Roundup Ready-To-Use is pre-mixed and pre-measured. It will kill almost all annual and perennial weeds, grasses and other unwanted plants. Ideal for tough to reach weeds found in flower beds and vegetable gardens. Use on driveways and walkways, or around fences, trees, flower beds, shrubs and other areas in your yard.

**HOW IT WORKS**

Roundup kills weeds by stopping the production of a substance found only in plants. It enters plants through foliage and moves systemically down to the roots. Roundup will kill almost all annual and perennial weeds, grasses and other unwanted plants. Roundup enters plants through foliage and moves systemically to the roots, killing weeds by stopping the production of a substance found only in plants. Any product not absorbed by plants breaks down into natural materials. Roundup will not move in or on the soil to untreated plants.

(Any product not absorbed by plants breaks down into natural materials without moving in or on the soil to untreated plants.)

**CONTROLS ALL WEEDS AND GRASSES INCLUDING:**

Barnyardgrass, Bermudagrass, Thistle, Chickweed, Common Ragweed, Dandelion, Fescues, Johnsongrass, Clover and Yellow Nutgrass and many other annual and perennial grasses, weeds, sedges and brush. (or)

**WHERE TO USE**

Use as an edger along driveways, fences, cracks in sidewalks, and around ornamentals, trees and shrubs. Also use for larger areas such as brick and gravel walkways and patios. Roundup can be used over the root zone of desirable plants without injury.

**WHEN TO USE**

**Roundup® L & G READY-TO-USE Fast Acting Formula Grass & Weed Killer**  
**EPA Reg. No. 239-2638**

Use anytime weeds and grasses are actively growing. Treated weeds usually show initial symptoms within hours and complete kill in 1 to 2 weeks. Larger more established weeds may take up to 4 weeks for a complete kill. Roundup works best in warm sunny weather with daytime temperature above 60° F. Reapply if it rains within 2 hours after application. If hard-to-control weeds are not killed within 4 weeks, reapply.

**WHEN TO APPLY**

- Apply when weeds are actively growing. Use anytime weeds (and/& grasses) are actively growing.
  - For best results apply during warm sunny weather (above 60° F).
  - Spray/Apply when air is calm to prevent drift to desirable plants.
  - Roundup is RAIN-PROOF™ in 2 hours. Rainfall 2 hours after application will not wash away effectiveness. (or) RAIN-PROOF – Rain or watering 2 hours after application will not wash away effectiveness.
  - Apply when weeds are small and/& before seeds form.) Weeds yellow and wilt within hours with complete kill in 1 to 2 weeks. Weeds usually begin to wilt within hours with complete kill in 1 to 2 weeks. Established weeds may require a repeat application.
  - All ornamental flowers, trees & shrubs may be planted **1 day after** application. Treated weeds usually show symptoms within 24 hours with complete kill in 1-2 weeks. Larger, more established weeds may take up to 4 weeks for a complete kill. Roundup works best in warm sunny weather with daytime temperatures above 60°F. Reapply if it rains within 2 hours after application or if regrowth occurs.

To treat individual weeds adjust the nozzle to a coarse spray. Spray when air is calm. Position sprayer tip approximately 1-2 feet from weeds and apply until completely covered.

**IMPORTANT:** Roundup is an all-purpose weed and grass killer which will kill almost all plants contacted. If necessary, use cardboard or plastic to shield desirable plants. If plants are accidentally sprayed, rinse off immediately with water. Do NOT use for spot weed control in lawns since Roundup kills all green plants, including lawn grass.

Sprayed areas can be replanted with ornamentals or flowers the/ 1 day after treatment.

**HOW TO APPLY**

- Adjust nozzle to a coarse spray.
- [for PNS] - Adjust nozzle to deliver narrow or wide spray.  
Spray the weeds or grasses you want to kill until thoroughly wet.

# Roundup® L & G READY-TO-USE Fast Acting Formula Grass & Weed Killer EPA Reg. No. 239-2638

## [Instructions for Pull 'N Spray]

- Adjust nozzle on wand to deliver a narrow or wide spray. Pull up on handle - DO NOT PUMP. Spray the weeds or grasses you want to kill until thoroughly wet.
- When spot treating weeds in a flower or vegetable garden, shield desirable plants from drift with a sheet (piece) of cardboard or plastic. If desirable plant is accidentally sprayed, rinse off immediately with water.

## [Instructions for Edger Applicator]

Remove top cap.

- Tighten the built-in sprinkler applicator .

To use as an edger:

- Turn jug upside down.
- Walk slowly holding jug 2 - 6 inches above the ground or weeds.
- Apply product to thoroughly cover unwanted vegetation.
- One gallon will cover a band 2 inches wide and 1200 feet long.

To control weeds in larger areas, such as brick or gravel walks and patios:

- Turn jug upside down.
- Hold jug about waist high to apply.
- Adjust the width of the spray pattern to cover weeds by raising or lowering the jug.

**IMPORTANT:** Do not spray plants or grasses you like - they may die too. Not recommended for spot weed control in lawns since Roundup kills lawn grasses.

## WHERE TO USE (or) ADDITIONAL TIPS

**For General Weed Control:** Use along fences, paths, patios, sidewalks and driveways, around trees, shrubs, and ornamental plantings and flower beds, around buildings, and in brick and gravel walkways. Use to trim and edge landscape areas. Do **NOT** use for spot weed control in lawns since Roundup kills all green plants, including lawn grass.

**For Spot Spraying:** Use on actively growing weeds in and around flower beds, ornamental trees, fruit and nut trees, grapevines, shrubs, fences, driveways and walkways. Spray when air is calm. Make sure Roundup does not contact the leaves, green stems, or exposed roots of plants you don't want to kill. If necessary, use cardboard or plastic to shield plants. Roundup will not move in or on the soil to untreated plants. If Roundup is used to control weeds around fruit or nut trees or grapevines, allow 21 days before eating the fruit or nuts.

2016

**Roundup® L & G READY-TO-USE Fast Acting Formula Grass & Weed Killer**  
**EPA Reg. No. 239-2638**

**For Landscaping:** Use to prepare areas for planting of ornamentals, trees, shrubs, desert landscapes, rock gardens, flower beds or similar plantings. Treated areas can be replanted 1 day after treatment.

**For Wildlife Areas:** Use to prepare areas for planting wildlife food. Exotic or undesirable plants can be controlled to allow for planting or recovery of native plant species. Spot treatments can be made to selectively remove unwanted plants. Be careful to keep spray off desirable plants.

**For Lawn Renovation (Or) Replacement**

- Use Roundup to kill lawn and weeds before planting new lawn (or)
- Use Roundup to kill existing weeds and grasses including the old lawn. (or)
- For lawn replacement use Roundup to kill lawn and weeds before planting new lawn.
- For best results, apply in Spring or Fall, when daytime temperatures are at least 60° F.
- Under dry conditions, water lawn every other day for a week before using Roundup. (or)
- Roundup works best when grass is actively growing
- If soil is dry, water before application and 2 or 3 days after application.
- Skip one mowing before spraying. (or)
- Do not mow for 7 days before or after treatment.
- If green patches remain after 7 days, reapply. (or)
- Wait 7 days after (the last) application to rake, till or plant with seed or sod. (or)
- After 7 days, prepare the soil for planting by raking or rototilling the lawn. (or)
- Rake up and remove loosened thatch or debris.
- Mix in starter fertilizer and other amendments, if needed. Level the soil.
- Apply seed according to directions on seed package, or install sod. Grass seed must have a good contact with soil to germinate and grow.
- Keep area moist for 2 weeks, to establish new lawn, then water as needed.

**To Kill Vines**

If vine is growing up a pole, fence or mature tree trunk, cut vine to a height of 3 to 4 feet and spray to thoroughly cover remaining vine. If vine is climbing a shrub or immature (green) tree trunk, to avoid damage to these plants, cut vine at base and spray its regrowth. Shield shrub and green trunk from spray drift with a sheet of cardboard or plastic. (or)

If vines are growing up poles, fences, or tree trunks with mature bark, cut vines to a height of 3 to 4 ft and spray vines thoroughly. If vines are climbing shrubs, or tree trunks with green bark, cut vines at base and spray regrowth. Shield shrubs and green bark from spray drift with a sheet of cardboard or plastic.

8 of 16

**Roundup® L & G READY-TO-USE Fast Acting Formula Grass & Weed Killer**  
**EPA Reg. No. 239-2638**

**For Brush Control:** Use when brush is green and growing. If plants are taller than 5 feet, cut back and spray regrowth. Brush sprayed in the fall may not be fully controlled until the following season. Hard-to-control species such as Blackberry, Kudzu, or Poison Oak may require a second application.

**Stump Treatment:** Stumps can be treated to prevent regrowth. For best results, treat when the vegetation is actively growing and within 5 minutes of being cut down.

- Cut the stump close to the soil surface.
- Drive 4-5 nail holes into the stump.
- Flood the stump with undiluted product.

This treatment will control or suppress many types of woody brush and trees, such as alder, bluegum eucalyptus, madrone, oak, giant reed, saltcedar, sweetgum, and tan oak.

**RE-SEEDING AND REPLANTING IN SPRAYED AREAS**

**Ornamentals and Flowers** - May be reseeded or replanted the next day.

**Vegetables** - To plant listed vegetables, wait 3 days after spraying, before seeding or transplanting. For tomato transplants or unlisted vegetables, wait 30 days after spraying. (or) \***Note:** Tomatoes planted from seed only. Wait 30 days for rooted transplants.

Gooseberry

huckleberry  
loganberry  
olallieberry  
red raspberry.

**Fruit and Nut Trees, Caneberries or Grapevines:** If Roundup is used to control weeds around fruit or nut trees, caneberries or grapevines, allow 21 days before eating the fruits or nuts.

For tropical fruits or special ornamental plants call for specific information 1-800-225-2883. (or) For tropical fruits, special ornamental plants or specific weeds controlled by this product call 1-800-225-2883.

*[Alternate replanting instructions text.]*

**WHEN TO REPLANT**

- All ornamental flowers, trees and shrubs may be planted **1 day after** application.
- The following fruits, vegetables and herbs may be planted **3 days after** application:  
Beans, Beet Greens, Broccoli, Brussels Sprouts, Cabbage, Carrot, Cauliflower, Celery, Chard (Swiss), Chicory, Collards, Corn, Cucumber, Eggplant, Endive, Garlic, Gourds, Horseradish, Jerusalem Artichoke, Kale, Kohlrabi, Leek, Lentils, Lettuce, Melons, Mustard Greens, Okra, Onion, Rape Greens, Parsley, Parsnips, Peas, Pepper, Potato, Pumpkin, Radish, Rhubarb, Rutabaga, Spinach, Squash, Sweet Potato, Tomatillo, Tomato (by seed), Turnip, Watercress & Yams.
- Lawn grasses and the following berries may be planted **7 days after** application:  
Blackberry, Black Raspberry, Blueberry, Boysenberry, Currant, Dewberry, Elderberry, Gooseberry, Huckleberry, Loganberry, Olallieberry & Red Raspberry (or) Raspberry (Red & Black).
- Tomatoes from transplant and unlisted fruits, vegetables & /and herbs may be planted **30 days after** application.

**REUSE AND REFILL INSTRUCTIONS:**

**Roundup® L & G READY-TO-USE Fast Acting Formula Grass & Weed Killer  
EPA Reg. No. 239-2638**

Refill ONLY with Roundup Concentrate and Super Concentrate Weed & Grass Killer. Do not use this bottle for other products.

[Alternate text] To refill/ Refill / For Refilling

**[24 fl oz]**

To refill: Add 3 Tablespoons of Roundup Concentrate Weed & Grass Killer or 4 teaspoons of Roundup Super Concentrate Weed & Grass Killer to this empty 24 fl oz bottle. Then add 24 fl oz (3 cups) clean tap water and use according to the label directions. [or] To this empty container add 3 cups of water then 3 Tbs of Roundup Concentrate or 4 tsp of Roundup Super Concentrate.

**[64 fl oz]**

To refill: Add 7 Tablespoons (3 1/2 fl oz) of Roundup Concentrate Weed & Grass Killer or 3 Tablespoons (1 1/2 fl oz) of Roundup Super Concentrate Weed & Grass Killer to this empty 64 fl oz bottle. Then add 64 fl oz (1/2 gal) clean tap water and use according to the label directions. [or] To this empty container add 1/2 gallon of water then 3 1/2 fl oz (7 TBS) of Roundup Concentrate or 1 1/2 fl oz (3 TBS) of Roundup Super Concentrate.

**[128 oz bottle]**

To refill: Add 7/8 cup (7 fl oz) of Roundup Concentrate Weed & Grass Killer or 6 Tablespoons (3 fl oz) of Roundup Super Concentrate Weed & Grass Killer to this empty 128 fl oz bottle. Then add 128 fl oz (1 gal) clean tap water and use according to the label directions. [or] To this empty container add 1 gallon of water then 7 fl oz (14 Tbs) of Roundup Concentrate or 3 fl oz (6Tbs) of Roundup Super Concentrate.

**[1.58 gal (202 fl oz) container]**

Refill: To this empty container add 192 fl oz (1 1/2 gal) of water then 10 1/2 fl oz [4/20/98 Notification] (21 Tbs) of Roundup Concentrate or 4 1/2 fl oz (9 Tbs) of Roundup Super Concentrate.

**[Pull 'N Spray 170 oz bottle]**

For refilling: Remove the entire pumping mechanism. Prepare new product carefully following refill instructions. To refill: Add 9 fl oz (18 Tbs) of Roundup Concentrate Weed & Grass Killer or 4 fl oz (8 Tbs) of Roundup Super Concentrate Weed & Grass Killer to this empty 5 L (170 fl oz) bottle. Then add 5 L (170 fl oz) clean tap water and use according to the label directions. [or] Remove the entire spraying system/pumping mechanism. To this empty container add 5 L (1 1/3 gal/gallon) of water then 9 fl oz (18 Tbs) of Roundup Concentrate or 4 fl oz (8 Tbs) of Roundup Super Concentrate.

**[Claims for all packaging options]**

Guaranteed results with one application.  
 Ready-to-use, no mixing. Covers xx sq ft [varies with container size]  
 Does not have soil activity  
 Kills unwanted weeds and grasses, roots and all  
 Spray weeds in and around fences, trees, driveways, flower beds, walkways, shrubs, and for lawn renovation. [This "lawn renovation" phrase not for 24 oz container size.]  
 New! Larger Size,  
 Kills the root. Kills the root so weeds don't come back.  
 Kills weeds and grasses, roots and all.  
 See results in 24 hours,  
 Ornamentals and Flower Beds.  
 Easy-to-use Applicator.  
 Spot treatment for lawn replanting,  
 All Purpose Weed & Grass Killer.  
 No leaks or mess. Easy to store (see back for instructions)  
 Starts working overnight. Starts to kill overnight. Works overnight.  
 Starts working in hours. See results in hours. Starts to kill in the same day.  
 Begins working in hours. Starts to kill in hours. Works in hours  
 Kills weeds dead ... breaks down into natural materials.  
 Rainproof in two hours for control that won't (doesn't) wash away.  
 New/Now rainproof.  
 New/Now improved.  
 Now approved for use in vegetable gardens.  
 Ideal for vegetable garden weed control.  
 Water Based,  
 Kills weeds and grasses, roots and all on contact.  
 Multipurpose Grass & Broadleaf Weed Control  
 Completely kills even the toughest weeds and grasses.  
 Use to prepare sites for large plantings, for planting flower beds, fruit trees, ornamentals, vegetables, garden sites and renovating lawns  
 Kills / spray weeds in flower beds and around fences, trees, shrubs, driveways, walkways and shrubs, in and around fences, patios, paths, sidewalk cracks, walkways.  
 For general weed control - kills weeds and grasses in 2 to 4 weeks - roots & all  
 Can Reseed or Sod Lawns 7 Days After Treatment [For lawn renovation and large area treatments]  
 Lawns and gardens can be reseeded or planted soon after treatment (day after treatment) [spot treatment and small areas]  
 Ornamental gardens can be reseeded or planted 1 day after treatment
