1200 Pennsylvania Ave., NW
Washington, D.C. 20460

EPA Registration
Number:

72155-2

Date of Issuance:

APR 29 2011

NOTICE OF PESTICIDE:

- Registration
- Reregistration

(under FIFRA, as amended)

Term of Issuance: Unconditional

Name of Pesticide Product:
Lawn Herbicide JD Ready-To-Use

Name and Address of Registrant (include ZIP Code):

Bayer Advanced
P.O. Box 12014, 2 T.W. Alexander Drive
Research Triangle Park, North Carolina 27709

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product, always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act. Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

EPA received a label amendment request submitted on April 6, 2011. EPA grants this request under the authority of section 3(c)(5) of the Federal Insecticide, Fungicide and Rodenticide Act, as amended. With this accepted labeling, all requirements set forth in the Reregistration Eligibility Decision (RED) for **2,4-D, MCPP-p, and Dicamba** have been satisfied. Therefore, EPA reregisters the product listed above. This action is taken under the authority of section 4(g)(2)(c) of the Federal Insecticide, Fungicide, and Rodenticide Act, as amended. Reregistration under this section does not eliminate the need for continual reassessment of pesticides. EPA may require submission of data at any time to maintain the registration of your product.

Submit one (1) copy of final printed labeling. Amended labeling will supersede all previously accepted labels. A copy of your label stamped "Accepted" is enclosed for your records. Products shipped after twelve (12) months from the date of this Notice or the next printing of your label, whichever occurs first, must bear the new revised label.

If you have any questions regarding this Notice, please contact Beth Benbow at (703) 347-8072 or at benbow.bethany@epa.gov

	100.000 %

EPA Reg. No. 72155-2

EPA Est. No. XXXX-AA-XX

IMPORTANT! READ BEFORE USE

[For 1 gallon] 		
ATTACH SPRAYER <ul style="list-style-type: none"> • Remove sprayer from bottle and extend hose. • Open flip-cap on bottle. • Insert hose and plug into flip-cap opening until it snaps into place. 	SPRAY <ul style="list-style-type: none"> • Adjust nozzle to stream or spray position. • Point sprayer downward and squeeze trigger repeatedly until liquid is released. 	AFTER USE <ul style="list-style-type: none"> • Turn sprayer nozzle to X (off) position. • Do not unplug hose. • Return sprayer to bottle. Sprayer will snap into place.

DIRECTIONS FOR USE

**It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.
For best results, read and follow all label directions.**

<p>BEFORE YOU USE Read and follow directions when using.</p>	<ul style="list-style-type: none"> • Do not apply directly to or near water, storm drains, gutters, sewers, or drainage ditches. Do not apply within 25 feet of rivers, fish ponds, lakes, streams, reservoirs, marshes, estuaries, bays and oceans. Do not apply when windy. To prevent product run-off, do not over water the treated areas to the point of runoff or apply when raining or when rain is expected that day. • Avoid drift of spray mist onto vegetables, flowers, ornamental plants, shrubs, trees and other desirable plants. • Apply when wind is calm. • Do not apply this product in a way that will contact any person or pet, either directly or through drift. Keep people and pets out of the area during application.
<p>HOW TO APPLY SHAKE WELL BEFORE USE</p>	<ul style="list-style-type: none"> • Adjust spray nozzle to give a coarse spray. • Hold sprayer about 12 inches from weed. • Aim at center of weed. NOTE: Over-applying could damage Bentgrass, Centipede and St. Augustine (including Floratam) grasses. Do not squirt the same weed more than twice (two pulls on the trigger sprayer) in a four-week period. This is enough to control weeds without harming sensitive lawn grasses. • [Non-Staining marker indicates where product was applied.] 
<p>FOR BEST RESULTS</p>	<ul style="list-style-type: none"> • Apply when weeds are actively growing. • Rainfall or watering one hour after application will not wash away effectiveness.
<p>HOW THIS PRODUCT WORKS</p>	<p>This product is a <i>selective</i> [lawn] herbicide – it <i>selectively</i> kills weeds in the lawn but won't harm the lawn itself. It is a blend of proven weed killers designed to get broadleaf weeds such as dollarweed, spurge and oxalis. [This product works on broadleaf weeds by speeding up their growth, the new tissues block the food transport system (phloem), certain parts of the plants starve e.g., the roots, and the plants die.]</p>

KILLS [CONTROLS]	Annual yellow sweetclover	Cockle	Mugwort	Spiny amaranth
