Other Ingredients	
Total	100.000%

THIS PRODUCT CONTAINS: 0.096% 2,4-D acid equivalent, 0.048% Mecoprop-p acid equivalent, 0.024% Dicamba acid equivalent. Isomer Specific by AOAC Methods.

EPA Reg. No. 72155 – XX EPA Est. No. XXX-AA-XX

DIRECTIONS FOR USE	
It is a violation of Federal I	aw to use this product in a manner inconsistent with its labeling.
HOW TO USE	<ul> <li>Turn spray nozzle to coarse spray.</li> <li>Hold sprayer about 12 inches from weed, aim at center of weed and spray to lightly cover.</li> </ul>
Shake Well Before Use	
	Spray when weeds are [small [young] and] actively growing.
WHEN TO APPLY	<ul> <li>Spray when daily high temperature is below 90°F.</li> </ul>
	Rain or watering 1 hour after application will not wash away effectiveness.
	• [Apply when wind is calm [to avoid spray drift onto desirable plants (fruits, vegetables, flowers, groundcovers, shrubs & trees)]]
[FOR BEST RESULTS]	[Reapply in 2 weeks if necessary.]
	[Do not apply while grass is emerging from winter dormancy.]
	<ul> <li>[Newly seeded lawns may be sprayed after the fourth mowing.]</li> </ul>
	[Bare spots may be seeded 4 weeks after application.]
	<ul> <li>[Do not mow for 1 to 2 days before &amp; after spraying [Uncut weeds have more surface area to hold more weed killer. They are also more likely to be hit by the spray. Lawn clippings can get in the way of the herbicide hitting the weed. Weed killers need time to move throughout the weed – mowing may remove the treated parts.].]</li> </ul>
	• [Leave grass clippings on the lawn from the first 3 mowings after using this product. Do not use as compost or mulch.]
	<ul> <li>[If lawn is dry, water 1 to 2 days before using this product. [Weeds take up herbicides best when not under stress.]]</li> </ul>
[REFILL]	[This [24 fl oz] container may be refilled when empty by adding 5 tsp. (0.8 fl. oz.) of 'Bayer Advanced Lawn Herbicide 3F Concentrate'. Top off with water, screw the sprayer back onto the bottle and shake well. Refill does not contain SmartTrack® spray marker.]
HOW IT WORKS	Bayer Advanced Lawn Herbicide 3F Ready-to-Use contains four proven weed killers that target lawn weeds and crabgrass. The herbicides enter the lawn weeds through their leaves and move inside the weeds, even down into the roots. And lawns will not be harmed when used as directed.

Black medic	Florida pusley	Spurweed
Carpetweeds	Foxtails	Thistles
Chickweeds	Ground ivy	Toadflax
Clovers	Heartleaf drymary	Wild carrot
Crabgrass	Henbit	Wild garlic
Creeping Charlie	Kikuyugrass	Wild geranium
Cudweed	Oxalis	Wild onion
Curly dock	Pennywort	& many other broadleaf & grass weeds
Dandelion	Plantains	(See appendix for a complete list of the
English daisy	Purslane	weeds controlled)
False dandelion	Red sorrel	
Filaree	Sheep sorrel	
	Spurges	

Do not allow people (other than applicator) or pets on treatment area during application and until spray has dried.

# PRECAUTIONARY STATEMENTS

# CAUTION Hazards to Humans and Domestic Animals

- Harmful if swallowed
- Causes moderate eye irritation.
- Avoid contact with eyes, skin, or clothing.

After using this product:

- If product gets on clothing, remove clothing as soon as possible and launder clothing separately before reuse.
