Application Date: April 16, 2014
Decision Number: 490254

Dear Ms. Maune:

The amended label referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, is acceptable. This approval does not affect any conditions that were previously imposed on this registration. You continue to be subject to existing conditions on your registration and any deadlines connected with them.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. You must submit one copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.130(c), you may distribute or sell this product under the previously approved labeling for 18 months from the date of this letter. After 18 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. "To distribute or sell" is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance.

[This product is intended for use in areas where control of vegetation is desired for up to 1 year. It is not for use on lawns, on or around fruits, vegetables, flowers, trees, shrubs or other plants, or over the root zones of desirable vegetation.]

HOW IT WORKS

IMPORTANT: To prevent new weeds and grasses from growing, YOU MUST SPRAY THE ENTIRE AREA you want to [control/ keep free of weeds], NOT JUST the [emerged/ existing] weeds.

[Insert Brand Name] [Dual Action/ Formula] Works [2/ two] ways:

1. [Glyphosate [is absorbed by the weed's leaves/ enters plants through the foliage]. It moves through the weed to the root, stopping the function of an essential enzyme found in plants [, but not in humans or animals].] [Both glyphosate and diquat, cause weeds to begin to yellow and wilt within [12] hours with complete kill in 1 to 2 weeks.] [Weeds die, roots and all – so they don't grow back.]
2. [Imazapic [prevents new weeds from growing for up to 1 year by creating an invisible barrier in the soil.]
Alternate Text: [Imazapic [creates/ provides] an invisible barrier in the soil that prevents growth of [new] [weeds/ seeds/ and grasses] [from/ sprouting/ germinating/ appearing/ growing] for up to 1 year.]

[Insert Graphics- Examples: 1. Person applying product to patio; 2. Cutaway weed seed/tap root underground; 3. Cutaway of weed germination/ growth inhibition]

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Always read and follow label directions.

WHERE TO USE *Select from the use locations below*

[Apply [Insert brand name/ this product] to BOTH existing weeds **and** [weed-prone] areas where weeds have not yet appeared.] [Treated areas stay weed free for up to 1 year.]

Alternate Text: [Apply only where you want to kill existing weeds AND prevent future weed growth for up to 1 year, such as:]

- [On cracks and crevices in [driveways/ sidewalks/ and/ walkways]
- [Patios and paths]
- [[Along fences/ fence lines] foundations/ and/ curbs]
- [Gravel areas /gravel pathways/ [RV and boat] parking areas/ Decorative rock]
- [Along retaining walls and landscape borders]
- [On walkways/ driveways/ gravel pathways/ [RV and boat] parking areas/ under decks/ and/ [brick/ paver] patios/ paths]

NOTE: In heavy clay soils, plant growth may be prevented for more than one year. In areas of heavy rainfall, applications every 6-8 months may be necessary. To avoid damage to desirable plants, DO NOT apply over their root systems. For shrubs and trees, DO NOT apply closer than twice the distance from the trunk to the drip line as roots may be within this area.

WHERE NOT TO USE

- DO NOT SPRAY plants or grasses you like – they will die.
- DO NOT USE in areas that will be planted or seeded within 1 year.
- DO NOT SPRAY landscaped areas around young plants or in areas next to any desirable plants or grasses.
- DO NOT USE over the root zone of desirable trees or shrubs.
- DO NOT USE on steep slopes as movement on soil surface may damage desirable plants down the slope.
- DO NOT SPRAY next to a fence if desirable plants and grasses are growing on the other side.
- DO NOT USE in lawns or for lawn renovation as this product prevents desirable grasses from growing too.
- DO NOT USE for vegetable garden preparation or in and around fruits and vegetables.

NOTE: For weed control in these areas use [Insert Brand Name for EPA# 71995-33] [or] [Insert Brand Name for EPA# 71995-25].
