Container treats up to ____sq ft (approx. size of ____tennis courts) <i>[When calculating coverage, one gallon treats 300 sq ft and a tennis court is 2808 sq ft.]</i>	
WHAT IT DOES	<i>[Optional Illustration of grassy, broadleaf and woody weeds]</i> KILLS & PREVENTS ALL TYPES OF (TOUGH) WEEDS & GRASSES
HOW IT WORKS	(IMPORTANT!) (To prevent new weeds ad grasses from growing, YOU MUST SPRAY THE ENTIRE AREA you want to control, NOT JUST the emerged weeds.) <i>[Insert brand name]</i> Works 2 ways (Dual (2 way) Action): 1. One ingredient enters plants through foliage and moves systemically to the roots, killing weeds by stopping the production of a substance found in plants. Weeds begin to yellow and wilt within 24 hours with complete kill in 1 to 2 weeks. (Kills existing weeds & grasses, roots & all) 2. The other ingredient (Contains a second active ingredient that creates (provides) an invisible barrier in the soil that prevents growth of (new, sprouting) weed(s) (seeds) (and grasses) (from sprouting, appearing, growing) for up to 3 (2, 4) months. (Prevents new weeds from growing for up to 3 months by creating an invisible barrier.)
WHERE TO USE	(Apply only where you want to kill existing weeds AND prevent future weed growth for up to 3 (2, 4) months, such as) <i>[Optional illustrations of where to use]:</i> Treated (insert color) areas stay weed free for up to 3 (2,4) months. <i>[Alternate text]</i> Spray (apply <i>[Insert brand name]</i> to) both existing weeds and (weed-prone) areas where weeds have not yet appeared) (keeps treated (insert color) areas weed free for up to 3 (2, 4) months. Note: Product goes on clear and will not stain. (Insert color) color shown for illustration purposes only.) <ul style="list-style-type: none"> • On Walkways, driveways, gravel pathways (gravel areas), (RV and boat) parking areas, and brick patios • Along fences, foundations, retaining walls, curbs, and edge of lawns • On cracks and crevices in sidewalks, driveways, walkways patios, paths, and tennis courts • Around the base or in mulched beds of well established (at

	<p>least 6 months old) (ornamental) plants, shrubs or trees</p> <ul style="list-style-type: none"> • Decorative rock (mulch) or bark landscapes • (Around tree rings and mulched areas) <p>IMPORTANT: To prevent new weeds and grasses from growing YOU MUST SPRAY THE ENTIRE AREA you want to control (keep free of weeds), NOT JUST the emerged (existing) weeds.</p>
<p>WHERE NOT TO USE</p>	<ul style="list-style-type: none"> • DO NOT USE on your lawn (in lawns or for lawn renovation) as <i>[insert brand name]</i> prevents desirable grasses from growing too. • DO NOT USE to prepare vegetable garden plots (for vegetable garden preparation) or in your (annual) vegetable garden (in and around fruits and vegetables). • DO NOT SPRAY landscaped areas with young plants (around young plants) or (in) areas that will be planted (seeded) within 120 (30, 60, 90) days (planted within 30 (60, 90) days with bedding plants or 120 days with seed.) • Do not spray plants or grasses you like - they may die too. • (Around unestablished plants, shrubs, or trees.) <p>Note: For weed control in these areas use Roundup Weed & Grass Killer Ready-To-Use (Plus).</p>
<p>WHEN TO APPLY</p>	<ul style="list-style-type: none"> • Spray (apply) when air is calm to prevent drift to desirable plants • For best (fastest visual) results, apply during warm, sunny weather (above 60 °F) (to accelerate systemic movement from foliage to root). • (RAIN-PROOF PROTECTION:) Rain or watering (within) 2 hours (30, 45, 60, or 90 minutes; 1 hour; less than 1 hour; less than 60 minutes; less than 30 minutes) after (of) application will not wash away effectiveness. • <i>[Optional text]</i> Wait (at least) (1, 2, 3) months between applications of <i>[insert brand name]</i> (or apply when new weeds are present) • <i>[Optional text]</i> Weeds usually yellow and wilt within hours (1-3 days) with complete kill in 1 to 2 weeks.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

HOW TO APPLY

Adjust nozzle to coarse spray (setting)

[For Foaming package] Turn nozzle to desired (spray) setting (position) - FOAM (MARKER) or STREAM (SPRAY) (NO MARKER) (NO FOAM). FOAM (MARKER) marks weeds for up to (X) minutes, allowing you to easily see where you've sprayed. STREAM (SPRAY) (NO MARKER) (NO FOAM) provides coarse spray that does not foam.

Spray the weeds or grasses you want to kill until thoroughly wet or covered with foam.

[For Pull 'N Spray package]

Follow illustrations and instructions [insert location]. Point wand at unwanted weeds or grasses and push button to begin spraying. Twist nozzle at end of wand to adjust spray pattern. Pull 'T-handle' again as needed to continue spraying. **JUST PULL UP – NO NEED TO PUMP.**

[For Pull 'N Spray II package]

(Follow illustrations and instructions [insert location] to ready (prime) the sprayer.) Point sprayer at unwanted weeds, grasses and weed-prone areas where weeds typically emerge and press sprayer (button) (trigger) (to begin spraying), hold for continuous spray.

- Spray the existing weeds AND the entire surrounding weed-prone area you want to keep weed free (free of weeds) (for up to 3 (2, 4) months). Spray (the area) until **THOROUGHLY WET** (or covered with foam).

[Alternate text] To keep areas weed free for up to 3 (2, 4) months, spray the entire desired area until thoroughly wet (or covered with foam), including the area surrounding emerged weeds.

[Alternate text] Spray existing weeds and the entire surrounding area where weeds or grasses you want to kill normally appear until thoroughly wet (or covered with foam). Spray only the areas you want keep free of weeds (for up to 3 (2, 4) months).

- When spraying around the base of **well-established** (at least 6 months old) ornamental plants, shrubs or trees, shield desirable plants from drift with a sheet of cardboard or plastic. If desirable plant is accidentally sprayed, rinse off immediately with water (or cut off the treated area.)
- *[Optional text]* When making applications around desirable trees or ornamental plants, wait until desirable plants have become well established and deeply rooted.

WHEN TO REPLANT

- All ornamental bedding plants, trees, shrubs and sod may be planted

	<p>90 days (30, 60 days; 1 month, 2 months, 3 months, 4 months) after application.</p> <ul style="list-style-type: none"> Lawn grasses and flowers from seed may be planted 120 days (4 months) after application.
