Subject: Label Notification(s) for Pesticide Registration Notices 2008-1, 2007-4, and 98-10 1. Minor label changes

Dear Mr. Mattern:

The Agency is in receipt of your Application(s) for Pesticide Notification under Pesticide Registration Notice (PRN) 2008-1, 2007-4, and 98-10 dated February 16, 2009 for:

EPA Registration 72155-2

EPA Registration 72155-22

EPA Registration 72155-4

EPA Registration 72155-19

Lawn Herbicide JD Concentrate

Lawn Herbicide JD Concentrate

Triclopyr 8.8% Concentrate Herbicide

The Registration Division (RD) has conducted a review of this request for applicability under PR Notice 2008-1, 2007-4, and 98-10 and finds that the label changes requested falls within the scope of PR Notice 2007-4 and 2008-1. The label has been date-stamped "Notification" and will be placed in our records.

Please be reminded that 40 CFR Part 156.140(a)(4) requires that a batch code, lot number, or other code identifying the batch of the pesticide distributed and sold be placed on nonrefillable containers. The code may appear either on the label (and can be added by non-notification/PR Notice 98-10) or durably marked on the container itself.

If you have any questions, please contact me directly at 703-305-6249 or Nicole Williams of my staff at 703-308-5551.

Sincerely,

Linda Arrington Notifications & Minor Formulations Team Leader Registration Division (7505P) Office of Pesticide Programs
