

U.S. ENVIRONMENTAL PROTECTION AGENCY
Office of Pesticide Programs
Antimicrobials Division (7510C)
401 "M" St., S.W.
Washington, D.C. 20460

EPA Reg. Number:

71916-1

Date of Issuance:
DEC 15 1998

NOTICE OF PESTICIDE:

- Registration
- Reregistration

Term of Issuance:

Conditional

Name of Pesticide Product:

TimerSaver

(under FIFRA, as amended)

Name and Address of Registrant (include ZIP Code):

SaverSystems
a Division of Meredith Inc.
1751 Sheridan Street
Richmond, Indiana 47374

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA sec. 3(c)(7)(A) provided that you:

1. Submit and/or cite all data required for registration/reregistration of your product under FIFRA sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data; and, submit acceptable responses required for reregistration of your product under FIFRA section 4.
2. Make the following label changes:
 - a. Revise the EPA Registration Number to read, "EPA Reg. No. 71916-1."

Signature of Approving Official:

Adam Heyward
Product Manager (34)
Regulatory Management Branch II
Antimicrobial Division Branch (7510C)

Date:

DEC 15 1998

- 3. Submit two copies of the final printed label for the records
A stamped copy of the label is enclosed for your records.

Sincerely,

Adam Heyward
Product Manager (34)
Regulatory Management Branch II
Antimicrobials Division (7510C)

TIMBERSAVER

Preservative for Protection and Treatment of
Wood and Wood-Foam Composite Structural
Components Against Decay Fungi and
Wood-Destroying Insects

ACTIVE INGREDIENTS:

Chromyl Chloride Tetrahydrate 98%

(O₁₂Cl₄H₂O)

Other Ingredients 2%

**KEEP OUT OF REACH
OF CHILDREN**

CAUTION
See Side Panel for Additional
Precautionary Statements
and Practical Treatment

TIMBERSAVER

Manufactured by:
SAVERS SYSTEMS,
a Division of MEREDITH INC
1751 Sheridan Street
Richmond, Indiana

EMERGENCY PHONE: (765) 968-5084

EPA REG. NO.:
Est. No.

DIP-DIFFUSION TREATMENT: PREPARATION OF SOLUTIONS: To prepare solutions, described below, water should be added to the tank to about 80% of the solution required. The temperature is then raised to the desired level and the calculated amount of TIMBERSAVER is gradually added with good agitation. The remaining water is then added and the solution agitated for an additional 10 minutes to ensure that all of the product has dissolved. The temperature of the solution should be maintained during treatment. Upon cooling some borate may crystallize out of the solution, but will redissolve when the solution is heated for the next treatment session. In very cold weather, some heating or insulation should be provided to prevent solidification in the bottom of the tank. The tank should be covered when not in use to prevent contamination and evaporation of water.

SUGGESTED CONDITIONS AND SOLUTION STRENGTHS FOR THE DIFFUSION METHOD

Lumber Thickness	Pounds of TIMBERSAVER For 100 Gallons Solution	Solution Temp.	Diffusion Complete In
Up to 1 inch (2.5cm)	140	105°F(40°C)	2 to 4 weeks
1 to 1.75 inches (2.5cm to 4.0cm)	180	120°F(50°C)	4 to 6 weeks
1.75 to 2.5 inches (4.0cm to 6.5cm)	250	130°F(55°C)	4 to 6 weeks
2.5 to 3 inches* (6.5cm to 7.6cm)	280	135°F(57°C)	6 to 8 weeks

* Lumber over 3 inches (7.6cm) in thickness or over 5 inches (12.5cm) in width should be dipped twice 24 to 72 hours apart.

DIP-DIFFUSION METHOD OF APPLICATION: Dip freshly-cut lumber in a tank containing a hot aqueous solution of TIMBERSAVER for 2 to 5 minutes. After dipping, the newly treated wood should be stacked and stored under a tarpaulin or shed roof to slow the drying process and prevent washoff by rainfall, thus improving penetration. Diffusion of the wood preservative into the interior of the wood will start immediately and will require several weeks to thoroughly penetrate the lumber, depending on species and thickness of wood. The dip-diffusion method of treatment can result in complete penetration throughout the whole cross-sectional area of treated lumber.

PRESSURE TREATMENT: Pressure treatment must rigidly adhere to the current specifications of TIMBERSAVER and/or those of the American Wood Preserver's Association (AWPA).

PRE-TREATMENT: Wood-foam composite structural components may be treated to prevent infestation of attacking organisms. Apply a 10% aqueous solution of TIMBERSAVER (1 lb./gallon solution). Solution may be applied by spray or brush until surface thoroughly wetted (approximately 7-10 gallons per 1000 sq. ft.) Current TIMBERSAVER and/or American Wood Preservers' Association specifications and test methods should be followed to ensure adequate chemical loadings in wood.

STORAGE AND DISPOSAL: Do not contaminate water, food or feed by storage or disposal.

STORAGE: Store in a dry place. Do not store where children or animals may gain access.

PESTICIDE DISPOSAL: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

CONTAINER DISPOSAL: Completely empty bag into application equipment. Then dispose of empty bag in a sanitary landfill or by incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.

ACCEPTED
with COMMENTS
in EPA Letter Dated:
DEC 15 1998

Under the Federal Insecticide,
Fungicide, and Rodenticide Act as
amended, for the pesticide,
registered under EPA Reg. No. 71916-1
