Mr. Charles W. Boyd
Bayer Advanced
2. T.W. Alexander Drive
Research Triangle Park, NC 27709

Subject: Additional Claims on Label
Imidacloprid 2.15 RB Insecticide
EPA Reg. No. 72155-70
Your Submission date, July 27, 2006

Dear Mr. Boyd:

The labeling referred to above, submitted in connection with registration under the Federal insecticide, and Rodenticide Act as amended is acceptable provided you make the following claim changes.

1. The claim "keeps working under different heat and moisture conditions" must be deleted or have a range of both temperature and moisture conditions by which the product is still efficacious.
2. Correct the misspelling of "Roach" in the claim which reads "Roach food and water source".
3. Delete the protection claim "Enough to protect an entire house". This is false and misleading; every house is not the same size, so how would you know?

A stamped copy is enclosed for your records. Submit two (2) copies of your final printed labeling before you release the product for shipment. If there are questions, call me at 703 305-5409.

Sincerely,

Dani Daniel
Insecticide-Rodenticide Branch
Registration Division 7505P

If in eyes	<ul style="list-style-type: none"> • Hold eye open and rinse slowly and gently with water for 15 to 20 minutes. • Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. • Call a poison control center or doctor for treatment advise.
If swallowed	<ul style="list-style-type: none"> • Call a poison control center or doctor immediately for treatment advice • Have person sip a glass of water if able to swallow. • Do not induce vomiting unless told to do so by the poison control center or doctor. • Do not give anything by mouth to an unconscious person.

NOTE: Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may contact 877-229-3763 for emergency medical treatment information. Active Ingredient: 2.15% Imidacloprid [CAS # 138261-41-3]

PACKAGE DIRECTIONS	
<ol style="list-style-type: none"> 1. Push and turn cap to remove 2. Place tip of power pen against area to be treated 3. To dispense product, slide button forward and depress 4. When finished, replace cap 	

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.
 For best results, read and follow all label directions.

<p>BEFORE YOU USE</p> <p>Read and follow these directions when using:</p>	<ul style="list-style-type: none"> • Apply only to areas not easily accessible to children and pets. • Avoid applying gel to fabric or carpeting, as it may stain some materials. • Do not apply in or on electrical equipment due to the possibility of shock. • Gel cleans up easily with damp paper towel while still wet, or scrap away with putty knife once dry. Discard the clean-up debris.
<p>WHERE TO USE</p>	<ul style="list-style-type: none"> • Kitchens - Cupboards, Dishwashers*, Garbage Cans, Refrigerators*, Stoves*. • Bathrooms - Bathtubs*, Garbage Cans • Laundry Rooms - Drains, Laundry Tubs*, Washing Machines* • Basements, Garages, Outdoor Areas - Drains, Garbage Cans, Laundry Tubs*, Manholes, Pipe Collars, Sewers, Washing Machines*, Water Pipes* • General - Cabinets, Closets, Counters, Cracks, Crevices, Shelving, Sinks <p>* Do not apply bait inside these items. Locate behind or under item.</p>
<p>HOW MUCH TO APPLY</p>	<ul style="list-style-type: none"> • Spot Treatment: 1 – 2 spots per square yard, each spot ¼" across. • Crack and Crevice Treatment: Squeeze a small amount into crack or crevice. • Recommended spot size [graphic]
<p>HOW TO APPLY</p>	<ul style="list-style-type: none"> • <i>Remove cap from tip, touch tip to surface and depress plunger.</i>
<p>FOR BEST RESULTS</p>	<ul style="list-style-type: none"> • Numerous, smaller bait placements will provide faster more effective control than fewer larger placements. • For thorough control, use entire tube at one time. • Gel should be applied to clean, dry surfaces. • If bait is completely eaten, reapply more to the same site since additional roaches will be attracted by the secretions and droppings left by the earlier cockroaches. • Do not apply roach baits to areas recently sprayed with insecticides and do not spray insecticides over these baits. The spray insecticides may repel roaches from the baited area. • For additional information on proper placement and sustainable roach control, please visit bayeradvanced.com.
<p>HOW IMIDACLOPRID 2.15 RB INSECTICIDE WORKS</p>	<ul style="list-style-type: none"> • This bait was specifically formulated to be both a food and water source with extra long attractiveness. It contains a low level of insecticide which cockroaches cannot detect.

5/5

Storage and Disposal Do not contaminate water, food, or feed by storage or disposal.	
STORAGE CONDITIONS:	Store in original container in a cool, dry place, out of the reach of children, preferably a locked storage cabinet.
DISPOSAL 	<ul style="list-style-type: none">• If Empty: Do not reuse this container. Place in trash or offer for recycling if available.• If partly filled: Call your local solid waste agency or call 1-877-229-3724 for disposal instructions. Never place unused product down any indoor or outdoor drain.

NOTICE
Research and testing has determined that the "Directions for Use" are appropriate for the proper use of Imidacloprid 2.15 RB under expected conditions. The Buyer assumes responsibility for lack of performance or safety if not used according to the directions.

Money Back Guarantee: If you are not satisfied with this product, we will gladly refund your original purchase price.
