SUBJECT:

Application for Pesticide Notification (PRN 98-10)

Request Géneral Label Change (Container Size)

EPA Reg. No.72155-76

Application Dated April 28, 2008

Dear Registrant:

The Agency is in receipt of your Application for Pesticide Notification under Pesticide Registration Notice (PRN) 98-10 dated 04/28/08 for the above product. The Registration Division (RD) has conducted a review of this request for its applicability under PRN 98-10 and finds that the action(s) requested fall within the scope of PRN 98-10. The label submitted with the application has been stamped "Notification" and will be placed in our records.

If you have any questions, please call me directly at 703-305-6249 or Owen F. Beeder of my staff at 703-308-8899.

Sincerely,

Linda Arrington Notifications & Minor Formulations Team Leader Registration Division (7505P)

Section II - Explanation

Bayer Advanced is submitting a Notification to add the following claims to the above product.

Now 25% more vs. 32 oz. size [40 ounce size] Now 25% more vs. 1 gallon size [1.25 gallon size]

Enclosed is one copy of the product label with the changes highlighted.

This notification is consistent with the provision of PR Notice 98-10 and EPA regulations at 40 CFR 152.46, and no other changes have been made to the labeling or the confidential statement of formula of this product. I understand that it is a violation of 18 U.S.C. Sec. 1001 to willfully make any false statement to EPA. I further understand that if this notification is not consistent with the terms of PR Notice 98-10 and 40 CFR 152.46, this product may be in violation of FIFRA and I may be subject to enforcement action and penalties under sections 12 and 14 of FIFRA.

(Front Panel)

Merit® 1.47% Insecticide Plus Fertilizer

- New
- Stimulates Tree & Shrub recovery
- Exclusive green color liquid fertilizer formula
- Dual Action Protect & Feeds
- · Protects and Feeds
- Protects for up to a year (with a single application) and Feeds
- Insects stop eating when they feed on the plant
- Protects trees, shrubs, and containerized plants from damaging insects with one easy treatment
- Helps keep trees and shrubs strong. Protects new growth
- · Kills insects that damage trees and shrubs
- Controls insects that damage trees and shrubs
- Season long protection
- · Year-long insect protection for trees and shrubs
- Systemic insecticide is absorbed through the roots, carried up into the plant and won't wash off
- Prevents insects from damaging trees and shrubs
- For use on all ornamental trees and shrubs, listed fruit & nut trees, and containerized plants
- Kills insects & prevents new infestations
- One application feeds and protects up to 12 months
- Provides 12-Month Insect Protection
- · Rainproof Protection
- · Apply around plant and walk away
- Feeds and protects against insects in one easy step
- Feeds, and protects against insects for up to 12 months
- No spraying, just mix and pour around tree base (trunk)
- · No messy spraying
- A new way to protect (and feed) trees and shrubs
- Cost effective alternative to professional treatments

- . Do it Yourself Tree Protection
- Protects against insects PLUS improves vitality of trees and shrubs
- Provides 12 month insect protection Plus Feeds
- Protects your trees and shrubs from insects plus feeds
- Delivers 12 month insect protection
- · Delivers year long insect protection
- No Spray technology
- Protects against insects plus restores vitality of trees and shrubs
- · A breakthrough in Do-It-Yourself tree care
- 12-MONTH PROTECTION with one application
- Protects the entire tree or shrub especially new growth
- Rainproof protection won't wash off
- Kills devastating pests like: Adelgids, Borers, Emerald Ash Borers, Leafminers, Japanese Beetles (adult) and many others
- No spraying! Just mix and pour at base of tree or shrub
- Significantly easier way to protect trees
- Contains MERIT® Insecticide
- 100% Satisfaction Guaranteed *(or your money back)
- Easy Measure-up® Cup
- · Protects for 12 months Plus feeds
- Kills insects including Japanese Beetles & Emerald Ash borers
- Now Feeds and Protects
- Now 25% more vs. 32 oz size [40 oz size]
- Now 25% more vs. 1 gallon size [1.25 gallon size]

(BACK PANEL])

This product provides 12-month systemic protection against damaging insects including Adelgids, Aphids, Borers (including emerald ash borer), Japanese Beetles, Leafminers, Scale, and Whiteflies plus feeds in a single application. Having beautiful trees and shrubs has never been easier.

No spraying, just mix and pour. Protects and feeds entire tree and shrub.

READ THE LABEL FIRST!

QUICK FACTS

- · Provides Year Long (12 month) Insect Protection
- · Easy to Use in three steps: Measure, Mix and Apply Around Plant
- · Rain or Moisture can not wash off this internal protection
- Rainproof Protection
- · Dual action, kills insects and feeds your tree
- · Two Products in one, an insect killer and a fertilizer
- Two-in-One formula kills insects while feeding your tree
- Unique Double Action Formula (2-in-1): kills insects before they damage tree and feeds root system
- · Provides slow-releasing feeding
- · Easy-to-use measuring cup

KILLS	Adelgids, aphids, borers (including emerald ash borer), Japanese beetles, leafminers, scale, whiteflies and other listed pests
WHERE TO USE	Outdoor trees and shrubs, including listed fruit and nut trees, and containerized plants
HOW TO USE	Measure distance around tree trunk or height of shrub or determine container size
	2. Measure and pour required amount of product into bucket of water
	3. Pour solution around tree or shrub base or in container
HOW MUCH TO USE	Trees: 1 oz for every inch of distance around trunk; treats 4 trees that measure 8 inches around trunk (32 fl oz size)
	Shrubs: 3 oz for every foot of height; treats 5 shrubs that are 2 foot tall (32 fl oz size)
	Containerized Plants: 1 2/3 tablespoons for each five gallon container; treats up to 42 - five gallon containers (32 fl oz size)

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. For best results, read and follow all label directions.

BEFORE YOU USE Read and follow directions

when using.

- Do not apply near lakes, streams, rivers, or ponds.
- Do not apply to soils which are waterlogged or saturated.
- Bucket or measuring utensils should not be used for any food or drinking water purposes after use with this product.

HOW TO USE	Pour the required amount	into a bu determine	ucket of water and e container size a	empty the bucket nd pour required a	ee trunk or height of the shrub. around the base of the tree/shrub. mount into enough water to wet container.
FOR USE ON	Outdoor trees and shrubs, including listed fruit and nut trees:				
	Apple	Loquat		Oriental Pear	Pecan
	Crabapple	Mayhav	N	Pear	Quince
	Containerized plants not in	ntended	to be used as edit	ole food.	
CONTROLS	Adelgids		Fungus Gnat La	rvae	Psyllids
	Aphids		Japanese Beetle	es, Adult	Royal Palm Bugs
	Armored Scales (suppression) Borers Roundheaded (including Eucalyptus Longhorned Borers and Asian Longhorned Beetle)		Lace bugs Leaf Beetles (including Elm Leaf,	Root Weevil Larvae (including black vine weevils)	
			Viburnum Lea	f, and Lily Leaf	Sawfly Larvae
			Beetles) Leafhoppers (in	cluding Glassy-	Soft Scales (including lobate lac scales)
	Flatheaded (including B		winged Sharpsh	ooter)	Thrips
	Birch, Alder, and Emerald Ash Borers) Pine Bark Beetles (including lps beetles) (suppression)		Leafminers (incl		Whiteflies
			Boxwood Leaf	miners)	White Grub larvae (such as
			Mealybugs Pine Tip Moth Larvae	Japanese Beetles, Chafers, European Chafer, Oriental Beetle, Asiatic Garden Beetle)	
	Trees With 2 or More Trunks	from ground level. This measurement is the amount of ounces of product to add to 1 gallon of water. Example: A tree measuring 8 inches around, pour 8 ounces of product into one gallon of water. If the tree measures greater than 50 inches around, pour the required product into 2 gallons of water. A flexible tape measure is the recommended method [tool] for measuring the distance around a tree. Measure the distance in inches around the largest and smallest tree trunks at approximately 4.5 feet from ground level and add together. This measurement is the number of ounces of product to add to 1 gallon of water. Example: A tree has 4 trunks. They measure 20, 10, 5 and 5 [inches]. A total of [20 + 5 =] 25 ounces of product should be poured into 1 gallon of water. Measure the height of the shrub to the nearest foot. Multiply the number of feet by 3 – this is the number of ounces of product to add to 1 gallon of water.			
	Containerized Plants		ner Size		Product Needed
			allon		teaspoon
		2 ga			teaspoons
		_	allon		Tablespoon
·		1	allon		2/3 Tablespoons
		1	gallon		1/3 Tablespoons
		_	gallon		Tablespoons
		1	gallon		2/3 Tablespoons
		Pour the required product into sufficient water to wet the potting soil thoroughly. To help assure that roots absorb the insecticide, do not water to heavily for the first 10 days.			ter to wet the potting soil
	Do not make more than one application per year.				

DIRECTIONS FOR USE continued

HOW TO APPLY	Trees and Shrubs:
	For trees with distance around trunk less than 30 inches, apply the solution evenly in a circle 2 feet from the tree trunk. Trees with distance around trunk greater than 30 inches, apply the solution evenly in a circle 3-4 feet from the tree trunk.
	• For shrubs less than 3 feet tall, apply the solution evenly in a circle 1 foot from the base of the shrub. Shrubs greater than 3 feet tall, evenly apply the solution in a circle 2 feet from the base of the shrub.
	Containerized Plants:
	Apply the solution evenly on top of potting soil and water thoroughly.
	For the first 10 days, avoid flushing through the container to the point where it flows out the bottom.
	For indoor containerized plants, bring outdoors, make treatment, and return indoors when no excess water is present.
FOR BEST RESULTS	Pull back mulch and weed barrier before application.
	Use this product as part of an overall tree and shrub health care program before problems start (preferably in the fall). (However,) MERIT 1.47% Insecticide Plus Fertilizer can be applied anytime except when the soil is waterlogged or frozen. These conditions inhibit the movement of the product down into the root zone. During prolonged dry periods, saturate the soil around the tree or shrub well with water the night before making an application.
	For severe infestations, treat with a foliar insecticide such as (Bayer contact Insecticide), then use this product as part of a routine care program.
HOW THIS PRODUCT WORKS	The insecticide and fertilizer dissolved in water moves down through the soil, where it is absorbed by the roots. Once absorbed, it moves up through the tree or shrub providing year-long insect protection and feeds. This product even moves into new growth after application, thus protecting and feeding it, too! To
(SHOW IMAGE OF HOW THE PRODUCT WORKS SYSTEMICALLY)	get complete results, the insecticide and fertilizer must distribute completely through the tree or shrub. Depending on the size and health of the plant, this may take one week to three months (for very large trees). Rain or water cannot wash off this internal protection and feeding.

(NOTE: Application to trees heavily infested may not prevent their eventual loss due to existing pest damage and tree stress.)

•	
\mathbf{X}	

Children and pets may re-enter the treated area after it has dried.

lm	portant – Directions for Storage and Disposal
Storage Conditions	Store in original container in a cool, dry place, out of the reach of children, preferably a locked storage cabinet. Protect from freezing
Disposal	If empty:
	 Do not reuse container. Rinse the empty product container thoroughly and disperse the rinse water around tree or shrub as part of application. Place empty container in trash or offer for recycling if available. If partly filled:
	 Call your local solid waste agency or toll free 1-877-229-3724 for disposal instructions.
`	 Never place unused product down any indoor or outdoor drain.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS CAUTION

- · Harmful if swallowed or absorbed through skin.
- · Causes moderate eye irritation.
- · Avoid contact with skin, eyes, or clothing.
- Wash thoroughly with soap and water after handling.

	First Aid +		
	Neonicotinyl Insecticide		
If swallowed	 Call a poison control center or doctor immediately for treatment advice Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.
