SUBJECT: Application for Pesticide Notification – Re-Add 2005 Changes to 2006 Label/
PRN 2007-1
Tempo 0.75% Ready-to-Use Insecticide
EPA Reg. No. 72155-24
Application Dated June 25, 2007

Dear Ms. Kneen:

The Agency is in receipt of your Application for Pesticide Notification under Pesticide Registration Notice (PRN) 98-10 for the above product. The Registration Division (RD) has conducted a preliminary screen of this request for its applicability under PRN 98-10 and finds that the actions requested fall within the scope of PRN 98-10. The label submitted with the application has been stamped "Notification" and will be placed in our records.

If you have any questions, please call me directly at 703-305-6249 or Terri Stowe of my staff at 703-305-6117.

Sincerely,

A handwritten signature in black ink, appearing to read "Linda Arrington".

Tempo 0.75% Ready-to-Spray Insecticide
EPA Reg. No. 72155-74
June 26, 2007

NOTIFICATION

JUL 20 2007

Section II - Explanation

With this application Bayer Advanced is submitting a **Notification for Tempo 0.75% Ready-to-Spray Insecticide, EPA Reg. No. 72155-24**

On December 15th, 2005 Bayer Advanced submitted a Notification to add certain marketing claims to this label, to add modified use directions and to revise the storage and disposal section of the label in accordance with PR Notice 2001-6. These changes were all accepted by EPA.

On February 10th, 2006 Bayer Advanced submitted another Notification to amend a marketing claim on the same label. This label was stamped approved by EPA.

Unfortunately the changes that were made as part of the 2005 Notification were accidentally omitted from the 2006 Notification (and hence also not on the current stamped approved label).

Therefore we would like to re-Notify the 2005 changes to the 2006 stamped version of the label to ensure that the files are up-to-date. There are no changes on this label that have not already been accepted by EPA.

One copy of the label with the changes from both the 2005 and the 2006 Notifications highlighted, is attached for your file.

This notification is consistent with the provision of PR Notice 98-10 and EPA regulations at 40 CFR 152.46, and no other changes have been made to the labeling or the confidential statement of formula of this product. I understand that it is a violation of 18 U.S.C. Sec. 1001 to willfully make any false statement to EPA. I further understand that if this notification is not consistent with the terms of PR Notice 98-10 and 40 CFR 152.46, this product may be in violation of FIFRA and I may be subject to enforcement action and penalties under sections 12 and 14 of FIFRA.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

BEFORE YOU USE

Read and follow these directions when using:

- Apply the product to flowering plants during early morning or late evening, when bees are not present.
- Do not spray the product into fish pools, ponds, streams, or lakes.
- Do not apply to plants grown for food.
- Remove animal feeding dishes prior to application. Keep children and pets away from treated areas until spray has dried.

HOW TO USE

Shake well before using:

This product is ready to spray. Just attach this bottle to your hose according to directions. Water automatically mixes with the concentrate as you spray.

HOW TO ATTACH & SPRAY

1. Connect your garden hose to the bottle. Be sure the blue water control valve on top of the spray nozzle is in the OFF position. (ART)
 2. Turn on water at faucet. Twist the small, star-shaped, blue product-control button to align the flat portion with the lock tab. Push the button in to open. (ART)
 3. To begin spraying, point nozzle toward the area to be treated and turn the blue water control valve to the ON position. Tab will be horizontal. This (1 Qt.) bottle will cover 5,333 sq. ft. of lawn. (ART)
 4. To stop spraying, turn the blue water control valve on top of the spray nozzle to OFF. To close, push in the small round button opposite the star-shaped product-control button. Turn off faucet. (ART)
 5. Relieve water pressure by turning blue water control valve to the ON position until water slows to a drip. Turn blue water control valve back to OFF. Disconnect garden hose from bottle.
- (Optional Alternative)**
1. Connect garden hose to bottle. Be sure the product control valve is in the off position.
 2. Turn on water at faucet. Rotate the product control valve to MIST to spray shrubs and flowers or to SPRAY to spray lawns or around the foundation of your home.
 3. To begin spraying, point nozzle toward the area to be treated and turn the water control to the ON position. This bottle (30 fl oz) will cover 5,000 sq ft of lawn and garden area.
 4. To stop spraying, turn the water control valve to the OFF position. To close, turn the product control valve to the off position. Turn off faucet.
 5. Relieve water pressure by turning blue water control valve to the ON position until water slows to a drip. Turn blue water control valve back to OFF. Disconnect garden hose from bottle.

TIPS FOR APPLYING

- Extend hose to the farthest area to be treated and work back toward the faucet to avoid walking into wet, treated area. (ART)
- Walk at a steady pace while spraying, using an even sweeping motion, slightly overlapping the treated areas.
- **Mosquitoes and Other Outdoor Nuisance Pests**
 - Spray thoroughly beneath shrubs, around house foundation and in nearby tall grass or weeds. Cover evenly.
 - To control mosquitoes, pay special attention to shady areas where they rest and, when possible, drain standing water where they live. Do not spray this product into fish pools, ponds, streams, or lakes.
- **Lawn Pests**
 - To control ticks, spray tall grasses & weeds and, when possible, keep those areas mowed.
 - After spraying the lawn, wait 24 hours before mowing.
- **Flowers, Trees, Shrubs, Ground Covers**
 - Spray foliage, tender new shoots and the underside of leaves thoroughly.
 - To kill insects that hide, spray the underside of the leaves. Apply until leaves are evenly coated with spray droplets, but not dripping.

FOR BEST RESULTS

- Rain or watering one hour after application will not wash away effectiveness.
- To avoid serious damage to plants, eliminate pests early in the season before they multiply.
- For severe infestations, repeat every 7 to 14 days as necessary.

KILLS			
Ants Aphids Armyworms Aster leafhoppers Bagworms Banded sunflower moths Bluegrass billbug (adults) Boxelder bugs Budmoths Caterpillars Chiggers Chinch bugs Clover mites Cockroaches Corn borers	Corn earworms Corn rootworms (adults) Crickets Cutworms Earwigs Elm leaf beetles Fire ants Flea beetles Fleas Flies Grasshoppers Gypsy Moth Larvae Hyperodes weevil (adults) Japanese beetles (adults) Lace bugs	Leaf Beetles Leaf-feeding beetles Leaf-feeding caterpillars Leafhoppers (including Glassy-winged Sharpshooter) Leafminers Mealybugs Midges Mole Crickets Mosquitoes Pepper weevils (adults) Pillbugs Plant bugs Potato leafhoppers Scale (crawler stages) Scorpions	Seed weevils (adults) Sod Webworms Sowbugs Spiders Spittlebugs Stem weevil (adults) Stink bugs Sunflower beetles Sunflower moths Thrips Ticks (including deer ticks) Wasps Weevils (including Root Weevils) Western Flower Thrips Whiteflies

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals

Caution

- Harmful if swallowed or inhaled.
- Causes eye irritation.
- Avoid contact with skin, eyes, or clothing.
- Wash thoroughly with soap and water after handling.

First Aid +

IN CASE OF ACCIDENTAL...	IMMEDIATELY...
Swallowing	<ul style="list-style-type: none"> • Call a poison control center or doctor immediately for treatment advice. • Have person sip a glass of water if able to swallow. • Do not induce vomiting unless told to do so by the poison control center or doctor. • Do not give anything by mouth to an unconscious person.
Contact with eyes	<ul style="list-style-type: none"> • Hold eye open and rinse slowly and gently with water for 15-20 minutes. • Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. • Call a poison control center or doctor for treatment advice.
Inhalation	<ul style="list-style-type: none"> • Move person to fresh air. • If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. • Call a poison control center or doctor for further treatment advice.

NOTE: When calling poison control center, have this product label accessible. If seeking treatment at an emergency room or doctor's office, bring this product label to show medical personnel. You may call toll-free 1-877-229-3763 for medical emergency information.
 Active Ingredient: 0.75% Cyfluthrin [CAS # 68359-37-5]

9/14

Environmental Hazards

- This pesticide is toxic to fish and other aquatic organisms. Do not apply directly to water.
- This pesticide is highly toxic to bees. Do not apply TEMPO 0.75% Ready-To-Spray Insecticide when bees are active.

IMPORTANT: Directions for Storage and Disposal

Storage Conditions:

Store in original container in a cool, dry place, out of the reach of children, preferably a locked storage cabinet. Protect from freezing.

Disposal:

- **If empty:** Do not reuse container. Place empty container in trash or offer for recycling if available. Protect from freezing.
- **If partly filled:** Call your local solid waste agency or toll free 1-877-229-3724 [1-800 CLEAN UP] for disposal instructions. Never place unused product down any indoor or outdoor drain.

NOTICE

Research and testing have determined that the "Directions for Use" are appropriate for the proper use of TEMPO 0.75% Ready-To-Spray Insecticide under expected conditions. The Buyer assumes responsibility for lack of performance or safety if not used according to the directions.

Money Back Guarantee: If you are not satisfied with this product, we will gladly refund your original purchase price.
