Timothy H. Dickens, Ph.D.
Thermacell Repellents, Inc. c/o Scientific Coordination, Inc.
4629 Cherry Valley Drive
Rockville, MD 20853

Subject: PRIA Label Amendment – addition of public health/insect borne disease claims
Product Name: Thermacell Mosquito Repellent
EPA Registration Number: 71910-2
Application Date: 17-March-2016
Decision Number: 515288

Dear Dr. Dickens:

The amended label referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, is acceptable. This approval does not affect any conditions that were previously imposed on this registration. You continue to be subject to existing conditions on your registration and any deadlines connected with them.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. You must submit one copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.130(c), you may distribute or sell this product under the previously approved labeling for 18 months from the date of this letter. After 18 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. "To distribute or sell" is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance.

Your release for shipment of the product constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6. If you have any questions, you may contact Julie Breeden-Alemi at 703-347-0511 or via email at Breeden-Alemi.Julie@epa.gov.

Sincerely,

A handwritten signature in black ink, appearing to read 'Kable Bo Davis', enclosed within a large, hand-drawn oval.

PRECAUTIONARY STATEMENTS

Hazards to Humans & Domestic Animals

CAUTION: Contains petroleum distillates. Harmful if swallowed or absorbed through skin. Causes moderate eye irritation. Avoid contact with skin, eyes or clothing. Wash hands thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove and wash contaminated clothing before reuse.

First Aid

If Swallowed:	<ul style="list-style-type: none"> Call a poison control center or doctor immediately for treatment advice. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give any liquid to the person. Do not give anything by mouth to an unconscious person.
If On Skin or Clothing:	<ul style="list-style-type: none"> Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.
If In Eyes:	<ul style="list-style-type: none"> Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eyes. Call a poison control center or doctor for treatment advice.
Have the product container or label with you when calling a poison control center or doctor, or going for treatment. For additional information on this pesticide product (including health concerns, medical emergencies or pesticide incidents), you may call 1-800-xxx-xxxx, Monday through Friday, 8:30 AM to 4:30 PM EST. After 4:30 PM, call your poison control center.	
Note to Physician: Contains petroleum distillate. Vomiting may cause aspiration pneumonia.	

{**Note:** The first aid statements' grid format will be used if market label space permits; otherwise a paragraph format will be used.}

Physical and Chemical Hazards

[Butane Cartridge] Hazard: Extremely flammable. Contents under pressure. Vapors may cause flash fire. Use only in a well ventilated area. Do not use, store, or dispose near heat, sparks, or flames. Do not puncture or incinerate. Containers exposed to direct sunlight or otherwise heated above 120°F (49°C) may burst. Store in cool, dry area. Intentional misuse by deliberately concentrating and inhaling the contents may be harmful or fatal. If vapors are inhaled, remove person to fresh air. [Batteries] [Use only with [provided] [rechargeable] [product name] [lithium ion] [alkaline] battery. Do not pry battery with any instrument or tool or put in a fire. Battery may burst or release toxic materials.]

Environmental Hazards

This product is toxic to fish and aquatic invertebrates. Do not apply directly to water. Do not contaminate water when cleaning equipment or disposing of equipment washwater or rinsate. Drift may be hazardous to aquatic organisms in water adjacent to treated areas.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

[See leaflet inside box for usage directions.]

[Useful Tips:]

- Allow 10 to 30 minutes, depending upon the size of the area, for product to take effect [and repel mosquitoes, [biting] black flies, flying insects and bugs].
- This product works well in outdoor areas where there is minimal air movement, such as [decks], [unenclosed porches], [patios] [yards] and [outdoor campsites].
- [Product may be used for camping.]
- Use one appliance* per each 225 square feet (an area 15' x 15') or 15 feet in diameter. [15 ft]
- Each mat lasts a maximum of 4 [12] hours and each Thermacell® butane cartridge lasts a maximum of 12 hours.
- Provides a maximum of 4 [12] hours repellency per mat.
- [Mats provide a maximum of 4 [12] hours repellency per mat [and turn from pale blue to white when repellent [active ingredient] [is] has been [exhausted] [used up] [depleted].]
- Mats turn from pale blue to white when repellent [active ingredient] [is] has been [exhausted] [used up] [depleted].
- [If your device [appliance] fails to heat, it may be out of fuel. Check the fuel level by holding the cartridge vertically and looking at the fuel level. You can see the amount of butane in the cartridge. Replace if empty.]
- Some visible vapor will appear during use; this is normal.
- [Use additional appliances to cover a larger area.]
- [Match or lighter required to operate.]

[Useful Tips:] {Lanterns}

- Appliance provides [diffused] [gentle] light [and] [as it] repels mosquitoes, [biting] black flies, flying insects and bugs.
- Batteries power the light; heat from the Thermacell cartridge activates the repellent mat and provides mosquito repellency [for up to 4 [12] hours] [for an area the size of an average deck or campsite].
- [LED lights can be used with or without the mosquito repellent.]
- [Automatic shut-off switch if appliance tips or is lifted.]
- [Post Cap cover must be open in order to use the mosquito repellent.] When finished using mosquito repellent, close post cap cover to keep out water, dirt or other debris.

Use Restrictions:

Only for outdoor use as an insect repellent. Do not use indoors, in tents or in any enclosed area. Do not insert anything other than Thermacell® mats into the appliance. Cover or remove all exposed food. Do not leave appliance unattended or use in windy conditions. Do not expose appliance(s) or mats to rain. [Do not attach appliance to your body or clothing.] [When using appliance stand,] Place appliance on a flat, stable surface with the grill facing upward. [Press the on-off button to the 'OFF' [out] position when not in use.] Do not touch the grill; [the top of the lantern:] it will be hot after a couple of minutes. Clean with a damp cloth only when the appliance is cool and inactive. Butane cartridges other than Thermacell® cartridges will not work in this appliance. [Only Thermacell® mats and cartridges will work in this appliance.]

**Appliance is interchangeable throughout with unit, device, compact appliance, compact appliance with self start, lantern, torch, Patio/Outdoor/Camp lantern, mini-lantern, mini-lantern with self start, post cap*

{1. The following directions will be used when mats are sold with or used in the appliance (Thermacell® Mosquito Repellent):}

1. Remove one Thermacell® Mosquito Repellent mat from wrapper.
2. Make sure the 'ON/OFF' switch on the appliance is in the 'OFF' position. Insert the mat under the appliance's black grill. To change mats, slide [turn] the 'ON/OFF' switch to 'OFF' and allow the appliance to cool completely. Push the used mat out by inserting a fresh one.
3. Remove the appliance cover. Remove the butane cartridge cap.
4. Screw the cartridge into the opening of the appliance. Make sure the cartridge is fully inserted by turning it clockwise until it stops. Replace the appliance cover.
5. Slide [Turn] the 'ON/OFF' switch to the 'ON' position; the butane gas will begin to flow.
6. Wait approximately 5 to 10 seconds then depress the start button three to five times in rapid succession.

To verify the appliance is operating, pick it up and check the lens on the end of the appliance. The light at the end of the appliance glows when the appliance is heating. If the light is not glowing, check to make sure the appliance is 'ON' and cartridge is completely screwed into place; then once again depress the start button three to five times in rapid succession. Check to make sure the light is glowing.

When finished using the appliance, slide [turn] the 'ON/OFF' switch to the 'OFF' position, and allow the appliance to cool completely. Appliance is now ready for storage.

{2. The following directions will be used when mats are sold with or used in the compact appliance (Thermacell® Compact Mosquito Repellent):}

1. Remove one Thermacell® Mosquito Repellent mat from wrapper. Insert the mat under the appliance's grill.
2. Remove the butane cartridge cap. Screw the cartridge into the opening of the appliance; the butane gas will begin to flow. Make sure the cartridge is fully inserted by turning it clockwise until it stops. Slide the window on the end of the appliance open to expose the ignition port. Hold a lit match or lighter near the ignition port for 5 seconds or until a popping sound is heard. To verify the appliance is operating, pick it up and look into the ignition port. An orange light inside glows when the appliance is heating. If the light is not glowing, check to make sure the cartridge is completely screwed into place; then once again hold a lit match or lighter near the ignition port. Check to make sure the light is glowing. Slide the window closed to cover the ignition port.
3. Do not place the appliance so that it is standing on the cartridge.
4. When finished using the appliance, unscrew the cartridge at least one full turn and verify that the light has stopped glowing; allow the appliance to cool completely. Appliance is now ready for storage.

{Graphics will be added to final printed labeling}

{3. The following directions will be used when mats are sold with or used in the compact appliance with self start (Thermacell® Compact Mosquito Repellent):}

1. Remove one Thermacell® Mosquito Repellent mat from wrapper. Insert the mat under the appliance's grill.
2. Remove the butane cartridge cap. Screw the cartridge into the opening of the appliance; the butane gas will begin to flow. Make sure the cartridge is fully inserted by turning it clockwise until it stops.
3. Slide the start button toward the cartridge until it clicks. Do this three to five times in rapid succession.
4. To verify the appliance is operating, pick it up and check the lens on the end of the appliance. The light at the end of the appliance glows when the appliance is heating. If the light is not glowing, check to make sure the cartridge is completely screwed into place; then once again click the start button three to five times in rapid succession. Check to make sure the light is glowing.
5. Do not place the appliance so that it is standing on the cartridge.
6. When finished using the appliance, unscrew the cartridge at least one full turn and verify that the light has stopped glowing; allow the appliance to cool completely. Appliance is now ready for storage.

To change mats, unscrew the cartridge at least one full turn and verify that the light has stopped glowing then allow the appliance to cool completely. Push the used mat out by inserting a fresh one. If your appliance fails to heat, it may be out of fuel. Check the fuel level by holding the cartridge vertically and looking at the fuel level. You can see the amount of butane in the cartridge. Replace if empty.

{4. The following directions will be used when mats are sold with or used in the lantern (Thermacell® Mosquito Repellent Lantern) ([Multipurpose] [Camp] Lantern) :}

To Use the Light:

1. Open the battery compartment and insert [#] [size] [rechargeable] batteries.[Ensure the batteries are properly aligned with the +/- signs.] Close the battery compartment. [To recharge the batteries, use the included cord inserting the small end of the cord into the base of the lantern and inserting the plug into a powered outlet.] [The [alkaline] [rechargeable] batteries will provide light for a maximum of [200] hours [on the LOW setting and [150] hours on the HIGH setting].
2. [To use the light], [push] [press] [turn] [slide] the [ON/OFF] [switch] [dial] [button] [to the ON position] [for [Low], [Medium], [High], [SOS] [light] and OFF]. [Lantern light can be turned off at any time by holding the button [in] for [x] seconds.] [To turn the light off [push] [press] [turn] [slide] the [ON/OFF] [switch] [dial] [button] [to the OFF position]. [The dial] [slider] [toggle] [switch] can be used to increase/decrease the intensity of the light].
3. (Some lanterns come with a remote control device). [On the remote control [press the ON button to turn the light on, and the OFF button to turn the light off.] [Press the button for the desired setting.]
4. [The light may be used with the mosquito repellent or independently.]

To Use the Mosquito Repellent:

1. Remove one Thermacell® Mosquito Repellent mat from wrapper. Insert the mat under the grill [at the [top] of the lantern].
2. [Remove] [Twist off] [Turn] [Rotate] [top of lantern]][lantern] [globe] [base] [bottom] [and] [remove] [from] [lantern] [base] [globe]]. Remove butane cartridge cap and [screw] [insert] cartridge into lantern. Turn cartridge clockwise until it stops. Make sure the cartridge is fully inserted. [Replace] [Return] [lantern] [globe] [base] [bottom] [on][to] [base].
3. To activate the mosquito repellent, [raise the [handle] [grasp the lantern [collar] [base] and rotate [turn] [collar] [base] to the right until the [indicator] [arrow] [line] points to "ON" [position] [is in the "ON" position.] The gas will begin to flow.
4. Wait approximately 5 to 10 seconds then rotate lantern collar further to the right until the [indicator] [arrow] [line] points to "START" [is in the "START" position]. You should hear a clicking noise. [Press the START button].

5. To verify that the mosquito repellent is activated look at the [circular] [oval] view hole located [on the lantern] [collar] [lid] [to the right of the "START" button]. An orange light will glow. If there is no orange light, [rotate] [turn] [indicator] [arrow] [line] [back] [to the "ON" position] [and repeat rotation] to the "START" position two to three times in rapid succession.
6. If there is still no orange light visible in the view hole, make sure the cartridge is completely screwed into place. Also check the amount of fuel in the cartridge. If cartridge is empty or near empty, remove cartridge and replace with a new Thermacell® cartridge. Then repeat steps 3-5
7. When finished using the lantern, rotate [turn] the lantern collar to the left until the [indicator] [arrow] [line] [points to "OFF"] [is in the "OFF" position]. Allow lantern to cool completely before storing. [Transport or] [Store lantern with handle in the down position.] [Safety Feature:] [When handle is down, and [Indicator] arrow is in the "OFF" position, product cannot be turned on.] [When lantern is in the "OFF" position, and handle is down, the handle locks collar in place preventing product from turning on].
8. To replace a used mat, make sure [indicator] [arrow] [line] [points to "OFF"] [is in the "OFF" position] and allow lantern grill to cool. Push the used mat out by inserting a fresh mat.

{5. The following directions will be used when mats are sold with or used in the Patio/Outdoor lantern (Thermacell® Mosquito Repellent Patio Lantern and Thermacell® Mosquito Repellent Outdoor Camping [Outdoor] Lantern) :}

To Use the Light:

1. Open the battery compartment and insert [#] [size] [rechargeable] batteries. [Ensure the batteries are properly aligned with the +/- signs.] Close the battery compartment. [To recharge the batteries, use the included cord inserting the small end of the cord into the base of the lantern and inserting the plug into a powered outlet.] . [The [alkaline] [rechargeable] batteries will provide light for a maximum of [200] hours [on the LOW setting and [150] hours on the HIGH setting].
2. [To use the light, [push] [press] [turn] [slide] the [ON/OFF] [switch] [dial] [button] [to the ON position] [for [Low,] [Medium], [High], [SOS] light and OFF]. [Lantern light can be turned off at any time by holding the button [in] for [x] seconds.] [To turn the light off [push] [press] [turn] [slide] the ON/OFF [switch] [dial] [button] [to the OFF position]. [The dial] [slider] [toggle] [switch] can be used to increase/decrease the intensity of the light].
3. *(Some lanterns come with a remote control device.)* [On the remote control [press the ON button to turn the light on, and the OFF button to turn the light off.] [Press the button for the desired setting.]
4. [The light may be used with the mosquito repellent or independently.]

To Use the Mosquito Repellent:

1. Remove one Thermacell® mat from wrapper.
2. [Make sure the 'ON/OFF' button is in the 'OFF' position.] Insert the [repellent] mat under the grill [at the top of the lantern].
3. Remove [top of lantern] [and globe] [from] [base] [lantern bottom] [by squeezing the latch tabs and lifting out the top of lantern until it is fully removed from the base].
4. Remove butane cartridge cap and [screw] [insert] cartridge into lantern. Turn cartridge clockwise until it stops. Make sure cartridge is fully inserted.

[Replace lantern [globe] [bottom]] [on base].

5. To activate the mosquito repellent, slide [turn] [push] the 'ON/OFF' [button] [knob] [dial] to the 'ON' position. The gas will begin to flow.
6. Wait approximately 5 to 10 seconds and then depress the 'START' button three to five times in rapid succession.
7. To verify that the mosquito repellent is activated look at the circular view hole located [at the top] [of] [on] the lantern. An orange light will glow. If there is no orange light, check to make sure the lantern is 'ON' and the cartridge is completely screwed into place. Also check the fuel level in the cartridge. If the fuel level in the cartridge is empty or near empty, remove cartridge and replace with a new Thermacell® cartridge. Then once again turn the lantern 'ON' and depress the start button three to five times in rapid succession. Check again to make sure the orange light is glowing.
8. When finished using the lantern [slide] [turn] [push] the 'ON/OFF' button to the 'OFF' position. If using the light, push [turn] [slide] the light switch to "OFF" to extinguish the lantern light. Allow lantern to cool completely. Lantern is now ready for storage.
9. To replace a used mat, turn off lantern and allow to cool completely. Push the used mat out by inserting a fresh mat.

{6. The following directions will be used when mats are sold with or used in the mini lantern (Thermacell® Mini Mosquito Repellent Lantern) :}

1. Remove one Thermacell® Mosquito Repellent mat from wrapper.
2. Insert the mat under the grill at the top of the lantern.
3. Remove the butane cartridge cap and screw cartridge into the opening in the lantern base by turning the cartridge clockwise until it stops. The gas will begin to flow. Make sure the cartridge is fully inserted.
4. Flip open the top of the lantern and hold a lit match or lighter near the white tube in the center of the globe. Verify the lantern is operating (lantern will glow), then close the top of the lantern. If the lantern fails to glow check to make sure the cartridge is fully inserted. Also check the cartridge's fuel level. If the fuel level in the cartridge is empty, replace the cartridge and repeat steps 3 and 4.
5. If you have to re-light the lantern, make sure it has completely cooled before opening the top.
6. To move the lantern while it is operating, pick it up by the base while holding the button on the side of the base with your thumb. This will temporarily prevent the automatic shut-off switch from extinguishing the flame when you pick up the lantern.
7. When finished using the lantern, unscrew the cartridge at least one full turn and verify that the lantern is no longer glowing. Allow the lantern to completely cool before storing.
8. To replace a used mat, turn off lantern by unscrewing the cartridge and allow lantern to cool completely. Push the used mat out by inserting a fresh mat.

{Graphics will be added to final printed labeling}

{7. The following directions will be used when mats are sold with or used in the mini lantern with self start (Thermacell® Mini Mosquito Repellent Lantern):}

1. Remove one Thermacell® Mosquito Repellent mat from wrapper.
2. Insert the mat under the grill at the top of the lantern.
3. Remove the butane cartridge cap and screw cartridge into the opening in the lantern base by turning the cartridge clockwise until it stops. Make sure the cartridge is fully inserted.
4. The gas will begin to flow. [Wait approximately 5 to 10 seconds then] depress the start button three to five times in rapid succession.
5. Verify the lantern is operating (lantern will glow). If the lantern fails to glow check to make sure the cartridge is fully inserted. Also check the cartridge's fuel level. If the fuel level in the cartridge is empty, replace the cartridge and repeat steps 3 and 4.
6. To move the lantern while it is operating, pick it up by the base while holding the button on the side of the base with your thumb. This will temporarily prevent the automatic shut-off switch from extinguishing the flame when you pick up the lantern.
7. When finished using the lantern, unscrew the cartridge at least one full turn and verify that the lantern is no longer glowing. Allow the lantern to completely cool before storing.
8. To replace a used mat, turn off lantern by unscrewing the cartridge at least one full turn and allow lantern to cool completely. Push the used mat out by inserting a fresh mat.

{Graphics will be added to final printed labeling}

{8. The following directions will be used when mats are sold with or used in the mini lantern with self start and on-off button (also Thermacell® Mini Mosquito Repellent Lantern):}

1. Remove one Thermacell® Mosquito Repellent mat from wrapper.
2. Make sure the on-off button is in the "OFF" [(out)] position. Insert the mat under the grill at the top of the lantern.
3. Remove the butane cartridge cap and screw cartridge into the opening in the lantern base by turning the cartridge clockwise until it stops. Make sure the cartridge is fully inserted.
4. Push [turn] the on-off button to the 'ON' [(in)] position; the gas will begin to flow.
5. Wait approximately 5 to 10 seconds then depress the 'START' button three to five times in rapid succession.
6. Verify the lantern is operating (lantern will glow). If the lantern fails to glow check to make sure that the on-off button is in the 'ON' [(in)] position and the cartridge is fully inserted. Also check the cartridge's fuel level. If the fuel level in the cartridge is empty turn off the lantern, replace the cartridge and repeat steps 3 through 6.
7. To move the lantern while it is operating, pick it up by the base while holding the button on the side of the base with your thumb. This will temporarily prevent the automatic shut-off switch from extinguishing the flame when you pick up the lantern.
8. When finished using the lantern, press [turn] the on-off button to the 'OFF' [(out)] position and verify that the lantern is no longer glowing. Allow the lantern to completely cool before storing.
9. To replace a used mat, turn off lantern by pressing [turning] the on-off button to the 'OFF' [(out)] position and allow lantern to cool completely. Push the used mat out by inserting a fresh mat.

{Graphics will be added to final printed labeling}

{9. The following directions will be used when mats are sold with or used in the Post Cap lantern (also Thermacell® Mosquito Repellent Post Cap Lantern):}

{Note to Reviewer: Photos and Artist Illustrations Only. Actual product photos or artist renditions will be used on market labeling.}

To install post cap

To secure post cap to the post, apply an exterior grade construction adhesive liberally to the inside of the post cap and place firmly on the post. **Position post cap on post with hinges facing the outside of deck and view hole facing the inside of deck**

To Set-up Mosquito Repellent

1. *Open post cap cover by pulling up on tab. Cover must be open in order to use the mosquito repellent.*
2. *Remove one Thermacell Mosquito Repellent mat from wrapper. Insert mat under grill.*
3. *Remove post cap top by pressing in side of post cap where it says "PRESS" and lifting top off of post cap base.*
4. *Remove butane cartridge cap and screw cartridge into the underside of the post cap top. Turn cartridge clockwise until it stops and is fully inserted.*
5. *Replace post cap top on base with view hole facing the inside of deck, hinges facing outside of deck. Press down on post cap until it clicks into place.*

To [Operate] [Use] [Activate] Mosquito Repellent:

1. Cover must be open in order to use the mosquito repellent.
Pull the "ON/OFF" switch to the "ON" position. The gas will begin to flow.
2. Wait 5 to 10 seconds, then pull the "ON/OFF" switch out to the "START" position. You will hear a clicking noise.
3. To verify the mosquito repellent has been activated, look at the view hole on the roof. An orange and blue light will glow. If there is no orange/blue light, repeat steps 1 and 2. If there is still no orange/blue light visible in view hole, make sure the cartridge is completely screwed into place. Also check the amount of fuel in the cartridge. If cartridge is empty or near empty, replace with a new Thermacell cartridge. Then repeat steps 1 & 2.
4. When finished using the mosquito repellent, [push] the "ON/OFF" [switch] to the "OFF" position. Allow [post cap] to cool completely. Close cover.
5. To replace a used mat, make sure "ON/'OFF" [tab] [switch] is in the "OFF" position, and allow [device] [post cap] to cool. Push the used mat out by inserting a new mat.

***For units with LED lights:***

To [Operate] [Use] [Activate] the light

1. Remove post cap top by pressing in side of post cap where is says "**PRESS**" and lifting top off of post cap base. [Remove battery cover]. Install [#] [size] batteries [included [not included]]. [Replace battery cover and] [replace] [top portion of] [appliance] [post cap] [roof] [top] on base. [Press down on post cap until it clicks into place.] The batteries power [#] LED lights and will provide light for a maximum of [x] hours.
2. To turn LED lights on, [push] [slide] [turn] the [color] switch to the "ON" position. If LED lights do not turn on, replace batteries. When finished using LED light, [push] [slide] [turn] the [switch] to the "OFF" position. LED lights can be used with or without the mosquito repellent.

{10. The following directions will be used when mats are sold with or used in the Torch lantern (also Thermacell® Mosquito Repellent Backyard Torch Lantern):}

{Note to Reviewer: Photos and Artist Illustrations Only. Actual product photos or artist renditions will be used on market labeling.}

Box contains:

- [Lantern Stand]
- [6 Pole Pieces] [Pole]
- [Lantern Stand]
- Cover
- Thermacell Mosquito Repellent Cartridge
- [3] Thermacell Mosquito Repellent Mats

[To Assemble Torch Pole [or] [and] [Lantern Stand]

Torch Pole: [Assemble] [the] [#] pole pieces [by inserting and turning pieces [clockwise] until tight]. Insert pole into the ground a minimum of [#] inches until secure. [Place torch on pole].

[Lantern Stand] To use the torch as a lantern, insert torch in the lantern stand provided.

Alternate:

[To Use Torch Pole]

[Insert pole into the ground a minimum of [#] inches until secure]

To Use the Mosquito Repellent:

1. **Insert repellent mat:** Remove [protective] cover from torch. Remove one [Thermacell® Mosquito Repellent] mat from wrapper. Insert mat under [torch] grill.
2. **Insert Thermacell butane cartridge:** Rotate Torch globe so that arrow points to "OPEN" [and remove globe from base] [A]. Remove Thermacell cartridge cap and insert cartridge into opening between battery compartments [B]. Turn cartridge clockwise until it stops. Replace globe [onto base], turning until arrow points to "CLOSE" [C].

3. **Turn on:** Rotate torch [collar] [rim] [top] to the right until indicator line points to "ON". The gas will start [begin] to flow. Wait 5 to 10 seconds then rotate torch collar until indicator line points to "START" and you hear a clicking sound [D]. To verify that the [mosquito repellent] [appliance][torch] has been activated, look [for an orange glow] [in] [at] the oval view hole located on the torch [collar] [rim] [top] to the right of the "START" button [E]. [An orange light will glow.] Place torch on pole or lantern stand.

4. **Turn off:** When finished using, rotate the torch [collar] [rim] [top] to the left until the indicator line points to "OFF." Replace [protective] cover by inserting cover [flap] [tab] [tongue] [circle] [on the cover] into the small oval cutout [on torch [top] [rim] [collar] [F]. [You may replace [protective] [safety] cover even if grill is still warm. Replacing [protective] cover on torch ensures product is shut off and protects torch from rain, dirt and debris. Torch cannot be turned on when protective cover is in place.] [Allow Torch to cool completely.] Leave torch outside or store.
5. **To replace [change] a mat:** When the mat turns white, it is time to replace it. When replacing the mat, make sure indicator line is in the "OFF" position and allow grill to cool. Push the used mat out by inserting a fresh mat.

Troubleshooting: If torch does not turn on, verify that there is no orange [light] [glow] in the view hole. If there is no orange [light] [glow], rotate indicator line back to the "ON" position and repeat rotation to the "START" position two to three times in rapid succession. If there is still no orange [light] [glow] visible in the view hole, make sure the cartridge is completely screwed into place. Also check the amount of fuel in the cartridge. If cartridge is empty or near empty, remove cartridge and replace with a new Thermacell® cartridge. Then repeat step #[3]

To Use the Light:

1. Remove lantern from torch pole or lantern stand. Rotate torch base so that arrow points to "OPEN" and pull base from globe. [In the globe], insert [#] [AA] [AAA] -size batteries [(not included)] in the battery compartments according to the "+" "-" signs [G]. The batteries power [#] LED lights and will provide torch light for a maximum of [#] hours.
2. Locate the black button on the side of the torch. Push button to turn light on and off. If torch light does not turn on, check batteries.
3. Replace base, turning until [arrow] points to "CLOSE". Place torch on pole or lantern stand.

{Graphics will be added to final printed labeling}

Storage and Disposal

Do not contaminate water, food or feed by storage or disposal.

Pesticide Storage: Store unused mats in original box in a cool, dry place inaccessible to children and pets.

Store appliance [lantern] [torch] and butane cartridges in original box in a cool, dry place away from sources of heat. [Store device on [deck] [post] with cover closed [to keep out dirt and water.] [Store [alkaline] [lithium] batteries in cool, dry place away from heat or open flame.]

Pesticide Disposal and Container Handling: Non-refillable container; do not refill or reuse this container. **If cartridge is empty or for used mats:** Do not reuse empty packaging, envelopes [wrappers] or cartridges. Do not puncture or incinerate empty cartridges. Place in trash or offer for recycling if available. **If cartridge is partly filled or for unused mats:** Call your local solid waste agency for disposal instructions. Never place unused mats down any indoor or outdoor drain. **For unwanted appliance [lantern] [torch]:** Place in trash or offer for recycling if available.

PRECAUTIONARY STATEMENTS

Hazards to Humans & Domestic Animals

CAUTION: Contains petroleum distillates. Harmful if swallowed or absorbed through skin. Causes moderate eye irritation. Avoid contact with skin, eyes or clothing. Wash hands thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove and wash contaminated clothing before reuse.

First Aid

If Swallowed:	<ul style="list-style-type: none"> Call a poison control center or doctor immediately for treatment advice. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give any liquid to the person. Do not give anything by mouth to an unconscious person.
If On Skin or Clothing:	<ul style="list-style-type: none"> Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.
If In Eyes:	<ul style="list-style-type: none"> Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eyes. Call a poison control center or doctor for treatment advice.
Have the product container or label with you when calling a poison control center or doctor, or going for treatment. For additional information on this pesticide product (including health concerns, medical emergencies or pesticide incidents), you may call 1-800-xxx-xxxx, Monday through Friday, 8:30 AM to 4:30 PM EST. After 4:30 PM, call your poison control center.	
Note to Physician: Contains petroleum distillate. Vomiting may cause aspiration pneumonia.	

{**Note:** The first aid statements' grid format will be used if market label space permits; otherwise a paragraph format will be used.}

Physical and Chemical Hazards

[Butane Cartridge] Hazard: Extremely flammable. Contents under pressure. Vapors may cause flash fire. Use only in a well ventilated area. Do not use, store, or dispose near heat, sparks, or flames. Do not puncture or incinerate. Containers exposed to direct sunlight or otherwise heated above 120°F (49°C) may burst. Store in cool, dry area. Intentional misuse by deliberately concentrating and inhaling the contents may be harmful or fatal. If vapors are inhaled, remove person to fresh air. [Batteries] [Use only with [provided] [rechargeable] [product name] [lithium ion] [alkaline] battery. Do not pry battery with any instrument or tool or put in a fire. Battery may burst or release toxic materials.]

Environmental Hazards

This product is toxic to fish and aquatic invertebrates. Do not apply directly to water. Do not contaminate water when cleaning equipment or disposing of equipment washwater or rinsate. Drift may be hazardous to aquatic organisms in water adjacent to treated areas.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.
[See leaflet inside box for usage directions.]

[Useful Tips:]

- Allow 10 to 30 minutes, depending upon the size of the area, for product to take effect.
- This product works well in outdoor areas where there is minimal air movement, such as [decks], [unenclosed porches], [patios] [yards] and [outdoor campsites].
- [Product may be used for camping.]
- Use one appliance* per each 225 square feet (an area 15' x 15') or 15 feet in diameter. [15 ft]
- Each mat lasts a maximum of 4 [12] hours and each Thermacell® butane cartridge lasts a maximum of 12 hours.
- Provides a maximum of 4 [12] hours repellency per mat.
- [Mats provide a maximum of 4 [12] hours repellency per mat [and turn from pale blue to white when repellent [active ingredient] has been [exhausted] [used up] [depleted].]
- [Mat turns from pale blue to white when repellent [active ingredient] has been [exhausted] [used up] [depleted].]
- To change mats, make sure appliance/lantern is off and cool, then push used mat out by inserting a fresh one.
- Some visible vapor will appear during use; this is normal.
- [Use additional appliances to cover a larger area.]
- [Match or lighter required to operate.]

[Useful Tips:] {Lanterns}

- Appliance provides [diffused] [gentle] light [and] [as it] repels mosquitoes, [biting] black flies, flying insects and bugs.
- Batteries power the light; heat from the Thermacell cartridge activates the repellent mat and provides mosquito repellency [for up to 4 [12] hours] [for an area the size of an average deck or campsite].
- [LED lights can be used with or without the mosquito repellent.]
- [Automatic shut-off switch if appliance tips or is lifted.]

Use Restrictions:

Only for outdoor use as an insect repellent. Do not use indoors, in tents or in any enclosed area. Do not insert anything other than Thermacell® mats into the appliance. Cover or remove all exposed food. Do not leave appliance unattended or use in windy conditions. Do not expose appliance(s) or mats to rain. [Do not attach appliance to your body or clothing.] [When using appliance stand,] Place appliance on a flat, stable surface with the grill facing upward. [Press the on-off button to the 'OFF' [out] position when not in use.] Clean with a damp cloth only when the appliance is cool and inactive. Butane cartridges other than Thermacell® cartridges will not work in this appliance. [Only Thermacell® mats and cartridges will work in this appliance.]

**Appliance is interchangeable throughout with unit, device, compact appliance, compact appliance with self start, lantern, torch, Patio/Outdoor/Camp lantern, mini-lantern, mini-lantern with self start, post cap*
