Greeley, CO 80631

Subject: **Notification:** Change of company address, new marketing claims and other minor label changes
Kaput Mole Gel Bait
EPA Reg. No. 72500-2

Dear Ms. Davis:

The Agency is in receipt of your Application for Pesticide Notification under Pesticide Registration Notice (PRN) 98-10 dated 7-3-09 for the product EPA Reg No 72500-2. The Registration Division (RD) has conducted a review of this request for its applicability under PRN 98-10 and finds that the action requested falls within the scope of PRN 98-10. The label submitted with the application has been stamped "Notification" and will be placed in our records.

If you have any questions, please call me @ 703-305-5314.

Sincerely,

A handwritten signature in black ink, appearing to read "Autumn Metzger".

Dear Ms. Arrington:

Subject: Scimetrics Ltd. Corporation
 Kaput® Mole Gel Bait
 EPA Reg. No. 72500-2

On behalf of **Scimetrics Ltd. Corporation**, RegWest Company, LLC is submitting the attached documents as a label revision notification for subject product. RegWest will act as sole agent in this endeavor.

Attached are the following:

1. Application for Pesticide: Other (Notification)
2. One **Reference Label**
3. Two **New Labels**

The primary purposes of this notification are to revise existing marketing claims, add two new marketing claims and to add California Prop 65 verbiage, although five other minor revisions have also been made. Please refer to the **Reference Label** for an illustration of all revisions.

Please contact me at (970) 353-0611 or kim@regwest.com if you require additional information or have any questions.

Regards,
RegWest Company, LLC

A handwritten signature in black ink, appearing to read "Kim Davis", is written over a circular stamp or mark.

[Attention [Notice]: This product contains a chemical known to the state of California to cause birth defects or other reproductive harm.]

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Read this Label:

Read this entire label and follow all use directions and precautions.

IMPORTANT: Do not expose children to this product or use it for any purpose other than to control moles. To help prevent accidents:

1. Store product not in use in a location out of reach of children and pets.
2. Follow all application directions and **Use Restrictions** on this label. Apply bait only in underground runways of moles. Keep your pets out of treated areas and isolate treated areas using existing fencing, if present.
3. Dispose of product container and unused or spoiled bait as specified on this label.

S
/

USE RESTRICTIONS

This product may be used only to control eastern moles (*Scalopus aquaticus*), starnose moles (*Condylura cristata*), hairy-tailed moles (*Parascalops breweri*), coast moles (*Scapanus orarius*), broad-footed moles (*S. latimanus*) or townsend moles (*S. townsendii*) on lawns, turf areas, golf courses and other non-food grassy areas. Bait must be applied directly into main underground tunnel or subsurface runways. Do not place bait above the ground surface.

SELECTION OF TREATMENT AREAS

The presence of moles may be indicated by a network of surface ridges in the turf or by a series of conical mounds of earth pushed up from deep burrows. Conical mounds may betray the location of main underground runways.

BAITING

Prior to treatment, determine which burrow systems are active. Using a round-ended wood rod, such as a broomstick, probe ground in vicinity of conical mounds or surface ridges until main underground runway is detected by a sudden decrease in resistance against the probe. Mark open burrow systems and revisit them 2-3 days later. For deeper tunnels, open system with a shovel and leave open. Burrow systems that are active are likely to be plugged by moles.

Treat only active borrow systems. To treat a burrow system, locate main runways by probing. Remove the cap from the tip of the applicator syringe and turn dosing ring to mark indicating half ounce. Inject half [] an ounce of bait (one-sixth of the contents of one syringe) through probe or shoveled opened hole at each bait placement location. Make six (6) such placements per burrow system. Cover holes made to enter tunnel with sod and soil, but do not allow dirt to sift in to foul or cover bait.

Check effects of treatment 4-5 days after bait application by opening and marking burrows in the manner used to check for initial activity. Return 2-3 days later and retreat all active burrows. Maximum application rate is 1 syringe/10,000 ft².

Storage and Disposal

Do not contaminate water, food or feed by storage or disposal.

Storage: Store in a cool, dry place inaccessible to children and pets. Do not store used or partially used syringes.

Pesticide Disposal: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility. **Container Disposal:** Non-Household Use Disposal: Dispose of empty container in a sanitary landfill or by incineration, or if allowed by state and local authorities, by burning. If burned, stay out of the smoke. **If empty:** Do not reuse this container. Place in trash or offer for recycling if available. **If partially filled:** Call your local solid waste agency

for disposal instructions. Never place unused product down any indoor or outdoor drain.

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals

CAUTION

Keep away from children, domestic animals and pets. If swallowed, this material may reduce the clotting ability of the blood and cause bleeding.

Notice to Physician and Veterinarian

This product reduces the clotting ability of the blood and may cause hemorrhaging. If poisoning occurs, intracutaneous and oral administration of Vitamin K1 are indicated, as in poisoning from an overdose of bis-hydroxycoumarin. For human cases, Vitamin K1 is antidotal at doses of 10-20 mg total (not mg/kg). For animal cases, Vitamin K1 is antidotal at 2-5 mg/kg. Repeated doses may need to be given up to two weeks (based upon monitoring of prothrombin times).

Environmental Hazards

This product is toxic to fish, birds and other wildlife. Do not apply this product directly to water, or to areas where surface water is present or the intertidal areas below the mean high water mark.

Notice of Warranty: Manufacturer and Seller make no warranty of merchantability, fitness for any purpose, or otherwise express or implied, concerning this product or its use which extend beyond the statements on this label.
