[Optional Text] CONTROLS ALL WEEDS AND(&) GRASSES INCLUDING: Barnyardgrass, Bermudagrass, Thistle, Chickweed, Common Ragweed, Dandelion, Fescues, Johnsongrass, Clover, Yellow Nutgrass and(&) other grasses, weeds, sedges and(&) brush.

HOW IT WORKS

[Insert brand name] enters plants through foliage and moves systemically to the roots (and shoots), killing weeds by stopping the production of a substance found in plants. (Any) product not absorbed by plants breaks down into natural materials, without moving in or on the soil to untreated plants (Any product not absorbed by plants will be deactivated after it hits the soil). Weeds (usually) yellow and wilt within hours (2 to 4 days) with complete kill in 1 to 2 weeks. (Perennial weeds such as poison ivy may take 4 or more weeks for complete kill.)

Product Facts Container treats more than ____ weeds
[24 oz treats approximate 200 weeds]
Treats up to ____ sq ft (approx. size of ____ tennis courts)
