PRECAUTIONARY STATEMENTS:

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Harmful if swallowed. Avoid contact with eyes. Wash thoroughly after handling. Avoid contamination of food and feed. Do not leave container where children or animals may gain access.

STATEMENT OF PRACTICAL TREATMENT: IF SWALLOWED, immediately contact a physician or Poison Control Centre. If these are unavailable, give the victim 1 or 2 glasses of water and induce vomiting by touching back of throat with fingers. Do not induce vomiting or give anything by mouth to an unconscious person.

IF IN EYES, flush with plenty of water. Get medical attention if irritation persists.

IF ON SKIN, remove contaminated clothing and wash skin with soap and water.

IF INHALED, remove victim to fresh air.

ENVIRONMENTAL HAZARDS: "This pesticide is toxic to fish. Do not discharge effluent containing this product into lakes, ponds, estuaries, oceans, or other waters unless in accordance with the requirements of a National Pollutant Discharge System (NPDES) permit and permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA".

NOTICE: Because of many varying conditions affecting use and application, manufacturer warns buyer that these may impair or vary the results or effects of the use of this product. In any event, complete prevention of decay by fungi or other organisms is not guaranteed. Neither manufacturer or seller shall be liable in respect to any injury or damage suffered by reason of the use of this product for a purpose not indicated by the label or when used contrary to the directions or instructions hereon nor with respect to breach of any warranty not expressly specified herein. Buyer accepts this material subject to these terms, assumes all risk of usage and handling except when used or handled in accordance with this label. Neither manufacturer nor seller, makes, and their employees and agents are not permitted to make, any representations or warranties, express or implied by law, not specifically set forth herein.

DIRECTIONS FOR USE: IT IS A VIOLATION OF FEDERAL LAW TO USE THIS PRODUCT IN A MANNER INCONSISTENT WITH ITS LABELLING.

TIMBERSAVER is a water soluble inorganic borate salt for the protection and treatment of lumber and wood-foam composite structural components against decay fungi and wood boring beetles including Powder Post Beetles (Lyctidae), Furniture Beetles and Old House Borers (Anodidae), and Longhorn Beetles (Cerambycidae). This treatment is not effective against wood staining fungi and may require mixing with compatible products.

TIMBERSAVER also controls Subterranean Termites (Reticulitermes, Coptotermes, Heterotermes), Dampwood Termites (Zootermopsis), Drywood Termites (Kaloterms, Incisitermes), and Carpenter Ants, (Camponotus).

TIMBERSAVER is recommended for all interior and exterior wood and wood-foam composite structural components which will be protected from rain and not in direct contact with soil. The treatment of lumber is permanent even after cutting and finishing providing the wood is not exposed to moisture or in contact with the soil.

This product is toxic to wood destroying insects but surface etching of treated wood and wood-foam composite structural components may occur.

TIMBERSAVER

A Preservative for Protection and Treatment of Wood and Wood-Foam Composite Structural Components Against Decay Fungi and Wood-Destroying Insects

ACTIVE INGREDIENTS:

Disodium Octaborate Tetrahydrate 98%
(Na₂B₈O₁₃·4H₂O)

INERT INGREDIENTS 2%

**KEEP OUT OF REACH
OF CHILDREN**

CAUTION

**See Side Panel for Additional
Precautionary Statements
and Practical Treatment**

TIMBERSAVER

EPA REG. NO.: 71916-1

DIP-DIFFUSION TREATMENT: PREPARATION OF SOLUTION described below, water should be added to the tank to about temperature is then raised to the desired level and the solution gradually added with good agitation. The remaining water is agitated for an additional 10 minutes to ensure that all of the temperature of the solution should be maintained during treatment may crystallize out of the solution, but will redissolve when the treatment session. In very cold weather, some heating or insulation prevent solidification in the bottom of the tank. The tank should prevent contamination and evaporation of water.

SUGGESTED CONDITIONS AND SOLUTION FOR THE DIFFUSION METHOD

Lumber Thickness	Pounds of TIMBERSAVER For 100 Gallons Solution
Up to 1 inch (2.5cm)	140
1 to 1.75 inches (2.5cm to 4.0cm)	180
1.75 to 2.5 inches (4.0cm to 6.5cm)	250
2.5 to 3 inches* (6.5cm to 7.5cm)	280

* Lumber over 3 inches (7.5cm) in thickness or over 5 inches dipped twice 24 to 72 hours apart.

DIP-DIFFUSION METHOD OF APPLICATION: Dip freshly-cut wood should be stacked and stored under a tarpaulin or sheet and prevent washoff by rainfall, thus improving penetration. into the interior of the wood will start immediately and will penetrate the lumber, depending on species and thickness of treatment can result in complete penetration throughout the treated lumber.

PRESSURE TREATMENT: Pressure treatment must rigidly of TIMBERSAVER and/or those of the American Wood Preservers' Association.

PRE-TREATMENT: Wood and Wood-foam composite structural components to prevent infestation of attacking organisms. Apply a 10% solution (1 lb./gallon solution). Solution may be applied by spray or brush wetted (approximately 7-10 gallons per 1000 sq. ft.) Current Wood Preservers' Association specifications and test methods adequate chemical loadings in wood. See product data sheet.

STORAGE AND DISPOSAL: Do not contaminate water, food, or feed. **STORAGE:** Store in a dry place. Do not store where children can access. **PESTICIDE DISPOSAL:** Wastes resulting from the use of this product should be disposed of on site or at an approved waste disposal facility. **CONTAINER DISPOSAL:** Completely empty bag into applicable container or empty bag in a sanitary landfill or by incineration, or, if allowed by local authorities, by burning. If burned, stay out of smoke.
