Tempo® Concentrate Insecticide EPA Reg. No. 72155-39 December 8, 2005

Section II - Explanation

Bayer Advanced is submitting a **Notification** to add text that was inadvertently removed when the file format was changed. All of the text was on the stamped label dated 10/24/02. The text is highlighted in the label has been replaced on the label. The label also contains a current Alternate brand name.

Please find enclosed 1 copy of the proposed label.

This notification is consistent with the provision of PR Notice 98-10 and EPA regulations at 40 CFR 152.46, and no other changes have been made to the labeling or the confidential statement of formula of this product. I understand that it is a violation of 18 U.S.C. Sec. 1001 to willfully make any false statement to EPA. I further understand that if this notification is not consistent with the terms of PR Notice 98-10 and 40 CFR 152.46, this product may be in violation of FIFRA and I may be subject to enforcement action and penalties under sections 12 and 14 of FIFRA.

Bayer Advanced Power Force Multi-Insect Killer Ready-To-Spray

For Use On: Lawns, Ground Covers, Flowers, Shrubs, Trees, Around Homes

Measure-Up™ Cup

Exact Measure Every Time

CONCENTRATE

KILLS INSECTS

RAINPROOF WITHIN 1 HOUR OF APPLICATION

- Just One Application Quickly Kills Insects
- Keeps on Killing for up to 14 days
- Kills over 60 Different Outdoor Insects
- Treats 5,333 sq ft (For Lawns)
- Effective Home/Yard Barrier Treatment
- Contains Tempo®

DOUBLE PROTECTION FORMULA

- Fast Acting. Kills on Contact
- Long Lasting... Keeps on Killing for up to 14 days
- Kills on contact plus protects for weeks
- Also kills fleas, ticks & 58 other nuisance pests
- TEMPO Concentrate Insecticide kills mosquitoes and other nuisance pests on contact and keeps protecting for weeks in a single application. No mixing and measuring hassles. No messy cleanup. Controlling annoying outdoor insects around your home has never been easier
- Protects home lawns, fruits & nuts vegetables, houseplants, roses, flowers, trees & shrubs
- Kills [controls] ants, aphids, chinch bugs, cutworms, fleas, mites, mosquitoes, sod webworms and many other listed insects

EPA Reg. No. 72155-39

EPA Est. No. XXXX-AA-1

PRECAUTIONARY STATEMENTS Hazards to Humans and Domestic Animals

Caution

Harmful if swallowed or inhaled

- · Causes eye irritation
- Avoid contact with skin, eyes, or clothing.
- Wash thoroughly with soap and water after handling
- Food utensils such as teaspoons and measuring cups should not be used for food purposes after use with this

If Inhaled	Move person to fresh air
	If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible
	Call a poison control center or doctor for further treatment advice
if in eyes	Hold eye open and rinse slowly and gently with water for 15-20 minutes.
	Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
	Call a poison control center or doctor for treatment advice
If swallowed	Call a poison control center or doctor immediately for treatment advice
	Have person sip a glass of water if able to swallow
	Do not induce vomiting unless told to do so by the poison control center or doctor
	Do not give anything by mouth to an unconscious person

DI	RECTIONS FOR USE	
It is a violation of Federal law to use this product in a manner inconsistent with its labeling. For best results, read and follow all label directions.		
BEFORE YOU USE Read and follow these directions when using	 Apply the product to flowering plants during early morning or late evening, when bees are not present. Do not spray the product into fish pools, ponds, streams, or lakes. Remove animal feeding dishes prior to application. Keep children and pets away from treated areas until spray has dried 	
WHEN TO USE	Spray when insects or damage first appear. For severe infestations, repeat every 7 to 14 days as necessary	
HOW TO USE	[For ½ oz size only.]	
Shake well before using	Remove one applicator tube from the package.	
•	Hold the applicator tube in an upright position. Pull the cap off the tube.	
	Turn the cap around and place the other end of the cap back on the tube.	
	Twist the cap to break the seal, then remove the cap from the tube	
	Mix with water to make 1 gallon of finished spray.	
	Discard the empty tube as described in the Storage and Disposal.	
MIXING & MEASURING	SEE SPRAYER TYPES	
HOW MUCH TO USE	Dilute ½ oz (1 Tbs) per gallon of water (ART)	
HOW TO SPRAY	Adjust nozzle on your sprayer to desired spray pattern.	
	Hold sprayer about 12 inches from foliage	
	Spray leaves and tender new shoots.	
	ART: of steps above	
	To kills insects that may hide, spray the underside of the leaves. Apply until leaves are evenly coated with spray, but not dripping.	
	ART: spraying undersides of leaves

Use a hose-end sprayer according to sprayer directions. The goal is to have large droplets and enough spray to penetrate the lawn and reach the soil.

HOW TO APPLY

Do not mow for one day after application

[Ready-to-Spray package only]

This product is ready to spray. Just attach this bottle to your hose according to directions. Water automatically mixes with the concentrate as you spray.

Turn on the water at faucet. Twist the small, star-shaped, (color inserted here) product-control button to align the flat portion with the lock tab. Push the button in to open. Be certain to choose the setting below which describes your use area. (See below)
If Other Uses: Turn on water at faucet. Pull the small star-shaped, inserted here) product-control button out until it stops. Twist the inserted here) product-control button so that the "G" on the product-l button is at the top of the control valve AND the product control is aligned with the flat portion of the lock tab. Push the button in to Proceed to step #3.
stop spraying, turn the (color) water control valve on top of the nozzle to OFF. TO close, push in the small round button opposite ir-shaped product-control button. Turn off faucet.

TIPS FOR APPLYING				
1.	Extend hose to the farthest area to be treated and work back toward the faucet to avoid walking into wet, treated area.	 Walk at a steady pace while spraying, using an even sweeping motion, slightly overlapping the treated areas. 		
(ART)		(ART)		

[Concentrate package only]

SPRAYER TYPES

(ART: ICON OF PUMP TYPE)

For Pump Style Tank Sprayer:

To make one gallon of spray:

- 1. Open flip-top lid
- 2. Gently squeeze bottle until concentrate reaches ½ oz. fill line.
- 3. Dilute with 1 gallon of water
- Close sprayer and shake well before applying.

(ART: ICON OF DIAL TYPE)

For Dial-Style Hose-End Sprayers:

Dilution rate: 1/2 oz per galion (1 tablespoon = 1/2 oz)

- 1. Fill sprayer jar with enough concentrate to cover area to be treated.
- 2. Close sprayer and set dial.
- 3. Attach sprayer to hose and apply.
- 4. To avoid contact with the treated area, begin by spraying area farthest from faucet walking backwards as you spray.

OR

Fill sprayer jar with enough concentrate to cover area to be treated and follow sprayer label directions for applying

(ART: ICON OF Concentrate Plus Water Hose End TYPE)

For Concentrate-Plus-Water Hose-End Sprayers:

Dilution rate: 1/2 oz per gallon (1 tablespoon = 1/2 oz)

- 1. Pour concentrate into sprayer jar to the required fluid ounce level.
- 2. Add the appropriate amount of water to the gallons level.
- 3. Replace sprayer top and shake well before applying.
- 4. To avoid contact with the treated area, begin by spraying area farthest from faucet walking backwards as you spray

OR

Pour concentrated into sprayer jar to the required fluid ounce level and follow sprayer label directions for applying.

FOR BEST RESULTS

Do not water the foliage within one hour after applying. To avoid serious damage to plants, eliminate pests early in the season before they multiply

(ART: ICON OF PUMP TYPE)

For Pump Style Tank Sprayer:

To make one gallon of spray:

- 5. Open flip-top lid
- 6. Gently squeeze bottle until concentrate reaches ½ oz. fill line.
- 7. Dilute with 1 gallon of water
- 8. Close sprayer and shake well before applying.

(ART: ICON OF DIAL TYPE)

For Dial-Style Hose-End Sprayers:

Dilution rate: 1/2 oz per gallon (1 tablespoon = 1/2 oz)

- 5. Fill sprayer jar with enough concentrate to cover area to be treated.
- 6. Close sprayer and set dial.
- 7. Attach sprayer to hose and apply.
- 8. To avoid contact with the treated area, begin by spraying area farthest from faucet walking backwards as you spray.

OF

Fill sprayer jar with enough concentrate to cover area to be treated and follow sprayer label directions for applying.

Important - Directions for Sto	rage and Disposal
Storage Conditions	Store in original container in a cool, dry place, out of the reach of children, preferably a locked storage cabinet.
Disposal	If empty: Do not reuse container. Place empty container in trash or offer for recycling if available.
	If partly filled: Call your local solid waste agency or toll free 1-877-229-3724 [1-800 CLEAN-UP] for disposal instructions. Never place unused product down any indoor or outdoor drain.
	NOTICE

Research and testing have determined that the 'Directions for Use" are appropriate for the proper use of TEMPO Concentrate Insecticide under expected conditions. The Buyer assumes responsibility for lack or performance or safety if not used according to the directions.

Money back Guarantee: If you are not satisfied with this product, we will gladly refund your original purchase price.
