Subject: Label Notification per PRN 98-10 – multiple minor changes
Product Name: ThermaCELL Mosquito Repellent
EPA Registration Number: 71910-2
Application Date: November 24, 2014
Decision Number: 497917

Dear Mr. Dickens:

The Agency is in receipt of your Application for Pesticide Notification under Pesticide Registration Notice (PRN) 98-10 for the above referenced product. The Registration Division (RD) has conducted a review of this request for its applicability under PRN 98-10 and finds that the action requested falls within the scope of PRN 98-10.

The label submitted with the application has been stamped “Notification” and will be placed in our records.

If you have any questions, you may contact Elizabeth Fertich at 703-347-8560 or via email at fertich.elizabeth@epa.gov.

Sincerely,

A handwritten signature in black ink, appearing to read "Kable Bo Davis", enclosed within a hand-drawn oval.

Kable Bo Davis, Product Manager 3
Invertebrate and Vertebrate Branch 1 (IVB1)
Registration Division (7505P)

Email: Consumerquestions@thermacell.net

NOTIFICATION

71910-2

The applicant has certified that no changes, other than those reported to the Agency have been made to the labeling. The Agency acknowledges this notification by letter dated:

01/09/2015

[Made and Printed in Italy]

Mats Made in Italy

Manufactured in [Thailand] [Philippines] [Taiwan] [USA] {Determined at time of order}

[Protected by one or more of the following U.S. Patents: 5,700,430; 7,835,631; 6,033,212, patent(s) pending]

[] Denotes alternate/optional verbiage; { } Denotes verbiage not printed on market labeling; # = Number
 Strikethrough is replaced/removed text Underlined/hi-lighted verbiage is relocated/new/proposed text

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.
[See leaflet inside box for usage directions.]

[Useful Tips:]

- Allow 10 to 30 minutes, depending upon the size of the area, for product to take effect [and repel mosquitoes, [biting] black flies, flying insects and bugs].
- This product works well in outdoor areas where there is minimal air movement, such as [decks], [unenclosed porches], [patios] [yards] and [outdoor campsites].
- [Product may be used for camping.]
- Use one appliance* per each 225 square feet (an area 15' x 15') or 15 feet in diameter.
- Each mat lasts a maximum of 4 [12] hours and each ThermaCELL® butane cartridge lasts a maximum of 12 hours.
- Provides a maximum of 4 [12] hours repellency per mat.
- [Mats provide a maximum of 4 [12] hours repellency per mat [and turn from pale blue to white when repellent [active ingredient] [is] has been [exhausted] [used up] [depleted].]
- Mats turn from pale blue to white when repellent [active ingredient] [is] has been [exhausted] [used up] [depleted].
- [If your device [appliance] fails to heat, it may be out of fuel. Check the fuel level by holding the cartridge vertically and looking at the fuel level. You can see the amount of butane in the cartridge. Replace if empty.]
- Some visible vapor will appear during use; this is normal.
- [Use additional appliances to cover a larger area.]
- [Match or lighter required to operate.]

[Useful Tips:] {Lanterns}

- Appliance provides [diffused] [gentle] light [and] [as it] repels mosquitoes, [biting] black flies, flying insects and bugs.
- Batteries power the light; heat from the ThermaCELL cartridge activates the repellent mat and provides mosquito repellency [for up to 4 [12] hours] [for an area the size of an average deck or campsite].
- [LED lights can be used with or without the mosquito repellent.]
- [Automatic shut-off switch if appliance tips or is lifted.]
- [Post Cap cover must be open in order to use the mosquito repellent.] When finished using mosquito repellent, close post cap cover to keep out water, dirt or other debris.

Use Restrictions:

Only for outdoor use as an insect repellent. Do not use indoors, in tents or in any enclosed area. Do not insert anything other than ThermaCELL® mats into the appliance. Cover or remove all exposed food. Do not leave appliance unattended or use in windy conditions. Do not expose appliance(s) or mats to rain. [Do not attach appliance to your body or clothing.] [When using appliance stand,] Place appliance on a flat, stable surface with the grill facing upward. [Press the on-off button to the 'OFF' [out] position when not in use.] Do not touch the grill; [the top of the lantern:] it will be hot after a couple of minutes. Clean with a damp cloth only when the appliance is cool and inactive. Butane cartridges other than ThermaCELL® cartridges will not work in this appliance. [Only ThermaCELL® mats and cartridges will work in this appliance.]

**Appliance is interchangeable throughout with unit, device, compact appliance, compact appliance with self start, lantern, torch, Patio/Outdoor/Camp lantern, mini-lantern, mini-lantern with self start, post cap*

{1. The following directions will be used when mats are sold with or used in the appliance (ThermaCELL® Mosquito Repellent):}

1. Remove one ThermaCELL® Mosquito Repellent mat from wrapper.
2. Make sure the 'ON/OFF' switch on the appliance is in the 'OFF' position. Insert the mat under the appliance's black grill. To change mats, slide [turn] the 'ON/OFF' switch to 'OFF' and allow the appliance to cool completely. Push the used mat out by inserting a fresh one.
3. Remove the appliance cover and butane cartridge cap.
4. Screw the cartridge into the opening of the appliance. Make sure the cartridge is fully inserted by turning it clockwise until it stops. Replace the appliance cover. If your appliance fails to heat, it may be out of fuel. Check the fuel level by holding the appliance vertically and looking at the fuel gauge on the bottom. You can see the amount of butane in the cartridge. Replace if empty.
5. Slide [Turn] the 'ON/OFF' switch to the 'ON' position; the butane gas will begin to flow.
6. Wait approximately 5 to 10 seconds then depress the start button three to five times in rapid succession.
7. To verify the appliance is operating, pick it up and check the lens on the end of the appliance. The light at the end of the appliance glows when the appliance is heating. If the light is not glowing, check to make sure the appliance is 'ON' and cartridge is completely screwed into place; then once again depress the start button three to five times in rapid succession. Check to make sure the light is glowing.
8. When finished using the appliance, slide [turn] the 'ON/OFF' switch to the 'OFF' position, and allow the appliance to cool completely. Appliance is now ready for storage.

{2. The following directions will be used when mats are sold with or used in the compact appliance (ThermaCELL® Compact Mosquito Repellent):}

1. Remove one ThermaCELL® Mosquito Repellent mat from wrapper. Insert the mat under the appliance's grill.
2. Remove the butane cartridge cap. Screw the cartridge into the opening of the appliance; the butane gas will begin to flow. Make sure the cartridge is fully inserted by turning it clockwise until it stops. Slide the window on the end of the appliance open to expose the ignition port. Hold a lit match or lighter near the ignition port for 5 seconds or until a popping sound is heard. To verify the appliance is operating, pick it up and look into the ignition port. An orange light inside glows when the appliance is heating. If the light is not glowing, check to make sure the cartridge is completely screwed into place; then once again hold a lit match or lighter near the ignition port. Check to make sure the light is glowing. Slide the window closed to cover the ignition port.
3. Do not place the appliance so that it is standing on the cartridge.
4. When finished using the appliance, unscrew the cartridge at least one full turn and verify that the light has stopped glowing; allow the appliance to cool completely. Appliance is now ready for storage.

{Graphics will be added to final printed labeling}

{3. The following directions will be used when mats are sold with or used in the compact appliance with self start (ThermaCELL® Compact Mosquito Repellent):}

1. Remove one ThermaCELL® Mosquito Repellent mat from wrapper. Insert the mat under the appliance's grill.
2. Remove the butane cartridge cap. Screw the cartridge into the opening of the appliance; the butane gas will begin to flow. Make sure the cartridge is fully inserted by turning it clockwise until it stops.
3. Slide the start button toward the cartridge until it clicks. Do this three to five times in rapid succession.
4. To verify the appliance is operating, pick it up and check the lens on the end of the appliance. The light at the end of the appliance glows when the appliance is heating. If the light is not glowing, check to make sure the cartridge is completely screwed into place; then once again click the start button three to five times in rapid succession. Check to make sure the light is glowing.
5. Do not place the appliance so that it is standing on the cartridge.
6. When finished using the appliance, unscrew the cartridge at least one full turn and verify that the light has stopped glowing; allow the appliance to cool completely. Appliance is now ready for storage.

To change mats, unscrew the cartridge at least one full turn and verify that the light has stopped glowing then allow the appliance to cool completely. Push the used mat out by inserting a fresh one. If your appliance fails to heat, it may be out of fuel. Check the fuel level by holding the cartridge vertically and looking at the fuel level. You can see the amount of butane in the cartridge. Replace if empty.

{4. The following directions will be used when mats are sold with or used in the lantern (ThermaCELL® Mosquito Repellent Lantern) (Multipurpose Repellent Camp Lantern) :}

To Use the Light:

1. Open the battery compartment and insert [#] [size] [rechargeable] batteries. [Ensure the batteries are properly aligned with the +/- signs.] Close the battery compartment. [To recharge the batteries, use the included cord inserting the small end of the cord into the base of the lantern and inserting the plug into a powered outlet.] [The [alkaline] [rechargeable] batteries will provide light for a maximum of [200] hours [on the LOW setting and [150] hours on the HIGH setting].
2. [To use the light, [push] [press] [turn] [slide] the [ON/OFF] [switch] [dial] [button] [to the ON position] [for Low, Medium, High, SOS light and OFF]. [Lantern light can be turned off at any time by holding the button [in] for [x] seconds.] [To turn the light off [push] [press] [turn] [slide] the ON/OFF [switch] [dial] [button] [to the OFF position]. [The dial] [slider] [toggle] [switch] can be used to increase/decrease the intensity of the light].
3. (Some lanterns come with a remote control device). [On the remote control [press the ON button to turn the light on, and the OFF button to turn the light off.] [Press the button for the desired setting.]
4. [The light may be used with the mosquito repellent or independently.]

To Use the Mosquito Repellent:

1. Remove one ThermaCELL® Mosquito Repellent mat from wrapper. Insert the mat under the grill [at the [top] of the lantern].
2. [Remove] [Twist off] [Turn] [Rotate] [top of lantern]][lantern] [globe] [and remove] [from base.] Remove butane cartridge cap and [screw] [insert] cartridge into lantern. Turn cartridge clockwise until it stops. Make sure the cartridge is fully inserted. [Replace] [Return] [lantern] [globe] [on][to] [base].
3. To activate the mosquito repellent, grasp the lantern [collar] [base] and rotate [turn] [collar] [base] to the right until the [indicator] [arrow] [line] points to "ON" [is in the "ON" position.] The gas will begin to flow.
4. Wait approximately 5 to 10 seconds then rotate lantern collar further to the right until the [indicator] [arrow] [line] points to "START" [is in the "START" position]. You should hear a clicking noise. [Press the START button].
5. To verify that the mosquito repellent is activated look at the [circular] [oval] view hole

located [on the lantern] [collar] [lid] [to the right of the "START" button]. An orange light will glow. If there is no orange light, [rotate] [turn] [indicator] [arrow] [line] back to the "ON" position and repeat rotation to the "START" position two to three times in rapid succession.

6. If there is still no orange light visible in the view hole, make sure the cartridge is completely screwed into place. Also check the amount of fuel in the cartridge. If cartridge is empty or near empty, remove cartridge and replace with a new ThermaCELL® cartridge. Then repeat steps 3-5
7. When finished using the lantern, rotate [turn] the lantern collar to the left until the [indicator] [arrow] [line] [points to "OFF"] [is in the "OFF" position]. Allow lantern to cool completely before storing.
8. To replace a used mat, make sure [indicator] [arrow] [line] [points to "OFF"] [is in the "OFF" position] and allow lantern grill to cool. Push the used mat out by inserting a fresh mat.

{5. The following directions will be used when mats are sold with or used in the Patio/Outdoor lantern (ThermaCELL® Mosquito Repellent Patio Lantern and ThermaCELL® Mosquito Repellent Outdoor Camping [Outdoor] Lantern) :}

To Use the Light:

1. Open the battery compartment and insert [#] [size] [rechargeable] batteries.[Ensure the batteries are properly aligned with the +/- signs.] Close the battery compartment. [To recharge the batteries, use the included cord inserting the small end of the cord into the base of the lantern and inserting the plug into a powered outlet.] . [The [alkaline] [rechargeable] batteries will provide light for a maximum of [200] hours [on the LOW setting and [150] hours on the HIGH setting].
2. [To use the light, [push] [press] [turn] [slide] the [ON/OFF] [switch] [dial] [button] [to the ON position] [for Low, Medium, High, SOS light and OFF]. [Lantern light can be turned off at any time by holding the button [in] for [x] seconds.] [To turn the light off [push] [press] [turn] [slide] the ON/OFF [switch] [dial] [button] [to the OFF position]. [The dial [slider] [toggle] [switch] can be used to increase/decrease the intensity of the light].
3. (Some lanterns come with a remote control device.) [On the remote control [press the ON button to turn the light on, and the OFF button to turn the light off.] [Press the button for the desired setting.]
4. [The light may be used with the mosquito repellent or independently.]

To Use the Mosquito Repellent:

1. Remove one ThermaCELL® mat from wrapper.
2. [Make sure the 'ON/OFF' button is in the 'OFF' position.] Insert the [repellent] mat under the grill [at the top of the lantern].
3. Remove [top of lantern] [and globe] from base [by squeezing the latch tabs and lifting out the top of lantern until it is fully removed from the base].
4. Remove butane cartridge cap and screw [insert] cartridge into lantern. Turn cartridge clockwise until it stops. Make sure cartridge is fully inserted.
5. [Replace lantern [globe] [on base].

6. To activate the mosquito repellent, slide [turn] [push] the 'ON/OFF' button [knob] [dial] to the 'ON' position. The gas will begin to flow.

7. Wait approximately 5 to 10 seconds and then depress the 'START' button three to five times in rapid succession.

8. To verify that the mosquito repellent is activated look at the circular view hole located [at the top] [of] [on] the lantern. An orange light will glow. If there is no orange light, check to make sure the lantern is 'ON' and the cartridge is completely screwed into place. Also check the fuel level in the cartridge. If the fuel level in the cartridge is empty or near empty, remove cartridge and replace with a new ThermaCELL® cartridge. Then once again turn the lantern 'ON' and depress the start button three to five times in rapid succession. Check again to make sure the orange light is glowing.

9. When finished using the lantern slide [turn] [push] the 'ON/OFF' button to the 'OFF' position. If using the light, push [turn] [slide] the light switch to "OFF" to extinguish the lantern light. Allow lantern to cool completely. Lantern is now ready for storage.

10. To replace a used mat, turn off lantern and allow to cool completely. Push the used mat out by inserting a fresh mat.

{6. The following directions will be used when mats are sold with or used in the mini lantern (ThermaCELL® Mini Mosquito Repellent Lantern) :}

1. Remove one ThermaCELL® Mosquito Repellent mat from wrapper.
2. Insert the mat under the grill at the top of the lantern.
3. Remove the butane cartridge cap and screw cartridge into the opening in the lantern base by turning the cartridge clockwise until it stops. The gas will begin to flow. Make sure the cartridge is fully inserted.
4. Flip open the top of the lantern and hold a lit match or lighter near the white tube in the center of the globe. Verify the lantern is operating (lantern will glow), then close the top of the lantern. If the lantern fails to glow check to make sure the cartridge is fully inserted. Also check the cartridge's fuel level. If the fuel level in the cartridge is empty, replace the cartridge and repeat steps 3 and 4.
5. If you have to re-light the lantern, make sure it has completely cooled before opening the top.
6. To move the lantern while it is operating, pick it up by the base while holding the button on the side of the base with your thumb. This will temporarily prevent the automatic shut-off switch from extinguishing the flame when you pick up the lantern.
7. When finished using the lantern, unscrew the cartridge at least one full turn and verify that the lantern is no longer glowing. Allow the lantern to completely cool before storing.
8. To replace a used mat, turn off lantern by unscrewing the cartridge and allow lantern to cool completely. Push the used mat out by inserting a fresh mat.

{Graphics will be added to final printed labeling}

{7. The following directions will be used when mats are sold with or used in the mini lantern with self start (ThermaCELL® Mini Mosquito Repellent Lantern):}

1. Remove one ThermaCELL® Mosquito Repellent mat from wrapper.
2. Insert the mat under the grill at the top of the lantern.
3. Remove the butane cartridge cap and screw cartridge into the opening in the lantern base by turning the cartridge clockwise until it stops. Make sure the cartridge is fully inserted.
4. The gas will begin to flow. [Wait approximately 5 to 10 seconds then] depress the start button three to five times in rapid succession.
5. Verify the lantern is operating (lantern will glow). If the lantern fails to glow check to make sure the cartridge is fully inserted. Also check the cartridge's fuel level. If the fuel level in the cartridge is empty, replace the cartridge and repeat steps 3 and 4.
6. To move the lantern while it is operating, pick it up by the base while holding the button on the side of the base with your thumb. This will temporarily prevent the automatic shut-off switch from extinguishing the flame when you pick up the lantern.
7. When finished using the lantern, unscrew the cartridge at least one full turn and verify that the lantern is no longer glowing. Allow the lantern to completely cool before storing.
8. To replace a used mat, turn off lantern by unscrewing the cartridge at least one full turn and allow lantern to cool completely. Push the used mat out by inserting a fresh mat.

{Graphics will be added to final printed labeling}

{8. The following directions will be used when mats are sold with or used in the mini lantern with self start and on-off button (also ThermaCELL® Mini Mosquito Repellent Lantern):}

1. Remove one ThermaCELL® Mosquito Repellent mat from wrapper.
2. Make sure the on-off button is in the "OFF" [(out)] position. Insert the mat under the grill at the top of the lantern.
3. Remove the butane cartridge cap and screw cartridge into the opening in the lantern base by turning the cartridge clockwise until it stops. Make sure the cartridge is fully inserted.
4. Push [turn] the on-off button to the 'ON' [(in)] position; the gas will begin to flow.
5. Wait approximately 5 to 10 seconds then depress the 'START' button three to five times in rapid succession.
6. Verify the lantern is operating (lantern will glow). If the lantern fails to glow check to make sure that the on-off button is in the 'ON' [(in)] position and the cartridge is fully inserted. Also check the cartridge's fuel level. If the fuel level in the cartridge is empty turn off the lantern, replace the cartridge and repeat steps 3 through 6.
7. To move the lantern while it is operating, pick it up by the base while holding the button on the side of the base with your thumb. This will temporarily prevent the automatic shut-off switch from extinguishing the flame when you pick up the lantern.
8. When finished using the lantern, press [turn] the on-off button to the 'OFF' [(out)] position and verify that the lantern is no longer glowing. Allow the lantern to completely cool before storing.
9. To replace a used mat, turn off lantern by pressing [turning] the on-off button to the 'OFF' [(out)] position and allow lantern to cool completely. Push the used mat out by inserting a fresh mat.

{Graphics will be added to final printed labeling}

{9. The following directions will be used when mats are sold with or used in the Post Cap lantern (also ThermaCELL® Mosquito Repellent Post Cap Lantern):}

{Note to Reviewer: Photos and Artist Illustrations Only. Actual product photos or artist renditions will be used on market labeling.}

To install post cap

To secure post cap to the post, apply an exterior grade construction adhesive liberally to the inside of the post cap and place firmly on the post. **Position post cap on post with hinges facing the outside of deck and view hole facing the inside of deck**

To Set-up Mosquito Repellent

1. Open post cap cover by pulling up on tab. Cover must be open in order to use the mosquito repellent. 
2. Remove one ThermaCELL Mosquito Repellent mat from wrapper. Insert mat under grill. 
3. Remove post cap top by pressing in side of post cap where it says "PRESS" and lifting top off of post cap base. 
4. Remove butane cartridge cap and screw cartridge into the underside of the post cap top. Turn cartridge clockwise until it stops and is fully inserted. 
5. Replace post cap top on base with view hole facing the inside of deck, hinges facing outside of deck. Press down on post cap until it clicks into place.

To [Operate] [Use] [Activate] Mosquito Repellent:

1. Cover must be open in order to use the mosquito repellent.
Pull the "ON/OFF" switch to the "ON" position. The gas will begin to flow.
2. Wait 5 to 10 seconds, then pull the "ON/OFF" switch out to the "START" position. You will hear a clicking noise.
3. To verify the mosquito repellent has been activated, look at the view hole on the roof. An orange and blue light will glow. If there is no orange/blue light, repeat steps 1 and 2. If there is still no orange/blue light visible in view hole, make sure the cartridge is completely screwed into place. Also check the amount of fuel in the cartridge. If cartridge is empty or near empty, replace with a new ThermaCELL cartridge. Then repeat steps 1 & 2.
4. When finished using the mosquito repellent, [push] the "ON/OFF" [switch] to the "OFF" position. Allow [post cap] to cool completely. Close cover.
5. To replace a used mat, make sure "ON/OFF" [tab] [switch] is in the "OFF" position, and allow [device] [post cap] to cool. Push the used mat out by inserting a new mat.

**For units with LED lights:**

To [Operate] [Use] [Activate] the light

1. Remove post cap top by pressing in side of post cap where is says "**PRESS**" and lifting top off of post cap base. [Remove battery cover]. Install [#] [size] batteries [included [not included]]. [Replace battery cover and] [replace] [top portion of] [appliance] [post cap] [roof] [top] on base. [Press down on post cap until it clicks into place.] The batteries power [#] LED lights and will provide light for a maximum of [x] hours.
2. To turn LED lights on, [push] [slide] [turn] the [color] switch to the "ON" position. If LED lights do not turn on, replace batteries. When finished using LED light, [push] [slide] [turn] the [switch] to the "OFF" position. LED lights can be used with or without the mosquito repellent.

{10. The following directions will be used when mats are sold with or used in the Torch lantern (also ThermaCELL® Mosquito Repellent Backyard Torch Lantern):}

{Note to Reviewer: Photos and Artist Illustrations Only. Actual product photos or artist renditions will be used on market labeling.}

Box contains:

To Assemble Torch Pole or Lantern Stand

1. To use the torch, assemble [the] [#] pole pieces [by inserting and turning pieces [clockwise] until tight]. Insert pole into the ground a minimum of [#] inches until secure. [Place on torch pole]
2. To use the torch as a lantern, insert torch in the lantern stand provided and place on an outdoor stable [horizontal] surface

To Use the Mosquito Repellent:

1. **Insert repellent mat:** Remove [protective] cover from torch. Remove one [ThermaCELL® Mosquito Repellent] mat from wrapper. Insert mat under [torch] grill.
2. **Insert ThermaCELL butane cartridge:** Rotate Torch base to the left so that arrow points to "OPEN" [and pull base from globe] [A]. Remove ThermaCELL cartridge cap and insert cartridge into opening between battery compartments [B]. Turn cartridge clockwise until it stops. Replace base, turning until arrow points to "CLOSE" [C].

- Turn on:** Rotate torch [collar] [rim] [top] to the right until indicator line points to "ON". The gas will start [begin] to flow. Wait 5 to 10 seconds then rotate torch collar until indicator line points to "START" and you hear a clicking sound [D]. To verify that the [mosquito repellent] [appliance][torch] has been activated, look [for an orange glow] [in] [at] the oval view hole located on the torch [collar] [rim] [top] to the right of the "START" button [E]. [An orange light will glow.] Place torch on pole or lantern stand.

- Turn off:** When finished using, rotate the torch [collar] [rim] [top] to the left until the indicator line points to "OFF." Replace [protective] cover by inserting cover [flap] [tab][tongue] [circle] [on the cover] into the small oval cutout [on torch [top] [rim] [collar] [F]. [You may replace [protective] [safety] cover even if grill is still warm. Replacing [protective] cover on torch insures product is shut off and protects torch from rain, dirt and debris. Torch cannot be turned on when protective cover is in place.] [Allow Torch to cool completely.] Leave torch outside or store.
- To replace [change] a mat:** When the mat turns white, it is time to replace it. When replacing the mat, make sure indicator line is in the "OFF" position and allow grill to cool. Push the used mat out by inserting a fresh mat.

Troubleshooting: If torch does not turn on, verify that there is no orange [light] [glow] in the view hole. If there is no orange [light] [glow], rotate indicator line back to the "ON" position and repeat rotation to the "START" position two to three times in rapid succession. If there is still no orange [light] [glow] visible in the view hole, make sure the cartridge is completely screwed into place. Also check the amount of fuel in the cartridge. If cartridge is empty or near empty, remove cartridge and replace with a new ThermaCELL® cartridge. Then repeat step #[3]

To Use the Light:

- Remove lantern from torch pole or lantern stand. Rotate torch base so that arrow points to "OPEN" and pull base from globe. [In the globe], insert [#] [AA] [AAA] -size batteries [(not included)] in the battery compartments according to the "+ -" signs [G]. The batteries power [#] LED lights and will provide torch light for a maximum of [#] hours.
- Locate the black button on the side of the torch. Push button to turn light on and off. If torch light does not turn on, check batteries.
- Replace base, turning until [arrow] points to "CLOSE". Place torch on pole or lantern stand.

{Graphics will be added to final printed labeling}

Storage and Disposal

Do not contaminate water, food or feed by storage or disposal.

Pesticide Storage: Store unused mats in original box in a cool, dry place inaccessible to children and pets. Store appliance [lantern] [torch] and butane cartridges in original box in a cool, dry place away from sources of heat. [Store device on [deck] [post] with cover closed [to keep out dirt and water.]] **Pesticide Disposal and Container Handling:** Non-refillable container; do not refill or reuse this container. **If cartridge is empty or for used mats:** Do not reuse empty packaging, envelopes [wrappers] or cartridges. Do not puncture or incinerate empty cartridges. Place in trash or offer for recycling if available. **If cartridge is partly filled or for unused mats:** Call your local solid waste agency for disposal instructions. Never place unused mats down any indoor or outdoor drain. **For unwanted appliance [lantern] [torch]:** Place in trash or offer for recycling if available. Batch Code [Lot Number]: _____

PRECAUTIONARY STATEMENTS

Hazards to Humans & Domestic Animals

CAUTION: Contains petroleum distillates. Harmful if swallowed or absorbed through skin. Causes moderate eye irritation. Avoid contact with skin, eyes or clothing. Wash hands thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove and wash contaminated clothing before reuse.

First Aid

If Swallowed:	<ul style="list-style-type: none"> Call a poison control center or doctor immediately for treatment advice. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give any liquid to the person. Do not give anything by mouth to an unconscious person.
If On Skin or Clothing:	<ul style="list-style-type: none"> Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.
If In Eyes:	<ul style="list-style-type: none"> Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eyes. Call a poison control center or doctor for treatment advice.
<p>Have the product container or label with you when calling a poison control center or doctor, or going for treatment. For additional information on this pesticide product (including health concerns, medical emergencies or pesticide incidents), you may call 1-800-xxx-xxxx, Monday through Friday, 8:30 AM to 4:30 PM EST. After 4:30 PM, call your poison control center.</p>

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.
[See leaflet inside box for usage directions.]

[Useful Tips:]

- Allow 10 to 30 minutes, depending upon the size of the area, for product to take effect.
- This product works well in outdoor areas where there is minimal air movement, such as [decks], [unenclosed porches], [patios] [yards] and [outdoor campsites].
- [Product may be used for camping.]
- Use one appliance* per each 225 square feet (an area 15' x 15') or 15 feet in diameter.
- Each mat lasts a maximum of 4 [12] hours and each ThermaCELL® butane cartridge lasts a maximum of 12 hours.
- Provides a maximum of 4 [12] hours repellency per mat.
- [Mats provide a maximum of 4 [12] hours repellency per mat [and turn from pale blue to white when repellent [active ingredient] has been [exhausted] [used up] [depleted].]
- [Mat turns from pale blue to white when repellent [active ingredient] has been [exhausted] [used up] [depleted].]
- To change mats, make sure appliance/lantern is off and cool, then push used mat out by inserting a fresh one.
- Some visible vapor will appear during use; this is normal.
- [Use additional appliances to cover a larger area.]
- [Match or lighter required to operate.]

[Useful Tips:] {Lanterns}

- Appliance provides [diffused] [gentle] light [and] [as it] repels mosquitoes, [biting] black flies, flying insects and bugs.
- Batteries power the light; heat from the ThermaCELL cartridge activates the repellent mat and provides mosquito repellency [for up to 4 [12] hours] [for an area the size of an average deck or campsite].
- [LED lights can be used with or without the mosquito repellent.]
- [Automatic shut-off switch if appliance tips or is lifted.]

Use Restrictions:

Only for outdoor use as an insect repellent. Do not use indoors, in tents or in any enclosed area. Do not insert anything other than ThermaCELL® mats into the appliance. Cover or remove all exposed food. Do not leave appliance unattended or use in windy conditions. Do not expose appliance(s) or mats to rain. [Do not attach appliance to your body or clothing.] [When using appliance stand,] Place appliance on a flat, stable surface with the grill facing upward. [Press the on-off button to the 'OFF' [out] position when not in use.] Clean with a damp cloth only when the appliance is cool and inactive. Butane cartridges other than ThermaCELL® cartridges will not work in this appliance. [Only ThermaCELL® mats and cartridges will work in this appliance.]

**Appliance is interchangeable throughout with unit, device, compact appliance, compact appliance with self start, lantern, torch, Patio/Outdoor/Camp lantern, mini-lantern, mini-lantern with self start, post cap*

<ol style="list-style-type: none"> 1. Remove one mat from wrapper. 2. Full Size Appliance and Patio/Outdoor lantern: With device off and completely cool, insert mat under grill. Post Cap: open cover. With device off and completely cool, insert mat under grill. 3. Remove appliance cover, Patio/Outdoor lantern top or Post Cap Top and butane cartridge cap. Screw cartridge into receptacle and replace appliance cover [if provided], Patio/Outdoor lantern top or Post Cap top. 4. Full Size Appliance, and Patio/Outdoor lantern: Move [turn] switch to 'ON', wait 5 to 10 seconds then depress start button 3 to 5 times in rapid succession. Compact Appliance: Slide open window covering ignition port. Hold lit match or lighter near ignition port. Slide window closed to cover ignition port. Compact Appliance with self-start: Screw cartridge into appliance, wait 5 to 10 seconds then click start button 3 to 5 times in rapid succession. Post Cap: pull [turn] switch to "ON;" wait 5 to 10 seconds then pull [turn] switch to "START" position. 5. Verify appliance, Patio/Outdoor lantern or Post Cap is heating; [orange] light will glow. If the light is not glowing, make sure cartridge is completely screwed into place; then repeat step 4. Place on a flat, stable area. 6. Full Size Appliance, [and] Patio/Outdoor Lantern, [and] [or] Post Cap: When finished using, turn switch to 'OFF'. Compact Appliances: When finished using, unscrew cartridge. 7. Appliance and Patio/Outdoor Lantern: Allow to completely cool and then store. Post Cap: Allow to completely cool then close cover [to keep out water, dirt] 	<ol style="list-style-type: none"> 1. Remove one mat from wrapper. 2. With lantern off and completely cool, insert mat under grill. 3. Remove butane cartridge cap and screw into lantern base opening. Place lantern on a flat, stable area. 4. Full Size [and] [Camp] Lantern [and Torch]: Rotate [turn] lantern collar to the right until the [indicator] [arrow] [line] points to "ON" [is in the "ON" position], wait 5 to 10 seconds then rotate lantern collar further to the right until the [indicator] [arrow] [line] points to "START" [is in the "START" position]. Repeat 3 to 5 times in rapid succession. Mini Lantern: Open lantern cover and hold a lit match or lighter near white tube in center. Close lantern cover. Mini Lantern with self-start: Screw cartridge into lantern base opening [wait 5 to 10 seconds] then depress start button 3 to 5 times in rapid succession. Mini Lantern with Self-Start and On-Off Button: Press [turn] button to 'ON' [(in)] position, wait 5 to 10 seconds, then press 'START' button 3 to 5 times in rapid succession. 5. Verify lantern is operating; lantern will glow. If the lantern is not glowing, make sure cartridge is completely screwed into place; then repeat step 4. For full size lantern, orange light will glow in [circular] view hole located on the [lantern] [collar] [lid] [to the right of the "START" button.] 6. Full Size [and] [Camp] Lantern [and Torch]: When finished using lantern, rotate [turn] lantern collar to the left until the [indicator] [arrow] [line] [points to "OFF"] [is in the "OFF" position]. Mini Lantern: When finished using lantern, unscrew cartridge. Mini Lantern with Self-Start and On-Off Button: When finished using lantern, press [turn] on-off button to 'OFF' [(out)] position. 7. Allow lantern to completely cool and then store. [Torch: Replace protective cover; leave outside or store.]

Storage and Disposal

Do not contaminate water, food or feed by storage or disposal.

Pesticide Storage: Store unused mats in original box in a cool, dry place inaccessible to children and pets. Store appliance [lantern] [torch] [unit] and butane cartridges in original box in a cool, dry place away from sources of heat. Store Post Cap on [deck] [post] with cover closed [to keep out dirt and water]. **Pesticide Disposal and Container Handling:** Non-refillable container; do not refill or reuse this container. **If cartridge is empty or for used mats:** Do not reuse empty packaging, envelopes [wrappers] or cartridges. Do not puncture or incinerate empty cartridges. Place in trash or offer for recycling if available. **If cartridge is partly filled or for unused mats:** Call your local solid waste agency for disposal instructions. Never place unused mats down any indoor or outdoor drain. **For unwanted appliance [lantern] [torch]:** Place in trash or offer for recycling if available.

Batch Code [Lot Number]: _____

PRECAUTIONARY STATEMENTS

Hazards to Humans & Domestic Animals

CAUTION: Contains petroleum distillates. Harmful if swallowed or absorbed through skin. Causes moderate eye irritation. Avoid contact with skin, eyes or clothing. Wash hands thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove and wash contaminated clothing before reuse.

First Aid

If Swallowed:	<ul style="list-style-type: none"> Call a poison control center or doctor immediately for treatment advice. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give any liquid to the person. Do not give anything by mouth to an unconscious person.
If On Skin or Clothing:	<ul style="list-style-type: none"> Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.
If In Eyes:	<ul style="list-style-type: none"> Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eyes. Call a poison control center or doctor for treatment advice.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. For additional information on this pesticide product (including health concerns, medical emergencies or pesticide incidents), you may call 1-800-xxx-xxxx, Monday through Friday, 8:30 AM to 4:30 PM EST. After 4:30 PM, call your poison control center.
