**[insert brand name]**

[insert brand name] will kill almost all annual and perennial weeds, grasses, and other unwanted plants. Mix [insert brand name] with water and use to control weeds on driveways and walkways, or around fences, trees, flower beds, shrubs, and other areas in your yard. This product can also be used for large jobs such as lawn restoration/renovation and garden plot preparation. [insert brand name] kills weeds by stopping the production of a substance found in plants. Any product not absorbed by plant breaks down into natural materials. [insert brand name] will not move in or on the soil to untreated plants.

**[Optional Product Usage]**

<b>Kills:</b>	Weeds and grasses
<b>Use on:</b>	Patios, walkways or driveways
	Around fruits, vegetables, flowers, shrubs or trees
	Along fences
<b>In Large Areas:</b>	For lawn replacement
	For garden replacement

Questions, Comments Call [insert telephone number] and [insert website]

**DIRECTIONS FOR USE**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.  
**READ ENTIRE LABEL. USE ONLY ACCORDING TO LABEL INSTRUCTIONS.**

**WHEN TO USE**

Use anytime weeds are actively growing. (Most treated weeds usually show initial symptoms within 1 week (in 2-4 days) and complete kill in 1 to 2 weeks. Larger more established weeds may take up to 4 weeks for complete kill.) For best results, apply on a warm sunny day when daytime temperature is above 60° F and no rainfall is forecast for 24 hours. Warm, sunny weather will speed up weed control. Apply only when air is calm. Reapply if it rains within 6 hours (2 hours) after application. (Rainfall or watering 6 (2) hours after application will not wash away effectiveness.) Hard-to-control weeds (such as bermudagrass) may require a repeat application if they regrow. NOT recommended for spot weed control in lawns since [insert brand name] kills all green plants, including lawn grass.

**WHERE TO USE**

**General Weed Control:** Use along fences, paths, patios, sidewalks and driveways, around trees, shrubs, and ornamental plantings and flower beds, around buildings, and in brick and gravel walkways. Use to trim and edge landscape areas. Do NOT use for spot weed control in lawns since [insert brand name] kills all green plants, including lawn grass.

**Spot Spraying:** Use on actively growing weeds in and around flower beds, ornamental trees, fruit and nut trees, grapevines, shrubs, fences, driveways and walkways. Spray when air is calm. Make sure [insert brand name] does not contact the leaves, green stems, or exposed roots of plants you don't want to kill. If necessary, use cardboard or plastic to shield plants. [insert brand name] will not move in or on the soil to untreated plants. If [insert brand name] is used to control weeds around fruit or nut trees or grapevines, allow 21 days before eating the fruit or nuts.

**Landscaping:** Use to prepare areas for planting of ornamentals, trees, shrubs, desert landscapes, rock gardens, flower beds or similar plantings. Treated areas can be replanted 1 day after treatment.

**Lawn Renovation:**

- Use [insert brand name] to kill existing weeds and grasses including the (old) lawn.
- For best results, apply in Spring or Fall, when daytime temperatures are at least 60° F.
- Under dry conditions, water lawn every other day for a week before using this product.
- Do not mow for 7 days before and after treatment.
- After 7 days, prepare the soil for planting by raking or rototilling the lawn. Rake up and remove loosened thatch or debris.
- Mix in starter fertilizer and other amendments, if needed. Level the soil.
- Apply seed according to directions on seed package, or install sod. Grass seed must have good contact with soil to germinate and grow.
- Keep area moist for 2 weeks, to establish new lawn, then water as needed.

**Brush Control:** Use when brush is green and growing. If plants are taller than 5 feet, cut back and spray regrowth. Brush sprayed in the fall may not be fully controlled until the following season. Hard-to-control species such as Blackberry, Kudzu, or Poison Oak may require a second application.

6-14

**Stump Treatment:** Stumps can be treated to prevent regrowth. For best results, treat when the vegetation is actively growing and within 5 minutes of being cut down.

- Cut the stump close to the soil surface
- Drive 4-5 nail holes into the stump
- Flood the stump with undiluted product

This treatment will control or suppress many types of woody brush and trees, such as alder, bluegum, eucalyptus, madrone, oak, giant reed, saltcedar, sweetgum, and tan oak.

**To Kill Vines:**

- If vine is growing up a pole, fences, or mature tree trunk, cut vine to a height of 3 to 4 feet and spray to thoroughly cover remaining vine.
- If vine is climbing a shrub or immature (green) tree trunk, cut vines at base and spray its regrowth. Shield shrubs and green bark from spray drift with a sheet (piece) or cardboard or plastic.

**HOW TO USE**

**IMPORTANT:** [insert brand name] is an all-purpose weed and grass killer which will kill almost all plants contacted. If necessary, use cardboard or plastic to shield desirable plants. If plants are accidentally sprayed, rinse off immediately with water. Spray when air is calm. Spray to evenly wet the weed.

To apply this product use:

- Plastic, aluminum, or stainless steel tank sprayer
- ORTHO DIAL N SPRAY®
- ORTHO SPRAY-ETTE®
- Other hose-end sprayer recommended for weed killers
- Hand-trigger sprayer

Do not use or store solutions of this product in galvanized steel or unlined steel sprayers, or apply through any type of irrigation system or with a sprinkling can.

Rinse sprayer and flush all sprayer components with water 3 times after use. Spray rinse water on bare soil or gravel. After very thorough cleaning, sprayer may be used to apply other products.

7-14

**Glyphosate 18% Concentrate**

**EPA Reg. No. 71995-6**

Use the following table to determine the amount of [insert brand name] you need. Close cap tightly after use.

1 fl oz = 2 Tbs

APPLICATOR	MIXING INSTRUCTIONS	AREA TO TREAT
Tank Sprayer	Use 6 oz (12 Tbs) in 1 gallon of water.	Spray to evenly wet. Covers 300 sq. ft. (30 ft X 10 ft)
ORTHO DIAL N SPRAY®	Add 6 oz (12 Tbs) to sprayer jar. <b>DO NOT ADD WATER.</b> <b>Set dial to 6 oz and spray.</b>	Spray to evenly wet. Covers 300 sq. ft. (30 ft X 10 ft)
ORTHO SPRAY-ETTE®	Add 24 oz to sprayer jar. Fill to the 4 gallon mark and spray.	Spray to evenly wet. Covers 1200 sq. ft. (30 ft X 40 ft)
Hand Trigger Sprayers	Use 2 Tbs in 24 oz of water	Use for spot treatments or single weeds.

For easy to kill weeds such as seedlings, use 3 oz (6 Tbs) to 1 gallon of water.

*[Alternate mixing instructions for measuring cap container]*

Measuring cap: To open, squeeze cap sides at the points indicated while unscrewing. The measuring cap has four levels indicated inside. The following table and the measuring cap should be used to determine the amount of [insert brand name] you need. Close cap tightly after use. No need to rinse.

- Level 1 = 1 teaspoon (tsp)
- Level 2 = 1 tablespoon (Tbs) = 3 tsp
- Level 3 = 1 fl oz (2 Tbs)
- Level 4 = 2 fl oz (4 Tbs)

8-14

**Glyphosate 18% Concentrate**

**EPA Reg. No. 71995-6**

APPLICATOR	MIXING INSTRUCTIONS	AREA TO TREAT
Tank Sprayer	Fill cap to Level 4 three times (12 Tbs). Add to 1 gallon of water.	Spray to evenly wet. For lawn renovation, covers 300 sq. ft. (30 ft X 10 ft)
ORTHO DIAL N SPRAY®	Fill cap to Level 4 three times (12 Tbs) and add to sprayer jar. <b>DO NOT ADD WATER.</b> <b>Set dial to 6 oz.</b>	Spray to evenly wet. For lawn renovation, covers 300 sq. ft. (30 ft X 10 ft)
ORTHO SPRAY-ETTE®	Fill cap to Level 4 twelve times (24 oz) and add to sprayer jar. Fill to the 4 gallon mark and spray.	Spray to evenly wet. For lawn renovation, covers 1200 sq. ft. (30 ft X 40 ft)
Hand Trigger Sprayers	Fill cap to Level 3 and add to 24 oz of water	Use for spot treatments or single weeds.

For easy to kill weeds such as seedlings, use 3 oz (6 Tbs) to 1 gallon of water.

**WEEDS CONTROLLED INCLUDE:** Bahiagrass, Barnyardgrass, Bermudagrass, CanadaThistle, Chickweed, Common Ragweed, Crabgrasses, Dandelion, Fescues, Field Bindweed, Field Sandbur, Foxtail, Johnsongrass, Kentucky Bluegrass, Kudzu, Lambsquarter, Orchardgrass, Perennial Ryegrass, Poison Ivy, Poison Oak, Quackgrass, Red Clover, Shepardspurse, Smooth Bromegrass, Sowthistle, White Clover, and Yellow Nutsedge

[OR alternate text]

**APPENDIX 1 - Consolidated List of Label Claims**

- A single application kills most weeds
- Built-in Measuring Cap
- Can be used over the root zone of trees, shrubs, or desirable plants
- Can reseed or sod lawns 7 days after treatment
- Child resistant cap
- Completely kills even the toughest weeds and grasses
- Concentrated for extra value
- Controls existing weeds, is not preemergent
- Covers up to 300 sq ft per gallon of spray, 75 sq ft per quart, 55 sq ft per 24 oz
- Dead weeds guaranteed
- Does not have soil activity
- Economical – mix 12 tablespoons (6 oz) per gallon
- Effects within one week (initial symptoms in 2-4 days) with complete kill in 2 to 4 weeks (1 to 2 weeks)
- Eliminates roots and weeds (guaranteed)
- For general weed control – Kills Weeds and Grasses in 2 to 4 weeks – Roots & All (Formula) Enters the plant within 6 (or 2) hours (won't wash off)
- Guaranteed results in one application
- Ideal for tough weeds in flower beds and vegetable gardens
- Kills the root (so weeds won't grow back)
- Kills over 175 types of weeds (as listed)
- Kills grass and weeds around flower beds, trees, shrubs, and sidewalks
- Kills to the root
- Kills tough and hard-to-kill weeds!
- Kills/spray weeds in flower beds and around fences, trees, driveways, walkways, and shrubs, in and around fences, patios, paths, sidewalk cracks, walkways
- Kills tough weeds (in 1 to 2 weeks) (roots and all)
- Kills unwanted weeds and grasses, (roots and all)
- Kills weeds and grasses (down to the root)
- Kills weeds roots and all
- Makes up to X gallons [where X = Net Wt/3]
- Makes up to Y gallons [where Y = Net Wt /6]
- Mix with water to make up to 5/21 gallons of spray solution (varies with qt/gal container size)
- Multipurpose grass & broadleaf weed control
- New (formula)
- NEW! LARGER SIZE Covers XX sq. ft.
- NEW! MEASURING CAP AND POUR SPOUT INCLUDED
- New, improved formula
- No odor
- No root, no weed, guaranteed

**Glyphosate 18% Concentrate**

**EPA Reg. No. 71995-6**

- No root. No weed. No problem.
- Now easier to measure and pour
- Ornamental gardens can be reseeded or planted 1 day after treatment
- Rainproof in 6 (or 2) hours
- Rainfast (rainproof) in hours
- Rainfall or watering within 6 (or 2) hours after application will not wash away effectiveness
- Rainfall within 6 (or 2) hours could affect performance
- Rainfast (rainproof) in hours
- Rainproof in 6 (2) hours
- Satisfaction guaranteed or your money back with proof of purchase
- Single application controls (kills) most weeds
- Spray woody brush, trees, and vines around houses, buildings, wooded lots, vacant lots, storage and recreational areas and along fences and driveways, or anywhere tough weeds are growing.
- Sprayed areas can be reseeded or replanted 1 day after application in a flower bed
- Starts working in 24 hours
- Use in or around vegetable gardens (flower beds, trees, shrubs)
- Use in/apply with a BIG SHOT™ Multi-purpose sprayer or other tank sprayer, ORTHO® DIAL N' SPRAY®, ORTHO SPRAY-ETTE® or other ORTHO hose-end sprayers
- Use to prepare sites for large plantings, for planting flower beds, for planting fruit trees, ornamentals, vegetables, garden sites, and to renovate lawns
- Use to refill Roundup Ready-To-Use
- Used by American Zoo and Aquarium Association Member Zoos to effectively control weeds
- Uses for Stump Treatment
- Visible results in 7 days
- Water-based formula
- Yellowing and wilting in (about) 24 hours
- Starts working overnight

Attention: Mr. Jim Tompkins (7505C)  
Product Manager (Team 25)

**Subject: Glyphosate 18% Concentrate (Reg. No. 71995-6). Notification of Label Changes.**

Dear Mr. Tompkins:

Monsanto is herein notifying the Agency of changes to the approved Master Label under Registration Number 71995-6. The revised Master Label incorporates the following changes from the approved Master Label dated 10 July 2003:

- Revised Appendix 1 (Consolidated List of Label Claims) which incorporating the following modified claims:
  - Makes up to X gallons [where X = Net. Wt./3]
  - Makes up to Y gallons [where Y = Net Wt./4]
  - Kills tough weeds (in 1 to 2 weeks) (roots and all)

The following documents are enclosed with this letter:

- Application for Pesticide (form 8570-1)
- CD-Rom containing this cover letter, required forms, and the electronic label (filename: 071995-00006.20030925.pdf)
- Certification with Respect to Label Integrity
- Five copies of the revised Master Label
- One copy of the revised Master Label highlighting changes to the 10 July 2003 stamped label

Should you have any questions, please contact Dr. Marsha Gray at our Washington office (202) 783-2460, or me directly at (314) 694-8785 or by email at [rhonda.m.mannion@monsanto.com](mailto:rhonda.m.mannion@monsanto.com).

Sincerely,

  
Rhonda M. Mannion  
Registration Manager
