### **DIRECTIONS FOR USE**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

KILLS ALL TYPES OF TOUGH WEEDS & GRASSES including: Alder, ash, aspen, blackberry, broom (French, Scotch), buckwheat, ceanothus, chamise, cherry, coyote brush, dewberry, elderberry, elm, eucalyptus, hawthorn, hazel, honeysuckle, kudzu, locust, maple, oak, persimmon, poison oak, poison ivy, poplar, raspberry, sage, sagebrush, salmonberry, sassafras, sumac, sweetgum, thimbleberry, tree tobacco, trumpetcreeper, wild rose (multiflora) and willow.

# MIXING INSTRUCTIONS

Tank Sprayer (plastic, aluminum, fiberglass, plastic-lined steel, or stainless steel)

- Add 6 fl oz (12 Tbs) to 1 gallon of water.
- Spot treat or spray evenly over 300 sq ft.

### **Hose-End Sprayer**

For large areas consider using the Ortho® Dial 'N Spray

- . Set dial to 6 oz.
- To sprayer jar add 6 oz. (12 Tbs) for each 300 sq ft. DO NOT add water.
- Spray evenly over measured area.
- After spraying, unused product can be poured back into its original container.

1 Tablespoon (Tbs) = 3 teaspoons (tsp)

1 floz = 2 Tbs

Do not apply with a galvanized or unlined steel sprayer, or through any irrigation system.

To clean sprayer after use, rinse sprayer and all sprayer parts with water 3 times. Spray rinse water on bare soil or gravel. After cleaning, sprayer may be used for other products.

### **HOW TO APPLY**

- Use coarse spray pattern to reduce drift to desirable plants.
- Spray the weeds or grasses you want to kill until thoroughly wet.
- When spot treating weeds around desirable plants, shield plants from drift with a sheet of cardboard or plastic. If desirable plants are accidentally sprayed, rinse off immediately with water.

IMPORTANT: Do not spray plants or grasses you like as they may die too. Not recommended for spot weed control in lawns since Roundup kills lawn grasses

## **To Kill Vines**

- If vines are growing up poles, fences or tree trunks with mature bark, cut vines to a height of 3 to 4 feet and spray vines thoroughly.
- If vines are climbing shrubs, or tree trunks with green bark, cut vines at base and treat as directed for stumps or spray regrowth. If spraying regrowth, shield shrubs and tree trunks from spray drift with a sheet of cardboard or plastic.

# To Kill Stumps

- · Cut living stump close to ground.
- Drive 4 to 5 holes into freshly cut stump.
- Immediately pour undiluted product into holes.

**IMPORTANT:** Some trees may share the same root system. Adjacent trees having a similar age, height and spacing may signal shared roots system. Injury may occur to non-treated trees when one or more trees sharing common roots are treated.

### WHEN TO APPLY

- · Apply when weeds are actively growing.
- For best results, apply during warm, sunny weather (above 60° F).
- Apply when air is calm to prevent drift to desirable plants.
- RAIN-PROOF: Rain or watering 30 minutes after application will not wash away effectiveness.
- Some well established weeds may require a repeat application.
- Note: Brush sprayed in the fall may not be controlled until the following season. In the spring spray regrowth if it occurs.
- Plants such as ornamental flowers, trees, or shrubs may be planted 30 days after application.

IMPORTANT: Do not use on or around edible food or feed crops. Do not use for lawn renovation or flower bed and vegetable garden preparation (plot preparation); instead use Roundup Concentrate or Roundup Super Concentrate.

# **ADDITIONAL TIPS**

#### Kudzu

For best results, apply in mid- to late-summer when vines are mature and actively growing.

#### Wild Blackberry

Spray anytime plants are actively growing. Dead canes should be cut down and removed. Reapplication is often required to kill deep roots.

NOTIFICATION

DEC 15 2004

Poison by & Poison Oak

Contact with these plants anytime of the year can cause an allergic reaction. Spray anytime plants are actively growing, but at least 4 weeks before the first killing frost in the fall. Reapply if new growth appears. Handle dead plants with rubber gloves. Dispose of plants and rubber gloves in tightly-sealed garbage bags.

## **HOW IT WORKS**

Roundup Poison Ivy & Tough Brush Killer Plus enters plants through foliage and moves systemically to the roots, killing weeds by altering the production of certain substances found in plants. Weeds usually yellow and with within 24 hours, with complete kill in 1 to 2 weeks.

## STORAGE AND DISPOSAL

PESTICIDE STORAGE: Store in original container in a safe place away from direct sunlicht.

**DISPOSAL: If Empty:** Do not reuse this container. Place in trash or offer for recycling if available. **If Partly Filled**; Call your local solid waste agency or 1-800-CLEANUP for disposal instructions. Never place unused product down any indoor or outdoor drain.

# PRECAUTIONARY STATEMENTS

Wash thoroughly with soap and water after handling.

HAZARDS TO HUMANS & DOMESTIC ANIMALS

CAUTION: Causes moderate eye irritation. Avoid contact with eyes or clothing.

People and pets may enter treated areas after spray has dried.

#### FIRST AID

If in eyes

- Hold eye open and rinse slowly and gently for 15-20 minutes.
   Remove contact lenses, if present, after first 5 minutes, then
- continue rinsing.

   Call a poison control center, 1-800-246-7219, or doctor for treatment advice.

### **Emergency Medical Information**

- Have the product container or label with you when calling a poison control center or doctor, or going for treatment.
- You may contact 1-800-246-7219 for emergency medical treatment information.
- This product is identified as Roundup Concentrate Poison by & Tough Brush Killer Plus, EPA Reg. No. 71995-37.

ENVIRONMENTAL HAZARDS: Do not apply directly to water. Do not contaminate water when clearing equipment or disposing of equipment washwaters.

NOTICE: Buyer assumes all responsibility for safety and use not in accordance with directions.

Mr. James Tompkins (7505C)

Product Manager (Team 25)

Subject:

**Submission of Final Printed Label** 

Roundup Concentrate Poison Ivy & Tough Brush Killer Plus,

(EPA Reg. No. 71995-37)

Dear Mr. Tompkins,

Monsanto herein submits a revised final printed label for Roundup® Concentrate Poison Ivy & Tough Brush Killer Plus, (PPN 95002C2-1; 95002C2-2; 21218A1-3). This label is based on the EPA Stamped Master Label dated September 16, 2004. The final printed label is consistent with the stamped label and changes include:

- · Some formatting differences ie: moved weeds section under Directions For Use
- In the To Kill Vines section, text changes include: If spraying regrowth, shield shrubs and green bark tree trunks from spray drift with a sheet (piece) of cardboard or plastic." "Tree trunks with green bark" is approved text, second sentence. Tree trunks is also more restrictive, encompassing more than just green bark.
- In the Environmental Hazards section the second sentence was modified: "Do not contaminate water when <u>cleaning equipment or</u> disposing of equipment washwaters." More protective language has been added per recent EPA guidance.

This submission is classified as part of the Agency's Fast-Track Program therefore no fee is due.

The following documents are included with this notification:

- Application for Pesticide (form 8570-1)
- Three copies of Final Printed Label

Should you require any additional information or have any questions, please contact Dr. Russell Schneider at our Washington office (202)383-2866 or me directly at (314) 694-8785 or by email at rhonda.m.mannion@monsanto.com.

Sincerely, Alimeia M. Manner
