from extinguishing the flame when you pick up the lamp.
7. When finished using the lamp, unscrew the cartridge at least one full turn and verify that the lamp is no longer glowing. Allow the lamp to completely cool before storing.
8. To replace a used mat, turn off lamp by unscrewing the cartridge and allow lamp to cool completely. Push the used mat out by inserting a fresh mat.

{Graphics will be added to final printed labeling}

***{The following directions will be used when mats are sold with or used in the mini lamp with self start (ThermaCELL® Mini Mosquito Repellent Lantern):}***

3. Remove the butane cartridge cap and screw cartridge into the opening in the lamp base by turning the cartridge clockwise until it stops. Make sure the cartridge is fully inserted.
4. Place the lamp on a flat, stable area; the gas will begin to flow. [Wait approximately 5 to 10 seconds then] depress the start button three to five times in rapid succession.
5. Verify the lamp is operating (lamp will glow). If the lamp fails to glow check to make sure the cartridge is fully inserted. Also check the cartridge's fuel level. If the fuel level in the cartridge is empty, replace the cartridge and repeat steps 3 and 4.
6. Do not touch the top of the lamp; it will be hot after a couple of minutes. To move the lamp while it is operating, pick it up by the base while holding the button on the side of the base with your thumb. This will temporarily prevent the automatic shut-off switch from extinguishing the flame when you pick up the lamp.
7. When finished using the lamp, unscrew the cartridge at least one full turn and verify that the lamp is no longer glowing. Allow the lamp to completely cool before storing.
8. To replace a used mat, turn off lamp by unscrewing the cartridge at least one full turn and allow lamp to cool completely. Push the used mat out by inserting a fresh mat.

{Graphics will be added to final printed labeling}

*{The following directions will be used when mats are sold with or used in the mini lamp with self start and on-off button (also ThermaCELL® Mini Mosquito Repellent Lantern):}*

For best results allow 10 to 30 minutes, depending upon the size of the area, for product to take effect. This product works well in outdoor areas where there is minimal air movement, such as decks, unenclosed porches, patios and yards. It is great for camping. Use one lamp per each 225 square feet (an area 15' x 15') or 15 feet in diameter. Use more lamps in larger areas. Do not expose lamps or mats to rain. Automatic shut-off switch if lamp tips or is lifted. Lamp provides diffused [gentle] light as it repels mosquitoes, black flies, flying insects, bugs and biting blackflies. Provides a maximum of 4 hours repellency per mat. Simply screw in the cartridge, turn on the on-off button by pressing the button to the 'ON' (in) position, wait 5 to 10 seconds and press the start button three to five times. Each mat lasts a maximum of 4 hours and each ThermaCELL® butane cartridge lasts a maximum of 12 hours. Mat turns from pale blue to white when repellent has been exhausted. Some visible vapor will appear during use. This is normal. **Use Restrictions:** Only for outdoor use as an insect repellent. Do not use indoors, in tents or in any enclosed area. Do not insert anything other than {product name} mats into the appliance [lamp]. Cover or remove all exposed food. Do not leave lamp unattended or use in windy conditions. Place appliance [lamp] on a flat, stable surface with the grill facing upward. Press the on-off button to the 'OFF' (out) position when not in use. Clean with a damp cloth only when the appliance [lamp] is cool and inactive. Butane cartridges other than ThermaCELL® cartridges will not work in this appliance [lamp]. Seller will not be held responsible for damage, injury or poor performance cause by use of other butane cartridges or repellent mats.

1. Remove one [product name] mat from wrapper.
2. Make sure the on-off button is in the "OFF" (out) position. Insert the mat under the grill at the top of the lamp.

12  
19

3. Remove the butane cartridge cap and screw cartridge into the opening in the lamp base by turning the cartridge clockwise until it stops. Make sure the cartridge is fully inserted.
4. Place the lamp on a flat, stable area. Push the on-off button to the 'ON' (in) position; the gas will begin to flow.
5. Wait approximately 5 to 10 seconds then depress the 'START' button three to five times in rapid succession.
6. Verify the lamp is operating (lamp will glow). If the lamp fails to glow check to make sure that the on-off button is in the 'ON' (in) position and the cartridge is fully inserted. Also check the cartridge's fuel level. If the fuel level in the cartridge is empty turn off the lamp, replace the cartridge and repeat steps 3 through 6.
7. Do not touch the top of the lamp; it will be hot after a couple of minutes. To move the lamp while it is operating, pick it up by the base while holding the button on the side of the base with your thumb. This will temporarily prevent the automatic shut-off switch from extinguishing the flame when you pick up the lamp.
8. When finished using the lamp, press the on-off button to the 'OFF' (out) position and verify that the lamp is no longer glowing. Allow the lamp to completely cool before storing.
9. To replace a used mat, turn off lamp by pressing the on-off button to the 'OFF' (out) position and allow lamp to cool completely. Push the used mat out by inserting a fresh mat.

{Graphics will be added to final printed labeling}

### Storage and Disposal

Do not contaminate water, food or feed by storage or disposal.

**Storage:** Store unused mats in original packaging in a cool, dry place inaccessible to children and pets. Store appliance [lamp] and butane cartridges in a cool, dry place away from sources of heat. **Disposal:** **If cartridge is empty or for used mats:** Do not reuse empty packaging, envelopes [wrappers] or cartridges. Do not puncture or incinerate empty cartridges. Place in trash or offer for recycling if available. **If cartridge is partly filled or for unused mats:** Call your local solid waste agency for disposal instructions. Never place unused mats down any indoor or outdoor drain. **For unwanted appliance [lamp]:** Place in trash or offer for recycling if available.

### PRECAUTIONARY STATEMENTS

#### Hazards to Humans & Domestic Animals

**CAUTION:** Harmful if inhaled. Avoid breathing vapors.

#### First Aid

|                    |   |
|--------------------|---|
| <b>If Inhaled:</b> | <ul style="list-style-type: none"><li>• Move person to fresh air.</li><li>• If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible.</li><li>• Call a poison control center or doctor for further treatment advice.</li></ul> |
|--------------------|---|

Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

{Note: The first aid statements' grid format will be used if market label space permits; otherwise a paragraph format will be used.}

#### Physical and Chemical Hazards

Extremely flammable. Contents under pressure. Keep away from fire, sparks and heated surfaces. Do not puncture or incinerate butane container. Exposure to temperatures above 130°F may cause bursting.

#### Environmental Hazards

This pesticide is highly toxic to fish. Do not apply directly to water. Drift from treated areas may be hazardous to organisms in adjacent aquatic sites.

**DIRECTIONS FOR USE**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. For best results allow 10 to 30 minutes, depending upon the size of the area, for product to take effect. Each mat lasts a maximum of 4 hours and each cartridge lasts a maximum of 12 {0.73 fl. oz.} [28 {1.58 fl. oz.}] hours. Mats turn from pale blue to white when repellent has been exhausted. Use one appliance/lamp for each 225 square feet or 15 feet in diameter. Use more appliances/lamps in larger areas. Do not expose appliance/lamp or mats to rain. To change mats, make sure appliance/lamp is off and cool, then push used mat out by inserting a fresh one. [Match or lighter required to operate.] **Use Restrictions:** Only for outdoor use as an insect repellent. Do not use indoors, in tents or in any enclosed area. Do not insert anything other than {product name} mats into the appliance [lamp]. Cover or remove all exposed food. Do not leave appliance/lamp unattended or use in windy conditions. Place appliance [lamp] on a flat, stable surface with the grill facing upward. Clean with a damp cloth only when the appliance [lamp] is cool and inactive. Butane cartridges other than ThermaCELL® cartridges will not work in this appliance [lamp]. Seller will not be held responsible for damage, injury or poor performance cause by use of other butane cartridges or repellent mats.

#### Repellency

- Batteries last a maximum of 150 hours {LED lamp}
- [Each] cartridge lasts a maximum of 12 hours
- Each mat lasts a maximum of 4 hours
- Provides 15 ft diameter repellency
- Provides 225 sq ft of repellency for a maximum of 4 hours per mat
- Repellency lasts a maximum of {number} hours {"number" determined by number of mats in box multiplied by 4 hours per mat}
- Repellent Lasts a maximum of 4 hours [per mat]
- Repels mosquitoes, black flies and other flying insects
- Repels mosquitoes and black flies for a maximum of {number} hours {"number" determined by number of mats in box multiplied by 4 hours per mat}
- Repels mosquitoes using a heat-activated repellent mat
- Repels mosquitoes, black flies and other [outdoor] flying insects from an area a maximum of 15 by 15 feet
- Repels mosquitoes, black flies and other [outdoor] insects in an area as large as an average size deck or patio [from an average size deck, patio] for hours
- Repels mosquitoes, black flies and other [outdoor] flying insects creating a [area] of repellency

#### How it [ThermaCELL® Mosquito Repellents] Work

- Heat-activated repellent mat repels mosquitoes, black flies and other [outdoor] flying insects
- Heating the repellent mat releases repellent into the air and provides repellency from mosquitoes, black flies and other [outdoor] flying insects
- Repellent mat releases repellent when heated by the ThermaCELL® [power] cartridge
- ThermaCELL® cartridge heats the repellent mat; repellent is released creating a [area] of repellency

#### Where Product is Used

Ideal [great] for backyard[s], barbecues\*, camping, decks, gardening, hunting, [other] social events [gatherings], outdoor dining\*, parties, patios, picnics\*, spectator sports [and yards]

\*Cover or remove all exposed food.

#### Scent

- No game-spooking odors
- No odor [scent] [smell]
- Odor free
- Place product upwind for maximum repellency
- Repellent does not spook game [Won't spook game]

#### Other

- Effective repellency
- Refills available wherever Schawbel [ThermaCELL®] repellent products are sold
- The Schawbel Corporation [Schawbel] offers convenient refill kits for use with this product

#### Lamp

- [Dual use:] Repels mosquitoes and provides [bright] light
- If lamp light stops working, replace batteries {LED lamp}
- Lamp + Mosquito repellent
- Use the lamp to repel mosquitoes and other [outdoor] flying insects

#### Mini-appliances and lamps with self-starters

- Easy to light [start]; no match or lighter needed
- Easy start on [button]; no match needed to light
- Quick start feature; no match needed to light

Mosquitoes, black flies, bugs, outdoor flying insects and biting blackflies can spoil just about any outdoor activity whether you are entertaining guests at a barbecue or working in your backyard. Now you can alleviate the annoyance from these insects with passive repellency for a maximum of four hours; it silently and continuously releases a repellent that repels mosquitoes, black flies, outdoor flying insects, bugs and biting blackflies [for a maximum of {number} hours.]. This product efficiently repels and reduces the annoyance of mosquitoes, black flies, outdoor flying insects, bugs and biting blackflies in an area as large as an average-size deck or patio (15 feet in diameter or 225 square feet [an area 15' by 15'] for a maximum of {number} hours. This product is portable For use in backyards, and on patios, decks.

This product is silent so you can use it in comfort. Its design is attractive so you will be comfortable using it when you entertain guests, yet functional so it is effective and easy to use. Simply insert the cartridge and repellent mat and push two buttons to start. [{LED lamp:} Simply [install the batteries.] insert the cartridge and light with a match or lighter.]
