

#### U.S. ENVIRONMENTAL PROTECTION **AGENCY**

Office of Pesticide Programs Registration Division (7504P) 1200 Pennsylvania Ave., N.W. Washington, D.C. 20460

EPA Reg. Number:

72155-93

Date of Issuance:

AUG 0 8 2014

NOTICE OF PESTICIDE:

XX Registration

XX Reregistration (under FIFRA, as amended)

Terms of Issuance: Unconditional

Name of Pesticide Product:

**BTF** Concentrate

Registrant:

Bayer Advanced P.O. Box 12014 2 T.W. Alexandria Drive

Research Triangle Park, NC 27709

Mailed:

Annette Bloomberg

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act. Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

EPA received a label amendment request submitted on 5/15/12. EPA grants this request under the authority of section 3(c)(5) of the Federal Insecticide, Fungicide and Rodenticide Act, as amended. With this accepted labeling, all requirements set forth in the Reregistration Eligibility Decision for **Propiconazole** have been satisfied. Therefore, EPA reregisters the product listed above. This action is taken under the authority of section 4(g)(2)(c) of the Federal Insecticide, Fungicide, and Rodenticide Act, as amended. Reregistration under this section does not eliminate the need for continual reassessment of pesticides. EPA may require submission of data at any time to maintain the registration of your product.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading.

Signature of Approving Official:

Shafa B. Joyner, Product Manager 20

Fungicides Branch-Registration Division (7505P)

Date:

8/8/2014

Re-registration Notice EPA Reg. Number: 72155-93

In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance.

Submit one (1) copy of final printed labeling. Amended labeling will supersede all previously accepted labels. A copy of your label stamped "Accepted" is enclosed for your records. Products shipped after 12 months from the date of this Notice or the next printing of your label, whichever occurs first, must bear the new revised label.

The Basic CSF date 5/2/13 and Alt CSFs #1, dated 5/3/13, #2 dated 5/4/13 and #3, dated 5/5/13 are all acceptable and will be added to the regulatory file. These CSFs will supersede all CSFs previously accepted for the product. Additionally, the Agency finds your request for the alternate brand name "Bayer Advanced Fungus Control for Lawns Ready-to-Spray" acceptable.

If you have any questions or comments regarding this letter, please contact Shaunta Hill at (703) 347-8961 or via e-mail at <a href="mailto:hill.shaunta@epa.gov">hill.shaunta@epa.gov</a>.

#### PRECAUTIONARY STATEMENTS

#### **CAUTION**

#### **ENVIRONMENTAL HAZARDS**

- This product is toxic to fish and shrimp. Do not apply directly to water. Do not contaminate water when cleaning equipment or disposing of equipment washwaters or rinsate. Drift and runoff may be hazardous to aquatic organisms in water adjacent to treated areas.
- To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters, or surface waters.
   Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow or wash pesticide off the treatment area. Rising application equipment over the treated area will help avoid runoff to water bodies or drainage systems.

	DIRECTIONS FOR USE		
It is a violation of Federal	It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.		
For best results, read and	follow all label directions.		
USE PRECAUTIONS AND RESTRICTIONS	Do not allow adults, children, or pets to enter the treated area until sprays have dried.     Do not apply near lakes, streams, rivers, or ponds.		
	Do not apply to fruits or vegetables grown for food.  Do not apply this product in a way that will contact adults, children, or pets, either directly or through drift.		
HOW TO USE Shake Well Before Use	This product is ready to spray. Just attach this bottle to your hose according to directions. Water automatically mixes with the concentrate as you spray.		
CURES & PREVENTS	Lawn diseases including Anthracnose, Bermuda grass decline, Brown Patch, Copper Spot, Dollar Spot, Fusarium Blight, Gray Leafspot, Large Patch of Zoysia, Powdery Mildew, Red thread, Rhizoctonia blight, Rust, Smut, Southern blight, Summer patch, and Zoysia Patch.		
HOW MUCH TO USE	First determine the area to be treated.		
	Apply entire 32 fl. oz. bottle to 5,000 sq. ft. It should take about 5 to 6 minutes to empty the container over the treatment area.		
	<ul> <li>For Bermuda grass decline, Fusarium Blight, Large Zoysia Patch, Summer patch, and Zoysia Patch, apply entire 32 fl. oz. bottle to 2,500 sq. ft.</li> </ul>		
HOW THIS PRODUCT WORKS	This product provides 3-way action: it kills existing fungi, forms a protective barrier on the outside of the plant and is absorbed into the plant to keep on protecting regardless of weather conditions.		

#### [Directions for Hayes Sprayer] **HOW TO ATTACH & SPRAY** Connect your garden hose to the bottle. Be sure the blue water control valve on top of the spray nozzle is in the OFF position. Turn on water at faucet. Twist the small star-shaped, blue product-control button to align the flat portion with the lock tab. Push the button in to open. To begin spraying, point nozzle toward the area to be treated and turn the blue water control valve to the ON position. Tab will be horizontal. To stop spraying, turn the blue water control valve on top of the spray nozzle to OFF. To close. push in the small round button opposite the star-shaped product-control button. Turn off faucet. Relieve water pressure by turning blue water control valve to the ON position until water slows to a drip. Turn blue water control valve back to OFF. Disconnect garden hose from bottle. The unused portion can be saved and used at a later date. [Directions for Green Garden K-1 Sprayer and Calmar Infinity Sprayer] Connect 1. Shake well before use 2. Connect sprayer to garden hose 3. Be sure that sprayer valve is in off position Turn on water at faucet Spray 1. Extend hose to furthest area to be treated, point sprayer nozzle in direction to be sprayed. To begin spraying, press lock tab while using other hand to turn sprayer valve to on position. Walk at a steady pace while spraying, using an even sweeping motion, and slightly overlap the treated areas. Work back toward the faucet to avoid walking over wet, treated grass. Finish 1. To stop spraying, turn sprayer valve to off position. Turn off water at faucet. Relieve water pressure in hose by turning sprayer valve to water position until water slows to a drip, then turn valve to off position. Disconnect sprayer from hose. **Tips for Applying** Extend hose to the farthest area to be treated and work back toward the faucet to avoid walking into wet, treated area. Walk at a steady pace while spraying, using an even sweeping motion, slightly overlapping the . treated areas. HOW TO ATTACH AND [Directions for Haves HP-2 Sprayer] **SPRAY** 1. Connect your garden hose to the bottle. Be sure the blue water control valve on top of the spray nozzle is in the OFF position. To begin spraying, turn on water at faucet. Point nozzle towards the area to be treated and Press lock tab while using other hand to turn sprayer valve to on position. To stop spraying, turn the water control valve on top of the spray nozzle to OFF. Turn off faucet. Relieve water pressure by turning water control valve to the ON position until water slows to a drip. Turn water control valve back to OFF. Disconnect garden hose from bottle. The unused portion can be saved and used at a later date. Tips for Applying W. T. P. Color Extend hose to the farthest part of the lawn to be treated and work back toward the faucet to avoid contacting wet, treated areas. 2. Use an even sweeping motion, ensuring thorough coverage of turf. FOR BEST RESULTS This product is highly effective when used to prevent disease or when applied at first sign of disease. To prevent damage, start treating when conditions are favorable for disease development in your area, and treat every 30 days. To control existing disease, reapply every 14 days until lawn shows signs of recovery. Do not apply

Do not treat lawn during periods of stress from heat or drought.

Rain or watering after spray has dried will not wash away effectiveness.
