Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA), as amended. Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on her/his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

EPA received an amendment request submitted on September 11, 2017. EPA grants this request under the authority of section 3(c)(5) of FIFRA, as amended. With this acceptance, all requirements set forth in the Reregistration Eligibility Decision for d-Allethrin have been satisfied. Therefore, EPA reregisters the product listed above. This action is taken under the authority of section 4(g)(2)(c) of FIFRA, as amended. Reregistration under this section does not eliminate the need for continual reassessment of pesticides. EPA may require submission of data at any time to maintain the registration of your product.

For the purpose of this Notice the last stamped accepted label dated July 5, 2017 has incorporated the required mitigation language for the d-Allethrin RED, therefore no additional labeling is required.

Please also note that the record for this product currently contains the following CSF:

- Basic CSF dated 05/15/17
