Subject: Stellar 75 Tabs
EPA Registration Number 72437-4
Application Date: 9/13/05
Receipt Date: 9/14/05

Dear Ms. Laird:

The following amendment, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended, is acceptable with the condition listed below:

- To update the "first aid" statement in accordance with PR Notice 2001-1

Condition

On front panel above the First Aid Statement, delete the phrase "Statement of Practical Treatment".

General Comments

A stamped copy of the accepted labeling is enclosed. Submit three (3) copies of your final printed labeling before distributing or selling the product bearing the revised labeling.

Should you have any questions or comments concerning this letter, please contact Delores Williams at (703) 308-6372.

Sincerely,

Emily Mitchell

PRECAUTIONARY STATEMENT
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
DANGER

CORROSIVE, causes irreversible eye damage or skin burns. May be fatal if swallowed. Harmful if absorbed through skin or inhaled. Do not get in eyes, on skin or on clothing. Avoid breathing dust. Wear goggles or face shield. Wear protective clothing and rubber gloves. Wash thoroughly with soap and water after handling and before eating, drinking or using tobacco. Remove contaminated clothing and wash clothing before reuse.

ENVIRONMENTAL HAZARD

This pesticide is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

PHYSICAL OR CHEMICAL HAZARD

STRONG OXIDIZING AGENT. Contact with water slowly liberates irritating and hazardous chlorine and bromine containing gases. Decomposes at temperatures above 437°F with liberation of harmful gases. When ignited, will burn with the evolution of chlorine and equally toxic gases. Always add product to large quantities of water. Use clean, dry utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to a fire or explosion. Contamination with moisture, organic material, or other chemicals may start a chemical reaction with generation of heat, liberation of hazardous gases, and possible fire and explosion. When shock-feeding product should not sit in stagnant water after the feeder shuts off. Purge the feeder with minimal air or water flow between shock treatments.

In case of fire or smoke: Call the fire department. Do not attempt to extinguish the fire without a self-contained breathing apparatus (SCBA). Do not let the fire burn. Flood with copious amounts of water. Do not use ABC or other dry chemical extinguishers since there is the potential for a violent reaction.

STORAGE AND DISPOSAL

Keep this product dry in original tightly closed container when not in use. Store in a cool, dry well ventilated area away from open heat or flame. Do not contaminate food or feed by storage or disposal.

Container Disposal:

Do not reuse empty container. Rinse thoroughly before discarding in trash. If partly filled: Call your local solid waste agency or 1-800-CLEANUP For disposal instructions. Never place unused product down any indoor or outdoor drain.

STATEMENT OF PRACTICAL TREATMENT

FIRST AID:

If In Eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or a doctor for treatment advice.

If Swallowed: Call poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

If Inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth to mouth, if possible. Call poison control center or doctor for treatment advice

If on Skin or Clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for immediate treatment.

Have the product container of label with you when calling a poison control center or doctor, or going to treatment. **IN CASE OF EMERGENCY CALL** Chem Trec 1-800-424-9300. You may also call the National Pesticide Information Center (NPIC) at 800-858-7378 for emergency medical treatment information.

Note to Physician: Probable mucosal damage may contraindicate the use of gastric lavage.

DIRECT

It is a violation of Federal Law to use this product without proper labeling.

TO CONTROL THE GROWTH OF ALGAE IN

FOR POOLS

It is recommended that the pool be shocked with chlorine. The effect of sunlight on chlorine. Follow the instructions on the label. The filter system should be backwashed after each shock treatment. 7.6. It is necessary that the pool be shocked with chlorine. A chlorine reading of 1.0 and 3.0 is obtained. Check the pool floaters, proportioning mechanisms or whatever feeding mechanism is used to determine if further adjustments are needed. A shock treatment should be made every 7-10 days. Frequent shock treatment can be made to dissolve chlorine according to the label. Shock the pool after shock treatment until the chlorine level is 3.0.

FOR TOILET BOWLS

When used as directed, this product will eliminate odor. Sanitizing formula kills 99.9% of bacteria and deodorizes. To Sanitize, Clean and Deodorize: Flush the rim. Cut open package. Do not touch the rim. Drop tablet into right rear corner of toilet. Each tablet sanitizes for 30 minutes. Phosphates or phosphorus compounds.
