U.S. ENVIRONMENTAL PROTECTION AGENCY  
Office of Pesticide Programs  
Registration Division, 7500  
410 W. 9th St.,  
Washington, D.C. 20460

EPA Reg. Number:  
72500-6

Date of Issuance:  
September 8, 2003

Term of Issuance:

NOTICE OF PESTICIDE:

- Registration
- Reregistration

Name of Pesticide Product:  
Kaput® Rat and Mouse Bait

Under FIFRA, as amended

Name and Address of Registrant (include ZIP Code):

Scimetrics Ltd.  
120 Commerce Drive, Unit 4  
Fort Collins, CO 80624  
Attn: Todd Schmidt

**Note:** Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA sec. 3(c)(7) provided that you:

1. Make the following label change(s) before you release the product for shipment:
  - a. Add the following registration number: EPA Reg. No. 72500-6, to your label.
  - b. In the **APPLICATION DIRECTIONS** add "tamper resistant" before "bait station" in the **RATS** and **MICE** sections.
2. Submit one (1) copy of the revised final printed label for the record before you release the product for shipment.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A copy of the label stamped "Accepted" is enclosed for your records.

# Kaput<sup>®</sup> RAT & MOUSE BAIT

Grain Bait for the Control of Rats and Mice

### ACTIVE INGREDIENT: Warfarin

(3-(4-Acetylbenzyl)-4-hydroxycoumarin) ..... 0.025%

INERT INGREDIENTS ..... 99.975%

TOTAL ..... 100.000%

EPA Reg. No. 72500-(Applied For)

EPA Est. No. 72500-CO-1

## KEEP OUT OF REACH OF CHILDREN

**CAUTION:** See Below for Additional Information

Net Wt. 10 lbs.

### PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS

**CAUTION:** Keep away from humans, domestic animals and pets. If swallowed, this material may reduce the clotting ability of the blood and cause bleeding.

**NOTE TO PHYSICIAN OR VETERINARIAN:** This product reduces the clotting ability of the blood and may cause hemorrhaging. If poisoning occurs, intramuscular and oral administration of Vitamin K1 are indicated, as in poisoning from an overdose of bi-hydroxycoumarin. For human cases, Vitamin K1 is antidotal at doses of 10-20 mg total (not mg/kg). For animal cases, Vitamin K1 is antidotal at 2-5 mg/kg. Repeated doses may need to be given up to two weeks (based upon monitoring of prothrombin times).

**IF SWALLOWED:** Call a poison control center (1-800-858-7378 for the National Pesticide Information Center) or doctor for treatment advice.

### ENVIRONMENTAL HAZARDS

This product is toxic to mammals and birds. Predatory and scavenging mammals and birds might be poisoned if they feed upon animals that have eaten the bait. Do not apply directly to water, or to areas where surface water is present or the intertidal areas below the mean high water mark.

### DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

**READ THIS LABEL:** Read this entire label and follow all use directions and use precautions.

**IMPORTANT:** Do not expose children to this product or use it for any purpose other than to control rats and mice. To help prevent accidents:

1. Store product not in use in locations out of reach of children and pets.
2. Apply bait in locations out of reach of children, pets, domestic animals and non-target wildlife, or in tamper-resistant bait stations. These stations must be resistant to destruction by dogs and by children under six years of age, and must be used in a manner that prevents such children from reaching into bait compartments and obtaining bait. If bait can be shaken from stations when they are lifted, units must be secured or otherwise immobilized. Even stronger bait stations are needed in areas open to hooved livestock, raccoons, bears, other potentially destructive animals, or irresponsible persons.
3. Follow all application directions and **USE RESTRICTIONS** on this label. Keep your pets out of treated areas and isolate treated areas using existing fencing, if present.

4. Dispose of product container, and unused, spoiled or unconsumed bait as specified on this label.

**USE RESTRICTIONS:** This product may be used to control Norway rats (*Rattus norvegicus*), roof rats (*R. rattus*), and house mice (*Mus musculus*) in and around homes, industrial buildings, and similar manmade structures. Kaput<sup>®</sup> may also be used in transport vehicles (ships, trains, aircraft) and in and around related port or terminal buildings. This product may also be used in alleys in secured or otherwise immobilized bait stations. Do not place bait in areas where there is a possibility of contaminating food or surfaces that come in direct contact with food. Do not apply this bait directly to burrow. When used in USDA inspected plants, this product must be applied in tamper-resistant bait stations.

**SELECTION OF TREATMENT AREAS:** Determine where rats and mice will most likely find and consume the bait. Generally, these areas are along walls by gnawed openings, in or beside burrows within 15 feet of a building or wall, between floors and walls, or in locations where rodents or their signs have been seen. Protect bait from rain and snow. Remove as much alternative food as possible.

### APPLICATION DIRECTIONS

**RATS:** Apply 2 to 8 oz. of bait per placement. Placements should be made at intervals of 15-30 feet in infested areas. Maintain an uninterrupted supply of fresh bait for at least 10 days or until there no longer are signs of rat activity or of their interest in the bait.

**MICE:** Place 2-4 ounces of bait per placement. Placements should be made at intervals of 8-12 feet in infested areas. Maintain an uninterrupted supply of fresh bait for at least 15 days or until there no longer are signs of mouse activity or of their interest in the bait.

**RATS AND MICE:** Collect and dispose of all dead animals and leftover bait properly. To discourage reinfestation, limit sources of rodent food, water, and harborage as much as possible. If reinfestation does occur, repeat treatment. Where a permanent source of infestation is present, establish permanent bait stations and replenish the bait as needed. Fill and replenish bait stations according to the instructions indicated above for the target species (rats or house mice).

### STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

**STORAGE:** Store in original container in a dry place inaccessible to children and pets.

**PESTICIDE DISPOSAL:** Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

**CONTAINER DISPOSAL:** Dispose of empty container in a sanitary landfill, or by incineration, or if allowed by state and local authorities, by burning. If burned, stay out of smoke.

**NOTICE OF WARRANTY:** Manufacture and Seller make no warranty of merchantability, fitness for any purpose, or otherwise, express or implied, concerning this product or its use, which extend beyond the statements on this label.
