DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

HOW TO APPLY

- Follow illustrations and instructions above. Point wand at unwanted weeds/grasses and push button to begin spraying. Twist nozzle at end of wand to adjust spray pattern. Pull "T-handle" again as needed to continue spraying. **JUST PULL UP - NO NEED TO PUMP.**
- Spray the weeds or grasses you want to kill until thoroughly wet.
- When spot treating weeds in a flower or vegetable garden, shield desirable plants from drift with a sheet of cardboard or plastic. If desirable plant is accidentally sprayed, rinse off immediately with water.

IMPORTANT: Do not spray plants or grasses you like - they may die too. Not recommended for spot weed control in lawns since Roundup kills lawn grasses.

WHEN TO APPLY

- Apply when weeds are actively growing.
- For best results, apply during warm, sunny weather (above 60°F).
- Spray when air is calm to prevent drift to desirable plants.
- RAIN-PROOF - Rain or watering 2 hours after application will not wash away effectiveness.
- All ornamental flowers, trees & shrubs may be planted 1 day after application.

HOW IT WORKS

Roundup enters plants through foliage and moves systemically to the roots, killing weeds by stopping the production of a substance found only in plants. Any product not absorbed by plants breaks down into natural materials without moving in or on the soil to untreated plants. Weeds yellow and wilt within hours with complete kill in 1 to 2 weeks.

STORAGE AND DISPOSAL: Push "T-handle" gently down to cap. Slide white strip on cap back to closed position. LEAVE WAND PLUG CONNECTED TO "T-HANDLE". Snap wand back into place on side of container. Store product in original container in a secure place. Keep from freezing. **DISPOSAL: DO NOT RE-USE EMPTY CONTAINER.** Securely wrap partially filled or empty container in newspaper and put in trash. Never pour product down any drain.
