

U.S. ENVIRONMENTAL PROTECTION AGENCY

Office of Pesticide Programs
Registration Division (7505P)
1200 Pennsylvania Ave., N.W.
Washington, D.C. 20460

EPA Reg. Number:

72155-113

Date of Issuance:

4/21/15

NOTICE OF PESTICIDE:

Registration
 Reregistration
(under FIFRA, as amended)

Term of Issuance:

Unconditional

Name of Pesticide Product:

3FL1B HERBICIDE GRANULE

Name and Address of Registrant (include ZIP Code):

Bayer CropScience
PO Box 12014
2 TW Alexander Dr.
RTP, NC 27709

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is unconditionally registered in accordance with FIFRA section 3(c)(5) provided that you:

1. Submit and/or cite all data required for registration/reregistration/registration review of your product when the Agency requires all registrants of similar products to submit such data.
2. The data requirements for storage stability and corrosion characteristics (Guidelines 830.6317 and 830.6320) are not satisfied. A one year study is required to satisfy these data requirements. You have 18 months from the date of registration to provide these data.

Signature of Approving Official:

Kathryn Montague, Product Manager 23
Herbicide Branch, Registration Division (7505P)

Date:

4/21/15

3. A revised version of MRID 49415109 must be submitted which includes the expanded rationale for the request to waive pH data (Guideline 830.7000).
4. Make the following label changes before you release the product for shipment:
 - Revise the EPA Registration Number to read, “EPA Reg. No. 72155-113.”
5. Submit one copy of the revised final printed label for the record before you release the product for shipment.

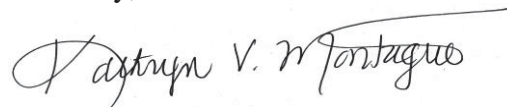

Should you wish to add/retain a reference to the company’s website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product’s label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA’s Office of Enforcement and Compliance.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6. Your release for shipment of the product constitutes acceptance of these conditions. A stamped copy of the label is enclosed for your records. Please also note that the record for this product currently contains the following CSFs:

- Basic CSF dated 03/24/2015
- Alternate CSF 1 dated 03/25/2015
- Alternate CSF 2 dated 03/26/2015

If you have any questions, you may contact Dominic Schuler at 703-347-0260 or via email at schuler.dominic@epa.gov.

Sincerely,

Kathryn V. Montague, Product Manager 23

(Back Panel)

Tired of killing weeds in your lawn – even after you’ve put down your traditional weed and feed granules? Just one application of [3FL1B Herbicide Granule] kills lawn weeds and prevents new ones, including Crabgrass, for up to six months. Plus it greens, feeds and strengthens your lawn for a thick, healthy turf. [Product Name] [It] delivers [season long] [extended] weed control that is simple and easy to use and it will not harm your lawn [when used as directed.] No need for frequent re-application [plus when applied in early spring, it prevents Crabgrass] [and Goosegrass] [and when applied late summer, Annual Bluegrass] [all season long.] Ideal for large areas – [treats 5,000] [square feet] [sq. ft.] with the 15.0 lb size [or] [XXXX square feet] [sq ft] with the [XX]lb size.] [Up to 6 months weed control – plus feeding – has never been easier]. [Spend your summer enjoying your lawn – not maintaining it!] [Killing and preventing weeds in your lawn for up to 6 months plus getting a healthy turf has never been easier.]

[QUICK FACTS]	
<i>Editorial Note – Marketing Claims Positioned Here [see Appendix]</i>	
[KILLS & PREVENTS] [For up to 6 Months]	Kills broadleaf weeds including [any applicable weed from weed list] Prevents grassy & broadleaf weeds such as[any applicable weed from weed list] Feeds and strengthens the lawn. Contains slow release fertilizer for long lasting feeding.
[PLUS FEEDS]	
[WHEN TO APPLY] [USE]	[Apply] Anytime [in] [early] spring [or fall].
[WHERE TO USE]	Use only on established lawns of the turf types listed below: Bermudagrass, Centipedegrass,[all varieties of] St. Augustinegrass [including Floratam], Zoysia [and Kentucky Bluegrass] DO NOT use on Ormond variety of Bermudagrass, Fescue, Bentgrass, Carpetgrass, Kikuyugrass, Ryegrass or Dichondra lawns
[COVERAGE]	This bag treats 5,000 sq ft [15 lb size] [or X,XXX sq ft [for XX lb size]]

✚ FIRST AID	
If swallowed	<ul style="list-style-type: none"> ▪ Call a poison control center or doctor immediately for treatment advice. ▪ Have person sip a glass of water if able to swallow. ▪ Do not induce vomiting unless told to do so by a poison control center or doctor. ▪ Do not give anything by mouth to an unconscious person.
If on skin or clothing	<ul style="list-style-type: none"> ▪ Take off contaminated clothing. ▪ Rinse skin immediately with plenty of water for 15 – 20 minutes. ▪ Call a poison control center or doctor for further treatment advice.
If in eyes	<ul style="list-style-type: none"> ▪ Hold eye open and rinse slowly and gently with water for 15 to 20 minutes. ▪ Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. ▪ Call a poison control center or doctor for further treatment advice.
<p>NOTE: When calling poison control center, have this product label accessible. If seeking treatment at an emergency room or doctor's office, bring this product label to show medical personnel. You may call toll-free 1-877-229-3763 for medical emergency information.</p> <p>Active Ingredients: 0.088% Dicamba, (CAS # 1918-00-9), 0.041% Penoxsulam (CAS # 219714-96-2) and 0.027% Indaziflam (CAS # 950782-86-2).</p>	

PRECAUTIONARY STATEMENTS	
	CAUTION HAZARDS TO HUMANS AND DOMESTIC ANIMALS
<ul style="list-style-type: none"> • Harmful if swallowed or absorbed through skin. • Causes moderate eye irritation. • Avoid contact with eyes, skin, or clothing. • Remove and wash contaminated clothing before reuse. • When using this product, wear long-sleeved shirt, long pants, socks, shoes, and rubber gloves. <p>After using this product:</p> <ul style="list-style-type: none"> • Rinse gloves before removing and wash hands. • If product gets on skin, wash thoroughly with soap & water. • If product gets on clothing, remove clothing as soon as possible and launder clothing separately before reuse. • Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet. 	

ENVIRONMENTAL HAZARDS
<ul style="list-style-type: none"> • This product is toxic to fish, aquatic invertebrates, and plants. Do not apply directly to water or to areas where surface water is present or to intertidal areas below the mean water mark. Do not contaminate water when disposing of rinsate or washwater. This product may impact water through spray drift or runoff. Follow directions for use to avoid spray drift and runoff. A level well maintained vegetative buffer strip between areas to which this product is applied and surface water features including ponds, streams and springs will reduce the potential of this product entering water from rainfall runoff. Runoff of this product will be reduced by avoiding applications when rainfall is forecasted to occur within 48 hours. • Ground Water Advisory: This pesticide has properties and characteristics associated with chemicals detected in groundwater. This chemical may leach into ground water if used in areas where soils are permeable, particularly where the water table is shallow. • Surface Water Advisory: This pesticide may impact water quality due to runoff of rain water. This is especially true for poorly draining soils and soils with shallow ground water. This product is classified as having a high potential for reaching surface water via runoff for several months or more after application.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

BEFORE YOU USE

- Use this product only on established Southern lawns – new lawns must be at least 3 months old if sodded, 16 months old if sprigged & 16 months old if seeded.
- Do not overlap treated areas or make repeat applications within 90 days as over application could damage the lawn.
- Apply only to actively growing turf.
- Do not apply to recently aerated or verticutted turf until it has recovered.
- Apply when the air is calm to avoid drift onto desirable plants.

HOW TO USE

- Use rotary or drop type spreader to apply granules evenly over the lawn. To be sure you cover lawn areas uniformly, first treat the border of the lawn then fill in the center. Make parallel passes, walking at a steady pace to ensure even distribution of the granules.
- Sweep, brush, or blow any accidentally applied material off driveways, sidewalks etc. back on to the lawn.
- Wait 24 hours after applying then activate residual barrier by lightly watering in [with 1/10 – ¼ inch of irrigation].
- Do not make more than two applications per site in any 12 month period.
- Heavy raking will disturb the weed preventative barrier and reduce the effectiveness of this product.

FOR BEST RESULTS

WHEN TO APPLY

- Apply when
 - weeds are small and actively growing
 - temperatures are between 50–90°F.
- May be applied to dry or (for best results) wet lawns.
- Do not apply while turfgrass is emerging from dormancy.
- Do not apply to centipedegrass after October 1.
- To prevent Crabgrass and Goosegrass apply early spring before the temperatures are regularly in the lower 80° F range.
- To prevent Annual Bluegrass apply August - December
- Lawns may be seeded 12 months, sodded 6 months , and sprigged 12 months after applying this product.
- [For optimal dollarweed control, apply this product mid-fall.]

[MOWING]

- If the lawns needs mowing, do it 1 to 2 days before (for best results) or 1 day after applying this product.
- Clippings from the first three mowings should be left on the treated area. Do not use the clippings from the treated areas as mulch or compost around flowers, ornamentals, trees, or in vegetable gardens.

[WATERING]

- If lawn is dry, water 1 to 2 days before using this product.
- Do not water for at least 24 hours after application or apply if rain is expected within 24 hours.

HOW IT WORKS

[Insert Product Name] contains a proven blend of weed killers to kill existing weeds plus a residual herbicide to keep them from coming back for up to 6 months. This product starts working immediately to stop weed growth until weeds are dead [within weeks] [4 to 10 weeks]. Plus, it feeds your lawn for quick greening and long lasting feeding.

[]

[]

Do not apply this product in a way that will contact any person or pet, either directly or through drift. Keep people and pets out of the area during application. Do not allow people or pets to enter the treated area until dusts have settled.

SPREADER SETTINGS

If your spreader is not listed, please call our Consumer Service Hotline toll-free (877) 229-3724 for help.

SPREADER	SETTING to deliver 3 lbs per 1,000 sq ft
[<i>Spreader models to be determined.</i>]	[<i>Spreader settings to be determined.</i>]
<ul style="list-style-type: none"> • Settings are approximate. The condition of your spreader, the speed at which you walk and uneven terrain may affect the rate of application. Calibrate your spreader according to manufacturer's directions. • Tip: 1,000 sq ft = 20 ft x 50 ft • Do not use a spreader that applies granules in narrow, concentrated or uneven bands. Be sure the spreader works properly and spreads granules evenly. 	
	

STORAGE AND DISPOSAL	
Do not contaminate water, food, or feed by storage and disposal	
Pesticide Storage	Store in original container in a cool, dry place, out of the reach of children, preferably a locked storage cabinet. Protect from freezing.
Pesticide Disposal and Container Handling  	If empty: Non-refillable container. Do not reuse or refill this container. Place in trash or offer for recycling if available. If partly filled: Call your local solid waste agency or toll free 1-877-229-3724 for disposal instructions. Never place unused product down any indoor or outdoor drain.

NOTICE: Research and testing have determined that the "Directions for Use" are appropriate for the proper use of this product under expected conditions. To the extent consistent with applicable law, the Buyer assumes responsibility for lack of performance or safety if not used according to the directions.

***Money Back Guarantee:** If you are not satisfied with this product, we will gladly refund your original purchase price. For the full Spanish translation go to www.BayerAdvanced.com
