### *Merit + Tempo Ready-To-Spray Insecticide EPA Reg. No. 72155-7 October 18, 2002*

### Section II - Explanation

With this application, Bayer Corporation is submitting a Notification to modify the list of target pests for **Merit + Tempo Ready-To-Spray Insecticide, EPA Reg. No. 72155-7**. The enclosed minor text change is being provided to the Agency in accordance with PR Notice 98-10, II, B "<u>Adding or Deleting Pests</u>". One copy of the revised label, highlighted with changes, is enclosed for the Agency files.

The target pests "Clover Mites and Cutworms" have been added to the "On Flowers, Roses, Shrubs and Trees, Evergreens, Ground Covers, and Foliage" kills box within the "Directions For Use" section of the enclosed label. Additionally, the targeted pest "Weevils" has been modified on the enclosed label to state "Weevils (including Root Weevils)".

This notification is consistent with the provision of PR Notice 98-10 and EPA regulations at 40 CFR 152.46. No other changes have been made to the labeling or the Confidential Statement of Formula of this product. I understand that it is a violation of 18 U.S.C. sec. 1001 to willfully make any false statement to the EPA. I further understand that if this notification is not consistent with the terms of PR Notice 98-10 and 40 CFR 152.46, this product may be in violation of FIFRA and Bayer Corporation may be subject to enforcement action and penalties under sections 12 and 14 of FIFRA.

FOR BEST RESULTS	<ul> <li>Rain or watering one hour after application will not wash away effectiveness.</li> <li>After spraying the lawn, wait 24 hours before mowing.</li> <li>To avoid serious damage to plants, eliminate pests early in the season before they multiply. For severe infestations, repeat every 7 to 14 days as needed.</li> </ul>		
HOW MERIT + TEMPO READY- TO-SPRAY INSECTICIDE WORKS	<ul> <li>MERIT + TEMPO READY-TO-SPRAY INSECTICIDE is a totally different way to control the insects that want to destroy your prized roses, flowers, other ornamental plants, and lawn. The unique two-way blend of insecticides controls current insect pest problems and prevents reinfestations for up to 30 days. The residual component is actually taken into the plant. Rain or water cannot wash off this internal protection! Insects are killed when they come into contact with the product or when they attempt to eat the plant.</li> </ul>
