SAFETY AND POLLUTION
PREVENTION

Wendy A. McCombie, Agent for Shikoku
c/o Lewis & Harrison
122 C Street N.W. Suite 740
Washington, D.C. 20001

Subject: Product Name: Neo-Chlor Spa Angel Tab
EPA Registration Number: 72139-2
Amendment Application Date: February 8, 2011

Dear Ms. McCombie:

The Agency has reviewed your submission in accordance with continuing registration under the Federal Insecticide Fungicide and Rodenticide Act (FIFRA), as amended, and determined the action acceptable with the following conditions:

- Replace the word "restroom" with the word "toilet"; and,
- Insert the word "or" in front of "dispose in an approved landfill area".

In summary, your request to update the dosage charts for the two different charts is accepted.

A stamped copy of the accepted labeling is enclosed. Submit one copy of your final printed labeling before distributing or selling the product bearing the revised labeling. If you have any questions, please contact Tom Luminello by telephone; (703) 308-8075, or by e-mail at luminello.tom@epa.gov.

Sincerely,

for 

Wanda Henson, Acting PM-32
Regulatory Management Branch II
Antimicrobials Division (7510-P)

PRECAUTIONARY STATEMENTS
HAZARD TO HUMANS AND DOMESTIC ANIMALS.

DANGER. Corrosive. Causes irreversible eye damage. Wear protective eyewear such as safety glasses, face shield or goggles. Harmful if swallowed, inhaled or absorbed through the skin. Do not get in eyes, on skin or on clothing. Avoid contact with skin. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the ~~restroom~~ ^{toilet}. Remove and wash contaminated clothing before reuse.

ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water board or Regional Office of EPA.

PHYSICAL AND CHEMICAL HAZARDS

STRONG OXIDIZING AGENT. Mix only with water. Use only clean, dry utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic matter, or other chemicals may start a chemical reaction with generation of heat, liberation of hazardous gases, and possible generation of fire and explosion. In case of contamination or decomposition, do not reseal container. If possible isolate each container in open air or well-ventilated area. Flood with large volumes of water if necessary.

FIRST AID

If in eyes	•Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. •Call a Poison Control Center or doctor for treatment advice.
If on skin or clothing	•Take off contaminated clothing. •Rinse skin immediately with plenty of water for 15-20 minutes. •Call a Poison Control Center or doctor for treatment advice.
If inhaled	• Move person to fresh air. • If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. •Call a Poison Control Center or doctor for treatment advice.
If swallowed	•Call Poison Control Center or doctor immediately for treatment advice. •Have person sip a glass of water if able to swallow. •Do not induce vomiting unless told to do so by the Poison Control Center or doctor. •Do not give anything by mouth to an unconscious person.
NOTE TO PHYSICIAN	
Probable mucosal damage may contraindicate the use of gastric lavage.	
Have the product container or label with you when calling a Poison Control Center or doctor, or going for treatment.	

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

Storage: Keep product dry in tightly closed container when not in use. Store in a cool, dry, well-ventilated area away from heat or open flame. In case of decomposition, isolate container, if possible, and flood with large amounts of water to dissolve material before discarding.

Pesticide Disposal: Place in trash collection or dispose in an approved landfill area.

Container Disposal: Nonrefillable container. Do not reuse or refill this container. Offer for recycling if available. Rinse empty container thoroughly with water to dissolve all material before discarding. Place in trash collection, dispose in an approved landfill area.

Spa Angel Tab

[0.4 OUNCE (12-GRAM) TABLETS]

[0.2 OUNCE (6-GRAM) TABLETS]

- **Tablet contains Japanese Hot Spa ingredients**
- **Controls growth of bacteria and algae in spas and hot tubs**
- **Quickly dissolves in water**
- **Easy to use tablets just fit your spa size**
- **Enrich your spa life**
- **Effervescent tablets quickly dissolve in water**
- **Easy to use tablets - Add directly to spa**

ACTIVE INGREDIENT:

Sodium Dichloroisocyanurate* 30.69%

OTHER INGREDIENTS: 69.31%

TOTAL: 100.00%

*Available chlorine 19.2%

DANGER

KEEP OUT OF REACH OF CHILDREN

(SEE SIDE BACK PANEL FOR ADDITIONAL PRECAUTIONARY STATEMENTS)

ACCEPTED
with COMMENTS
in EPA Label dated:
MAR 24 2011

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

For routine maintenance of spas and hot tubs to control bacteria and algae:

1. Before using spa or hot tub, test water, pH, free chlorine and alkalinity using a reliable test kit. Adjust pH to between 7.2 - 7.6.
2. With the pump on, and using the table below as a guide, add sufficient tablets to establish a level of 3 - 5 ppm free chlorine as determined by the test kit. Do not enter the water until the free chlorine level drops to 5 ppm or less. Re-entry into treated spas is prohibited above levels of 5ppm due to risk of bodily harm.

Before using the spa, bathers should shower in order to avoid adding soap, lotions, or oils from the body into the water. Avoid overloading the spa.

Depending on how heavily the spa is used, it may be necessary to super chlorinate the water as frequently as after each use or as infrequently as once per week, in a moderately used spa.

1. Using the table as a guide, superchlorinate water to 6.0 - 8.0 ppm free chlorine by adding additional tablets to the spa or hot tub.
2. Do not allow bathers to enter the spa [or hot tub] until the free chlorine falls to 3.0 to 5.0 ppm. Re-entry into treated spas is prohibited above levels of 5ppm due to risk of bodily harm.
3. If spa or hot tub water does not clear after superchlorination treatment, drain, clean and refill with fresh water.

DOSAGE [for 0.4-ounce (12-gram) tabs]

Free Chlorine (PPM)	Gallons of Water in Spa					
	300	340	355	400	500	550
Number of Tablets						
3-4	2	2	2	3	3	3
4-5	3	3	3	3	4	4
5-6	3	3	4	4	5	5
6-7	4	4	4	5	6	6
7-8	4	5	5	5	7	7
8-9	5	5	5	6	7	8
9-10	5	6	6	7	8	9

DOSAGE [for 0.2-ounce (6-gram) tabs]

Free Chlorine (PPM)	Gallons of Water in Spa					
	300	340	355	400	500	550
Number of Tablets						
3-4	4	4	4	6	6	6
4-5	6	6	6	6	8	8
5-6	6	6	8	8	10	10
6-7	8	8	8	10	12	12
7-8	8	10	10	10	14	14
8-9	10	10	10	12	14	16
9-10	10	12	12	14	16	18

SPA CAPACITY CALCULATOR:

To Calculate Gallonage For Round Or Oval Spa: Diameter of spa x diameter of spa x depth (all in feet) x 5.9 = gallons.

To Calculate Gallonage For Rectangular spa: depth x length x width (all in feet) x 7.5 = gallons.
