Subject: Amended label adding pollinator protection language
Product Name: Imidacloprid 0.025% + Beta-Cyfluthrin 0.0125% Ready-to-Use
EPA Reg. No. 72155-110
EPA Decision No. 484462
Submission dated September 26, 2013

Dear Ms. Bloomberg:

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act is acceptable. A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. You must submit one (1) copy of the final printed labeling before you release the product for shipment with the new labeling. See 40 CFR 156.10(a)(6).

Under 40 CFR 152.130(d), EPA may establish dates by which all product distributed or sold by the registrant must bear revised labeling. The following paragraphs set forth the schedule for ensuring that that your product bears revised labeling within a reasonable time period.

- Any product released for shipment after 2/28/14 must bear the new label.

If these conditions are not complied with, EPA will take appropriate action against this registration. If you have any questions please contact Marianne Lewis at 703 308-8043 or lewis.marianne@epa.gov.

Regards,

A handwritten signature in cursive script that reads "Venus Eagle".

[FRONT PANEL]

Under the Federal Insecticide, Fungicide,
and Rodenticide Act, as amended, for the
pesticide registered under:

EPA. Reg. No: 72155-110

Imidacloprid 0.025% + Beta-Cyfluthrin 0.0125% Ready-to-Use Insecticide

- All-purpose*** [bug] [insect] spray
- Just one application kills listed** insects
- Dual Mode of Action: Two active ingredients providing contact activity and systemic action
- Dual mode of action: Two active ingredients
- Formula works with two active ingredients for control through contact activity and systemic action
- Dual mode of action: contact activity and systemic activity
- Can be used in cracks and other places insects hide
- Odor Free
- No unpleasant odor
- Non-Staining
- Will not damage paints, plastics, fabrics or other surfaces where water alone causes no damage
- Controls ants, fleas, ticks and other listed** pests
- For Indoor and Outdoor Residential Use
- Use Indoors and Outdoors
- Kills the insects you see, kills the ones you don't see
- Double Protection – Use Inside and Outside
- Controls over 50 listed** pests
- Controls scorpions and even wasps
- Controls scorpions
- Kills scorpions
- Kills wasps
- Great for controlling ants, crickets, roaches, spiders, and water bugs
- Kills Kudzu Bugs
- Kills Stink Bugs (including Brown Marmorated Stink Bugs)
- Broad spectrum – effective in controlling more than 50 listed** pests
- Effective against more than 50 listed** pests, both indoor / outdoor settings
- Controls listed** [indoor] [household] pests
- Residual control
- Control of hard to kill pests such as spiders, ants, and bed bugs
- Residual control of [bed bugs]
- Kills bed bugs, fleas & ticks
- Kills bed bugs where they hide
- Up to 4 weeks [30 days] protection for bed bugs
- Will not stain water safe fabrics and surfaces
- For use on mattresses, upholstered furniture, and luggage
- Penetrates cracks and crevices where bed bugs like to hide
- Kills bed bug eggs before they hatch
- Kills bed bug eggs
- Kills bed bugs and fleas by contact
- Kills up to 12 months for adult fleas
- Young nymphs that emerge from eggs are killed by dried residues.
- Kills pyrethroid resistant bed bugs
- Does not repel bed bugs
- For use in and around your home
- For use indoors
- For outdoor residential use
- Controls bed bugs on wood, fabric, or upholstered surfaces.
- Kills bed bugs
- Kills bed bugs resistant to pyrethroid insecticides

- Controls bed bugs for up to [1 month] [30 days] on wood, fabric or upholstered surfaces
- Residual effectiveness against bed bugs that lasts for up to [1 month] [30 days]
- Residual efficacy against bed bugs that lasts for up to [1 month] [30 days] on wood or fabrics
- Can prevent bed bug infestations for up to [1 month] [30 days]
- Keeps on killing bed bugs for up to [30 days] [1 month]
- Controls fleas and ticks, including ticks that may transmit Lyme Disease and Rocky Mountain Spotted Fever
- Kills fleas and ticks
- Kills adult fleas for up to 12 months indoors
- Aids in control of flea larvae
- Kills listed** Insects by contact
- Non-flammable
- Sprays upside down without worry
- Sprays at any angle
- Constant pressure of application; won't lose pressure as can empties
- Continuous Spray products spray at any angle
- This any-angle spray can get to those hard-to-reach areas for complete coverage.
- Provides fast & even coverage for even tough to reach spots.
- Can be applied at any angle – even upside down
- Continuous Spray

Contains no CFCs or other ozone depleting substances. Federal regulations prohibit CFC propellants in aerosols.

- Sprays at any angle, even hard to reach places
- Nothing left behind in the can – completely empties
- Protect [controls] up to 4 weeks [30 days]****
- Kills [ants'] [cockroaches] [spiders] [scorpions] [fleas] [flies] [mosquitoes] and other listed [insects] [pests]
- This product provides up to 30 days protection with a single application for [cockroaches] [ants'] [mosquitoes] [ticks] [bed bugs] [fleas]
- Keeps on killing for up to 30 days for [cockroaches] [ants'] [mosquitoes] [ticks] [bed bugs] [fleas]

Claims for Rose and Flower

- Keeps on Killing for up to 30 Days
- Keeps your houseplants free from listed** insects
- For use in containers
- For use on Roses, Flowers, Houseplants, Ground Covers, and Shrubs
- This product provides up to 30 days protection with a single application.
- Now keeping your roses and flowers free of listed** pests has never been easier
- Kills listed** Insects by contact
- Kills by contact and protects up to 30 days
- For use on roses and flowers grown in containers
- Also for use on houseplants
- Kills aphids, caterpillars, and Japanese Beetles and other listed pests

* Except Pharaoh Ants

**The word "listed" can appear as a footnote with the appropriate phrase, such as listed insects

*** Kills over 50 listed pests

****Bed Bugs

[BACK PANEL]

EPA Reg. No. 72155-110

EPA Est. No. XXXX-AA-1

PRECAUTIONARY STATEMENTS

Wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet.

For medical emergency information, you may call toll free 1-877-229-3763. Have the product container or label with you when calling poison control center or doctor or going for treatment.

For product questions or comments, call toll-free 1-877-BayerAG (1-877-229-3724) or visit our website at www.bayeradvanced.com

PHYSICAL CHEMICAL HAZARDS- Contents under pressure. Do not puncture or incinerate container. Exposure to temperatures above 120°F may cause bursting. Do not spray directly into any electrical equipment such as radios, televisions, computers, etc. (where there is exposed wiring or contact points) due to the possibility of short circuits and shock hazard.

ENVIRONMENTAL HAZARDS – This product is toxic to aquatic invertebrates and fish. This product is highly toxic to bees. Do not apply this product when bees are foraging. To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters, or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow or wash pesticide off the treatment area.

PROTECTION OF POLLINATORS

APPLICATION RESTRICTIONS EXIST FOR THIS PRODUCT BECAUSE OF RISK TO BEES AND OTHER INSECT POLLINATORS. FOLLOW APPLICATION RESTRICTIONS FOUND IN THE DIRECTIONS FOR USE TO PROTECT POLLINATORS.

This product can kill bees and other insect pollinators.

Bees and other insect pollinators will forage on plants when they flower, shed pollen, or produce nectar.

Bees and other insect pollinators can be exposed to this pesticide from:

- Direct contact during foliar applications, or contact with residues on plant surfaces after foliar applications
- Ingestion of residues in nectar and pollen when the pesticide is applied as a seed treatment, soil, tree injection, as well as foliar applications.

When Using This Product Take Steps To:

- Minimize exposure of this product to bees and other insect pollinators when they are foraging on pollinator attractive plants around the application site.
- Minimize drift of this product on to beehives or to off-site pollinator attractive habitat. Drift of this product onto beehives or off-site to pollinator attractive habitat can result in bee kills.

Information on protecting bees and other insect pollinators may be found at the Pesticide Environmental Stewardship website at:

<http://pesticidestewardship.org/PollinatorProtection/Pages/default.aspx>.

Pesticide incidents (for example, bee kills) should immediately be reported to the state/tribal lead agency. For contact information for your state, go to: www.aapco.org/officials.html. Pesticide incidents should also be reported to the National Pesticide Information Center at: www.npic.orst.edu or directly to EPA at: beekill@epa.gov

7/20

READ THE LABEL FIRST!
DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Do not apply this product while bees are foraging. Do not apply this product to plants that are flowering. Only apply after all flower petals have fallen off.

Read and follow all label directions.

BEFORE YOU USE - Read these restrictions before using:

RESTRICTIONS
For Indoor Use

- Do not contact treated surfaces until dry.
- People and pets may re-enter after the treated area is dry.
- Remove animal feeding dishes prior to application.
- Do not use in small enclosed areas where spray may be inhaled.
- Cover exposed food or remove from area being treated.
- In the home, cover or thoroughly wash all food processing surfaces and utensils following treatment.
- Do not apply to furniture or upholstery where prolonged contact with humans will occur.
- Do not spray bed linens or other materials, which come in direct contact with occupants of the bed.

For Outdoor Use

- Do not contact treated areas until dry.
- People and pets may re-enter after the treated area is dry.
- Do not spray the product into fish pools, streams, or lakes.
- Remove animal feeding dishes prior to application.
- Do not water the treated area to the point of run-off.
- Do not make applications during rain.
- Do not apply directly to impervious horizontal surfaces such as sidewalks, driveways, and patios except as a Spot (no more than 2 sq ft) or crack and crevice treatment. During application, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters, or surface waters.
- Do not apply to fruits or vegetables used for food.
- All outdoor applications, if permitted elsewhere on this label, must be limited to spot (no more than 2 sq ft) or crack and crevice treatments only, except for the following permitted uses, if allowed elsewhere on this label:
 - Applications to vegetation, as listed on this label

8/20

HOW TO USE: SHAKE WELL BEFORE USE. Gently rotate top to open and close. Hold can 12 to 15 inches from the surface to be treated. Press button down and spray until surface is slightly wet but not to the point of run off.

WHERE TO USE- For use in [and around] the home [kitchens] [apartment buildings] [nursing homes] and for use in outdoor residential garden.

WHEN TO USE - Apply when pests are seen or found. Reapply every 7 to 10 days until infestation is eliminated. Do not exceed 0.4 lbs imidacloprid [X cans] per acre per year. This can contains [X] lbs of imidacloprid.

KILLS - Adelgids, Ants (except Pharaoh), Aphids, Armyworms, Bagworms, Bed Bugs, Boxelder Bugs, Carpenter Ants, Caterpillars, Chiggers, Clothes moths, Clover mites, Cockroaches, Crickets, Cutworms, Earwigs, Elm leaf beetles, Fire ants, Fleas, Flies, Fungus Gnats, Grasshoppers, Gypsy moth larvae, Japanese Beetles, Kudzu Bugs, Lace Bugs, Leaf-feeding beetles, Leaf-feeding caterpillars, Leafhoppers (including glassy-winged sharpshooters), Leafminers, Mealybugs, Midges, Mosquitoes, Moths, Pine Shoot Moths, Pine Tip Moths, Pillbugs, Plant bugs, Psyllids, Rose Midges, Rose Slugs, Sawflies, Scale insects (crawler stages), Scorpions, Sowbugs, Spittlebugs, Spiders, Stink Bugs (including brown marmorated stink bugs), Thrips, Ticks (including deer ticks), Wasps., Weevils (including root weevils), and Whiteflies.

TO KILL BED BUGS AND BED BUG EGGS - Spray bugs and eggs directly wherever possible. Remove linens and wash before reuse. On infested mattresses, apply as spot (no more than 2 sq ft) treatment only to tufts, seams, folds, and edges until moist; allow mattress to dry before remaking bed. Apply to bedsprings, box springs, and the interior of bed frames or headboards, including all cracks and joints. Apply to cracks and crevices on all baseboards, moldings, beneath floor coverings and carpets, closets, shelves, curtains, furniture, picture frames, and luggage that may harbor bed bugs. Keeps on killing bed bugs for up to 30 days.

TO KILL TICKS AND FLEAS - Apply as a spot (no more than 2 sq ft) treatment on and around pet sleeping quarters, bedding, and pet's habitat. Treat carpeting, furniture, and floor coverings where fleas and ticks are found.

TO KILL LISTED CRAWLING PESTS - Indoors, spray around baseboards, into cracks and crevices, and other places where insects live and hide (under sinks, cabinets, refrigerators, stoves, behind and beneath cabinets, damp areas, etc.) until surfaces are wet. Outdoors, apply as a crack and crevice or spot (no more than 2 sq ft) treatment, where insects may enter the home (windows, doors, porches, patios, etc.) or where they have been seen or can find shelter.

TO KILL ANTS (except Pharaoh) - Indoors, apply to ant trails on walls or baseboards, around doors, windows, and wherever ants may enter the home. Outdoors, treat around windows and doors, along sidewalks, or other areas where ants are seen.

TO KILL LISTED FLYING INDOOR PESTS - Apply to surfaces where house flies or other listed flying insects congregate, collect, or rest.

TO KILL WASPS- Make applications directly into nests. Remove and destroy treated nests if possible, or retreat nests as necessary.

TO KILL LISTED INSECTS ON ROSES, FLOWERS, HOUSEPLANTS, GROUND COVERS, AND SHRUBS - Do not apply this product while bees are foraging. Do not apply this product to flowers that are flowering. Only apply after all flower petals have fallen off. For houseplants, move outside, treat, let dry, bring back indoors. Use when insects or damage first appear. Hold spray 12-15 inches from foliage. Spray leaves, stems and tender new shoots. To kill insects that hide, spray the underside of the leaves. Apply until leaves are evenly coated with spray, but not dripping. Kills listed insects through contact and keeps killing for up to 30 days. For severe infestations, repeat every 7 to 14 days as necessary. Do not wet the foliage within one hour after applying. To avoid serious damage to plants, eliminate pests early in the season before they multiply.

NOTICE

Research and testing have determined that the "Directions for Use" are appropriate for the proper use of this product under expected conditions. To the extent consistent with applicable law, the Buyer assumes responsibility for lack of performance or safety if not used according to the directions.
