|  | U.S. ENVIRONMENTAL PROTECTION AGENCY Office of Pesticide Programs Registration Division (H7505C) 1200 Pennsylvania Ave. N.W. Washington, D.C. 20004 | EPA Reg. Number 72155-27 | Date of Issuance SEP 30 2003 |
| | NOTICE OF PESTICIDE: <input checked="" type="checkbox"/> Registration <input type="checkbox"/> Reregistration (under FIFRA, as amended) | Term of Issuance: Conditional Name of Pesticide Product: Beta-cyfluthrin 0.05% Ant & Roach Killer Pump Spray | |
| Name and Address of Registrant (include ZIP Code): Bayer Advanced LLC 95 Chestnut Ridge Road Montvale, NJ 07645 | | | |
| Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number. | | | |
| On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act. Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others. | | | |
| This product is <u>conditionally</u> registered in accordance with FIFRA sec. 3(c)(7)(A), provided that you: | | | |
| <ol style="list-style-type: none"> 1. Submit and/or cite all data required for registration/reregistration of your product under FIFRA sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data; and submit acceptable responses required for reregistration of your product under FIFRA section 4. 2. Make the following label changes: <ol style="list-style-type: none"> a. Revise the EPA Registration Number to read "EPA Reg. No.72155-27". b. Under "Wood Infesting Pests" on page 4, move "Carpenter Ants" and "Carpenter Bees" out of the listing of "BEETLES", since these pests are not beetles. c. PR Notice 2001-6 provided new guidance regarding disposal instructions on pesticides labeled for residential use. Although not required to do so at this time, you are strongly encouraged to revise the disposal instructions as recommended in PR Notice 2001-6 for residential use products in non-pressurized containers: | | | |
| Signature of Approving Official:  | | Date: SEP 30 2003 | |

EPA Reg. No. 72155-27

“If empty: Do not reuse this container. Place in trash or offer for recycling if available.
If partly filled: Call your local solid waste agency or [insert a toll free number which meets the criteria in paragraph II.E. of PR Notice 2001-6] for disposal instructions.
Never place unused product down any indoor or outdoor drain.”

- 3. Submit/cite data to satisfy EPA Guidelines 830.6317 (1-year storage stability) and 830.6320 (Corrosion Characteristics).
- 4. Submit two (2) copies of your final printed label before you release the product for shipment. Refer to the A-79 enclosure for a further description of final printed labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product bearing amended labeling constitutes acceptance of these conditions. A stamped copy of the label is enclosed for your records.

If you have any questions regarding this action, please contact Susan Stanton of my team at (703) 305-5218.

Sincerely,

George T. LaRocca

EPA Est. No. XXXX-AA-1

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

For best results, read and follow all label directions.

| | |
|---|---|
| BEFORE YOU USE Read and follow directions when using. | <ul style="list-style-type: none"> • Do not spray into fish pools, ponds, streams, or lakes. • Indoors, do not use as a space spray (do not spray into the air) • Remove animal feeding dishes before spraying. • Keep children and pets away from treated areas until spray has dried. • Do not use on surfaces where food is prepared or where food is exposed. • Before spraying indoors, remove birds from area and tightly cover or remove fish bowls and aquariums. |
|---|---|

| | |
|--|---|
| HOW TO USE Shake Well Before Use | Indoor Use |
| | <ul style="list-style-type: none"> • Hold container upright while spraying. Direct nozzle about 12 inches from surface to be treated. • Spray around baseboards, into cracks and crevices and other places where insects live and hide (under sinks, cabinets, refrigerators, damp areas, etc.) until surfaces are wet. Avoid excessive wetting of linoleum, asphalt tiles or plastic. • For long lasting residual action leave spray undisturbed. The product will keep on killing for up to 9 months. |
| | Outdoor Use |
| | <ul style="list-style-type: none"> • Apply to exterior surfaces of the home. • Spray a band 3 to 4 feet wide around and alongside the foundation and porches of the house. • Treat soil, turf or walkways adjacent to foundation and porches. Also treat 1 to 2 feet up along the side of the dwelling. • For more serious problems, a wider band of treatment, up to 10 feet, may be necessary. • Spray with the wind to avoid drifting of the spray onto skin or clothing. • Treat where dissimilar building materials meet, such as where brick meets wood trim or where siding meets window edges or where cracks are visible or around and into any openings where utilities enter the home. Spray around doors and window frames. |

DIRECTIONS FOR USE (continued)

| | |
|--|--|
| HOW TO USE Shake Well Before Use | Outdoor Use (continued) |
| | <ul style="list-style-type: none"> • Treat outside surfaces of garages, carports, patios, driveways and sidewalks if insects are present. • Treat other problem areas such as around wood piles, storage sheds and other areas of insect infestation as needed. Spray on ant trails and ant hills. • For wasps, hornets, yellow jackets: Application to nests should be made late in evening when insects are at rest. • To aid in control of fire ants in lawns and other outdoor home recreation areas, thoroughly drench the entire mound area. Spray provides contact activity and residual in the active mound. Use a coarse spray and apply gently to avoid disturbing ants. Note: For best results apply in cool weather 65 to 80° F, or in early morning or late evening hours. Treat new mounds as they appear. |
| | Wood Infesting Pests |
| | <ul style="list-style-type: none"> • For control of termites and wood-infesting beetles found above ground, apply to voids and holes in damaged wood, and in spaces between wooden structures and between the sill plate and foundation where wood is exposed. • Apply spray to exposed worker and winged reproductive forms of termites. This type of application is intended to be a supplemental treatment for control of drywood and above-ground subterranean termites and other wood-infesting insects. It is not intended as a substitute for soil treatments for termite control. • For control of swarming or reproductive stages of termites, apply a coarse spray to the swarm or area on which they collect. • For control of carpenter ants around houses and other structures, apply around doors and windows and other places where carpenter ants may enter the premises. Spray into cracks and crevices or voids where these ants or their nests are present. Use a sufficient amount of coarse spray to cover the area. • For control of carpenter bees in structures, spray the liquid directly into bee entrance holes. Leave the entrance holes open for 24 hours to be certain that returning adult bees are killed. When there is no activity, the hole may be sealed with a suitable sealant. |

| + FIRST AID | |
| IN CASE OF ACCIDENTAL | IMMEDIATELY... |
| Swallowing | <ul style="list-style-type: none"> • Call a poison control center or doctor immediately for treatment advice. • Have person sip a glass of water if able to swallow. • Do not induce vomiting unless told to do so by a poison control center or doctor. • Do not give anything to an unconscious person. |
| Contact with eyes | <ul style="list-style-type: none"> • Hold eye open and rinse slowly and gently with water for 15 to 20 minutes. • Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. • Call a poison control center or doctor for treatment advice. |
| Inhalation | <ul style="list-style-type: none"> • If breathing is affected, move person to fresh air. • If not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. • Contact doctor or poison control center for further treatment advice. |
| <p>NOTE: When calling poison control center, have this product label accessible. If seeking treatment at an emergency room or doctor's office, bring this product label to show medical personnel. You may call TollFree 1-877-229-3763 for medical emergency information. Active Ingredient: Beta-cyfluthrin 0.05% [CAS # 68359-37-5].</p> | |

| |
|---|
| Environmental Hazards |
| <ul style="list-style-type: none"> • This pesticide is highly toxic to aquatic invertebrates and fish. Do not apply directly to water. • Do not contaminate water when disposing of equipment washwaters or rinsate. • This product is not intended for application to plants or lawns. • Apply this product only as specified on this label. |

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals

CAUTION:

- Harmful if swallowed or inhaled.
- Causes eye irritation.
- Avoid contact with skin, eyes, or clothing.
- Wash thoroughly with soap and water after handling.
- Avoid breathing vapors or spray mist.
- Remove contaminated clothing and wash clothing before reuse.

IMPORTANT: Directions for Storage and Disposal

| | |
|---------------------|--|
| Storage Conditions: | Store in an area out of reach of children, preferably a locked storage cabinet. Protect from freezing. |
|---------------------|--|

| | |
|-----------|---|
| Disposal: |  <ul style="list-style-type: none"> • Do not reuse empty container. • Wrap empty container in newspaper or place in paper or plastic bag (such as a grocery bag). • Dispose in trash. |
|-----------|---|

Important: It is best to use all of the product in accordance with label directions. If it is necessary to dispose of unused product, please follow all state and local guidelines. Never pour any insecticide down the drain or storm sewer.

NOTICE

Research and testing have determined that the "Directions for Use" are appropriate for the proper use of Beta-cyfluthrin 0.05% Ant & Roach Killer Pump Spray under expected conditions. The Buyer assumes responsibility for lack of performance or safety if not used according to the directions.

Money Back Guarantee: If you are not satisfied with this product, we will gladly refund your original purchase price.
