DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Holiday Fire Ant Killer E.C. is an emulsifiable concentrate and should be diluted with water as specified below. Never use Holiday Fire Ant Killer E.C. at full strength.

DILUTION RATES:

Holiday Fire Ant Killer E.C.	Gallons of Water
2.0 Fl. Oz.	0.5 Gal.
4.0 Fl. Oz.	1.0 Gal.
6.0 Fl. Oz.	1.5 Gal.
8.0 Fl. Oz.	2.0 Gal.

Soil Drench Method: Use the appropriate rate of Holiday Fire Ant Killer E.C. with enough water to insure that the Fire Ant mound is completely saturated. Consult the dilution chart below for the appropriate dilution rate. Apply the Soil Drench in the early morning hours before the fire ants become active. Apply the Soil Drench in a circular motion starting at the base of the mound and continuing to the top of the mound. Mix only enough Soil Drench to be used at one time. Do not store Soil Drench solution overnight.

As a Spray: Apply Holiday Fire Ant Killer E.C. in a "pump up" type sprayer to control fire ants not in the mound at time of treatment. Fill the sprayer with diluted product as specified below. Apply to fire ants roaming outside the Soil Drench area. Mix only enough Spray to be used at one time. Do not store Spray solution overnight.

STORAGE AND DISPOSAL

Storage: Store in a cool dry place. Store only in original container and out of the reach of children, preferably in a locked storage area.

Disposal: If Empty: Do not reuse this container. Place in trash or offer for recycling if available. If Partially Filled: Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.
