

SHARP-SHIELD™

-----Do Not Fill with Sharps Above this Level-----

SHARPS DISPOSAL CONTAINER

Used by Health Professionals Practicing State-of-the-Art Infection Control and Environmental Protection

When used as directed, the Sharp-Shield Disposal System is a non-infectious, non-hazardous, permanent encasement method of disposal to protect our present and future environment and reduce the liability associated with sharps disposal.

Keep Out of Reach of Children

DANGER

ACTIVE INGREDIENT:

CALCIUM HYPOCHLORITE	68%
INERT INGREDIENTS	32%
TOTAL	100%
AVAILABLE CHLORINE	65%

FLASH SANITIZER

Destroys Microorganisms On-Site

Upon Insertion and during Storage

Solidifies and Encapsulates Sharps

<p>EARTH-SHIELD Inc. 304 Yampa Street Bakersfield, CA 93307 1-661-322-0300</p>

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS: DANGER: Highly Corrosive. Causes Skin and Eye Damage. May be Fatal if Swallowed. Do not get in eyes, on skin or on clothing. Do not handle with bare hands. Wear goggles or face shield and use rubber gloves and only thoroughly clean dry utensils when handling. Irritating to nose and throat. Avoid breathing dust and fumes. Remove and wash contaminated clothing before reuse.

CHEMICAL HAZARD: DANGER! STRONG OXIDIZING AGENT. Mix only into water. Contamination may start a chemical reaction with generation of heat, liberation of hazardous gases, and possible fire and explosion. Avoid any contact with flame or burning material, such as a lighted cigarette. Do not contaminate with moisture, garbage, dirt, household products, soap products, paint products, solvents, acids, vinegar, beverages, oils, pine oil, dirty rags or any other foreign matter.

EMERGENCY HANDLING: In case of contamination or decomposition, if possible, isolate container in open air or well-ventilated area. Flood with large volumes of water. Dispose of contaminated material in an approved landfill area.

ENVIRONMENTAL HAZARD: This pesticide is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or public waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of EPA.

DIRECTIONS FOR USE: It is a violation of federal law to use this product in a manner inconsistent with its labeling. Read all precautionary and first aid statements before use. 24 hours after container is filled to sharps capacity, prepare container for disposal. Open safety cap and place lock ring over its mouth. Pour the thoroughly mixed contents of solidification compound container into disposal container until full. Replace safety cap securely and mix for at least 30 seconds by rotating-end-over-end while shaking until thoroughly mixed. The container's temperature will rise. Place both containers into box and store in a safe isolated place for 24 hours. After following all directions thoroughly, the box with both containers may be disposed in standard waste receptacle.

STORAGE AND DISPOSAL: Read before using. Keep this product dry in a tightly closed container when not in use. Store in a cool, dry, well ventilated area away from heat or open flame. In case of decomposition isolate container (if possible) and flood area with large amounts of water to dissolve all materials before discarding this container. IF SPILLED, use rubber gloves and carefully return sharps and other spilled materials to sharps disposal container. Immediately commence standard disposal procedure (See Directions for Use). Do not contaminate food or feed by storage or disposal or cleaning of equipment.
